AGREEMENT

For receipt of water service from West Valley Water District, I agree to abide by the Water Service Regulations, Schedules of Rates and Charges, as adopted by the Board of Directors of the West Valley Water District, and as amended from time to time.

I have read and understand (or I waive reading of) said Regulations and Schedules of Rates and Charges and acknowledge and agree to all the terms on the back of this form. I understand that a copy of the District's Regulations and Schedules of Rates and Charges is available to me for reading and that copies are also available to me for purchase.

TERMS AND CONDITIONS

The West Valley Water District ("WVWD") owns, operates, and maintains the portion of the water service line from the water main to the outlet of the gate valve on the downstream side of the meter, check valve or backflow prevention device ("Service Connection"). The Customer is responsible for the remaining portion of the service line to the residential unit being served ("Customer Service Line). The Customer Service Line includes separate domestic water and fire sprinkler systems.

Customer acknowledges that WVWD will provide a single Service Connection to Customer's property identified in this application ("Property"). In the event WVWD discontinues water service to the Property for any reason set forth in WVWD's rules and regulations ("Regulations"), including, but not limited to, failure to make payment when due, WVWD may, in accordance with the Regulations, discontinue water service to the Property. If WVWD discontinues water service to the Property, there is no water service for the residential sprinkler system. Customer, during Customer's ownership of the Property, assumes all risk of loss and damage to the Property, including the residential unit located on the Property or injury to persons arising out of the termination of such water service and hereby waives all claims in respect thereof against WVWD, including losses arising from or in connection with the loss of residential fire sprinkler protection. In addition to the foregoing, Customer, during Customer's ownership of the Property, assumes all risk of loss or damage to personal and real property due to backflow from the fire sprinkler system portion of the Customer Service Line into the domestic portion of the Customer Service Line for any reason whatsoever, including without limitation, any water quality exceedances.

Customer shall assume the defense of, indemnify and hold harmless WVWD from and against all actions, causes of action, damages, demands, liabilities, costs (including, but not limited to reasonable attorneys' fees), claims, losses and expenses of every type and description (collectively, "Costs") to which it may be subjected or put, by reason of, or resulting from: (A) the design, construction, testing (including inspection to ensure that such system is operational), operation, maintenance, repair and replacement of the residential fire sprinkler system located on the Property; (B) the performance of or failure to perform of the residential fire sprinkler system located on the Property during Customer's ownership of the Property; (C) backflow from the fire sprinkler system portion of the Customer Service Line into the domestic portion of the Customer Service Line for any reason whatsoever, including without limitation, any water quality exceedances during Customer's ownership of the Property; and (D) any death, injury, property damage, accident or casualty caused or claimed to be caused by the discontinuance of water service to the Property for any reason set forth in WVWD's Regulations, including, but not limited to, failure to make payment when due, including any Costs arising from or in connection with the loss of the use of the residential fire sprinkler system on the Property during Customer's ownership of the Property. WVWD shall make all decisions with respect to its representation in any legal proceeding concerning this Section. Customer hereby waives all claims and demands against WVWD for any such Costs.

Customer acknowledges that WVWD shall have no obligation nor responsibility with respect to the design, construction, testing (including inspection to ensure that such system is operational), operation, maintenance, repair or replacement of the residential fire sprinkler system on Customer's Property which shall be Customer's responsibility and Customer shall bear all risk of loss or damage thereto and/or thereby, by whatever cause inflicted which shall be Customer's responsibility.
