STAFF REPORT

DATE: February 10, 2025

TO: Finance Committee

FROM: William Fox, Chief Financial Officer

SUBJECT: Approve Contract for Wrought Iron Fence and Gates at Well 30

MEETING HISTORY:

N/A

BACKGROUND:

West Valley Water District ("District") Well 30 located at 2015 W. 9th St in San Bernardino has in recent times been broken into, vandalized, and burglarized. In the past, the perpetrators either cut or climbed over the existing chain link fence, sprayed graffiti and attempted breaking into the pump station building. District staff has repaired the existing chain link fence multiple times, repaired broken components and has had to perform site cleanup after each incident. One solution to this ongoing security issue is to install a wrought iron fence which would be much more difficult to cut or climb and would thereby serve as a deterrent to protect the District's assets.

District staff has identified a need to remove the existing chain link fence at Well 30 and install approximately 1.200 linear feet of 8 foot high wrought iron fence with arched top pickets and one (1) 8 foot high by 20 foot wide wrought iron double swing gate with arched top pickets and one (1) 8 foot high by 4 foot wide wrought iron pedestrian gate with arched top pickets to match.

DISCUSSION:

On January 10, 2025, a Request for Bid ("RFB") was issued and publicly advertised on PlanetBids to solicit bids from licensed, bonded, and insured fencing contractors. Seven (7) contractors attended a mandatory pre-bid meeting and job walk on January 16, 2025. On January 28, 2025, six (6) contractors - Golden West Fence, Westbrook Fence, Irvine Fence, EverFence, Gold Coast Fence and Red Hawk Services - submitted bids to provide the specified services. Attached as **Exhibit A** is the RFB for Wrought Iron Fence and Gates at Well 30 and **Exhibit B** an aerial view of the Well 30 site.

The six bids are as follows:

| Contractor | Bid Amount |
|-------------------|--------------|
| Golden West Fence | \$135,899.98 |

| Westbrook Fence | \$151,980.00 |
|-------------------|--------------|
| Irvine Fence | \$156,000.00 |
| EverFence | \$186,307.00 |
| Gold Coast Fence | \$239,450.00 |
| Red Hawk Services | \$249,144.33 |

Based on the information received, District staff examined the lowest bid submitted by Golden West Fence and determined it to be in conformance with the requirements of the project.

FISCAL IMPACT:

This item is included in the Fiscal Year 2024-2025 Capital Improvement (CIP) budget and will be funded from Project Number W25008 titled "Wrought Iron Security Fence at Well 30" with a budget of \$160,000.00.

REQUESTED ACTION:

Forward a recommendation to the Board of Directors to approve a contract with Golden West Fence in the amount of \$135,899.98 for installation of wrought iron fence and gates at Well 30.

- F. The procedure and time limits set forth in this paragraph are mandatory and are the sole and exclusive remedy in the event of a bid protest. 1.2 Schedule of Pay Items.

IMPORTANT:

THE ELECTRONIC SCHEDULE OF PAY ITEMS MUST BE COMPLETED BY EACH BIDDER AND PROPERLY SUBMITTED ON PLANET BIDS.

FAILURE TO COMPLETE THE SCHEDULE OF PAY ITEMS WILL RESULT IN AN INCOMPLETE AND NON-RESPONSIVE BID.

THE ELECTRONIC SCHEDULE OF PAY ITEMS WILL BE INCORPORATED INTO THE CONTRACT DOCUMENTS.

A. Bid Items Identified on the Contract Drawings.

Pay Items in Schedule A of the Schedule of Pay Items are described in the Specifications and are identified on the Contract Drawings as to location.

In the case of unit price items, WVWD reserves the right to increase or decrease the quantities up to twenty-five percent (25%) using the bid unit price (unless otherwise stated in the Contract Documents) to accommodate conditions encountered on the Project. These adjustments are considered to be within the original Contract scope and as such will not be considered as a basis for a change in the bid unit price or Contract Times.

If the actual quantities of a Pay Item exceeds twenty-five percent (25%), WVWD and the Contractor will negotiate an equitable increase or decrease in the bid unit price in accordance with the Contract Documents.

B. Anticipated Scope Not Identified on the Contract Drawings.

Pay items in Schedule B of the Schedule of Pay Items are allowances for Work that will likely be encountered during the project, but at unknown locations.

Quantities are an estimate for the purposes of comparing Bids only. Payment of these pay items will be based on actual quantities furnished, installed, disposed, or constructed in accordance with the Contract Documents. Owner reserves the right to vary the quantities plus or minus one hundred percent (100%) to accommodate conditions encountered on the Project. These adjustments are considered to be within the original Contract scope regardless of where they occur, and as such will not be considered as a basis for a change in the Contract Times.

C. Additive or Deductive Bid Alternate Items.

Pay items in Schedule C of the Schedule of Pay Items, if any, are described in the Specifications and are identified on the Contract Drawings as to location.

These pay items may be added to, or deducted from, the original Contract scope at the sole discretion of WVWD. However, these alternates are considered to be within the original Contract scope and as such will not be considered as a basis for a change in the Contract Times.

KNOW ALL PERSONS BY THESE PRESENTS:

| THAT WHEREAS, the West Valley Water District (hereinafter referred to as "WVWD") has awarded to, (hereinafter referred to as the "Contractor") an agreement for(hereinafter referred to as the "Project"). |
|---|
| WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract Documents for the Project dated, (hereinafter referred to as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and |
| WHEREAS, the Contractor is required by the Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of the Contract Documents. |
| NOW, THEREFORE, we,, the undersigned Contractor and as Surety, a corporation organized and |
| duly authorized to transact business under the laws of the State of California, are held and firmly bound unto WVWD in the sum of DOLLARS, (\$), the sum being not less than one hundred percent (100%) of the total amount of the Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents. |

THE CONDITION OF THIS OBLIGATION IS SUCH, that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations including the one-year guarantee of all materials and workmanship; and shall indemnify and save harmless WVWD, its officers and agents, as stipulated in the Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Project, unless otherwise provided for in the Contract Documents, the guarantee obligation shall hold good for a period of one (1) year after the acceptance of the work by WVWD, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect WVWD from loss or damage resulting from or caused by defective materials or faulty workmanship the above obligation in penal sum thereof shall remain in full force and effect. However, anything in this paragraph to the contrary notwithstanding, the obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit WVWD's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

As a part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees including reasonable attorney's fees, incurred by WVWD in enforcing such obligation.

Whenever Contractor shall be, and is declared by WVWD to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at WVWD's option:

Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a Contract between such bidder, the Surety and WVWD, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by WVWD under the Contract and any modification thereto, less any amount previously paid by WVWD to the Contractor and any other set offs pursuant to the Contract Documents.
- 3. Permit WVWD to complete the Project in any manner consistent with California law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by WVWD under the Contract and any modification thereto, less any amount previously paid by WVWD to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that WVWD may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if WVWD, when declaring the Contractor in default, notifies Surety of WVWD's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract to be performed thereunder, shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of Contract. including but not limited to the provisions of Sections 2819 and 2845 of the California Civil Code.

No such provision or instruction shall be effective to assign to WVWD or WVWD's

Representative, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, any duty or authority to supervise or direct the performance of the Work or any duty or authority to undertake responsibility inconsistent with the provisions of the Contract Documents.

B. Resolving Discrepancies; Order of Precedence.

- 1. Except as may be otherwise specifically stated in the Contract Documents, the provisions of the Contract Documents shall take precedence in resolving any conflict, error, ambiguity, or discrepancy between the provisions of the Contract Documents and:
 - a. the provisions of any standard, specification, manual, or code, or the instruction of any Supplier (whether or not specifically incorporated by reference in the Contract Documents); or
 - b. the provisions of any Applicable Laws (unless such an interpretation of the provisions of the Contract Documents would result in violation of such Applicable Law).

 - a. Permits from other agencies as may be required by law;
 - b. Change Orders or Pending Change Orders, most recent first
 - c. Contract;

- 4. Notwithstanding the orders of precedence established above, in the event of conflicts, the higher standard, higher quality and most expensive shall always apply.
- 3.4 Amending and Supplementing Contract Documents.
 - A. The Contract Documents may be amended to provide for additions, deletions, and revisions in the Work or to modify the terms and conditions thereof only by a Change Order.

A difference in elevation between groundwater shown in soil boring logs and groundwater actually encountered during construction will not be considered as a basis for Additional Work or Claim.
- D. <u>Unauthorized Use of Technical Data.</u> Contractor is prohibited from utilizing any information, including but not limited to "technical data" provided in conjunction with this Project. WVWD, WVWD's Representative, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, shall not be liable to Contractor for any claims, costs, losses, or damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) sustained by Contractor on or in connection with any other project or anticipated project.

4.4 <u>Differing Subsurface or Physical Conditions.</u>

A. <u>Notice.</u> If Contractor believes that any subsurface or physical condition that is uncovered or revealed either:

- 2. is of such a nature as to require a change in the Contract Documents; or
- 3. differs materially from that shown or indicated in the Contract Documents; or
- 4. is of an unusual nature, and differs materially from conditions ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract Documents;

then Contractor shall, promptly, but in no case more than five (5) Days after becoming aware thereof and before further disturbing the subsurface or physical conditions or performing any Work in connection therewith (except in an Emergency), notify WVWD and WVWD's Representative in writing about such condition. Contractor shall not further disturb such condition or perform any Work in connection therewith (except as aforesaid) until receipt of written order to do so.

4.5 <u>Underground Facilities.</u>

- A. <u>Shown or Indicated.</u> The information and data shown or indicated in the Contract Documents with respect to existing Underground Facilities at or contiguous to the Site is based on information and data furnished to WVWD or WVWD's Representative by the owners of such Underground Facilities, including WVWD, or by others. Unless it is otherwise expressly provided in the Special Conditions:
 - 1. WVWD and WVWD's Representative shall not be responsible for the accuracy or completeness of any such information or data provided by others; and
 - 2. The cost of all of the following will be included in the Contract Price, and Contractor shall have full responsibility for:
 - a. reviewing and checking all such information and data;
 - b. locating all Underground Facilities shown or indicated in the Contract Documents. Contractor shall determine the location and depth of all utilities, including service connections, which have been marked by the respective owners and which may affect or be affected by its operations. Full compensation for such Work shall be considered as included in Contractor's Bid price;
 - c. coordination of the Work with the owners of such Underground Facilities, including WVWD, during construction; and
 - d. the safety and protection of all such Underground Facilities and repairing any damage thereto resulting from the Work.

B. Not Shown or Indicated.

- 1. If an Underground Facility is uncovered or revealed at or contiguous to the Site which was not shown or indicated, or not shown or indicated with reasonable accuracy in the Contract Documents, Contractor shall, promptly, but in no case more than five (5) Days after becoming aware thereof and before further disturbing conditions affected thereby or performing any Work in connection therewith (except in an emergency as required by Section 00 72 13, Article 6.20), identify the owner of such Underground Facility and give written notice to that owner and to WVWD and WVWD's Representative. WVWD's Representative will promptly review the Underground Facility and determine the extent, if any, to which a change is required in the Contract Documents to reflect and document the consequences of the existence or location of the Underground Facility. During such time, Contractor shall be responsible for the safety and protection of such Underground Facility.
- C. Notice of Underground Excavation. As provided in Government Code section 4216.2, at least two (2) work days, but not more than 14 Days prior to commencing any excavation, if the excavation will be conducted in an area which is known, or reasonably should be known, to contain subsurface installations, Contractor shall contact the appropriate regional notification center and shall request all affected utility owners to mark or otherwise indicate the approximate locations of their subsurface installations.
 - 1. After the utility survey is completed, the Contractor shall commence "potholing" or hand digging to determine the actual location of the pipe, duct, or conduit. WVWD shall be given written notice prior to commencing potholing operations. The Contractor shall uncover all piping and conduits, to a point one (1) foot below the pipe, where crossings, interferences, or connections are shown on the Drawings, prior to trenching or excavating for any pipe or structures, to determine actual elevations. New pipelines shall be laid to such grade as to clear all existing facilities, which are to remain in service for any period subsequent to the construction of the run of pipe involved.
 - 2. A "High Priority Subsurface Installation" is defined in section 4216 (e) as "high-pressure natural gas pipelines with normal operating pressures greater than 415kPA gauge (60psig) or greater than six inches nominal pipe diameter, petroleum pipelines, pressurized sewage pipelines, high-voltage electric supply lines, conductors, or cables that have a potential to ground of greater than or equal to 60kv, or hazardous materials pipelines that are potentially hazardous to workers or the public if damaged."
 - 3. The Contractor's attention is directed to the requirements of Government Code section 4216.2 (a)(2) which provides: "When the excavation is proposed within 10 feet of a High Priority Subsurface Installation, the operator of the high priority subsurface installation shall notify the excavator of the existence of the high priority subsurface installation prior to the legal excavation start date and time, as such date and time are authorized pursuant to paragraph (1) of subdivision (a) of section 4216.2. The excavator and the operator or its representative shall conduct an onsite meeting at a mutually-agreed-on time to determine actions or activities required to verify the location of the high priority subsurface installation prior to start time." The Contractor shall notify WVWD in advance of this meeting.

- D. <u>Protection of Utilities.</u> Contractor shall not interrupt the service function or disturb the support of any utility, without authority from WVWD or order from the utility owner. All valves, switches, vaults, and meters shall be maintained readily accessible for emergency shutoff. Where protection is required to ensure support of utilities shown in the Contract Documents, Contractor shall, unless otherwise provided, furnish and place the necessary protection at its expense.
- E. <u>Notification Requirements If Utility Disturbed.</u> Contractor shall immediately notify WVWD's Representative and the utility owner if any utility is disturbed or damaged. Contractor shall bear the costs of repair or replacement of any utility damaged by Contractor.
- F. Removal of Abandoned Utilities. Unless otherwise specified, Contractor shall remove all interfering portions of utilities shown in the Contract Documents or indicated in the Bidding Documents as "abandoned". Before starting removal operations, Contractor shall ascertain from the utility owner whether the abandonment is complete. The costs involved in the removal and disposal shall be included in the price for the item of Work necessitating such removals.

G. Relocation of Utilities.

- 1. When the Contract Documents provide for Contractor to alter, relocate, or reconstruct a utility, all costs for such Work shall be included in the Contract Price.
- 2. Temporary or permanent relocation or alteration of indicated utilities requested by Contractor for Contractor's convenience shall be Contractor's responsibility, and Contractor shall make all arrangements and bear all costs.
- 3. After award of the Contract, portions of utilities not indicated in the Contract Documents which are found to interfere with the Work may be relocated, altered, or reconstructed by the utility owner, or WVWD's Representative may order changes in the Work to avoid interference. Such changes will be paid for in accordance with these General Conditions.
- H. <u>Access to the Work.</u> When necessary, Contractor shall so conduct its operations as to permit access to the Site and provide time for utility work to be accomplished during normal work hours during the progress of the Work.

4.6 Trenches or Other Excavations.

- A. If any portion of the Work involves digging trenches or other excavations that extend deeper than four feet below the surface:
 - 1. Contractor shall promptly, and before the following conditions are disturbed, notify WVWD's Representative, in writing, of any:
 - a. provide WVWD's representative with a copy of any required permits;
 - b. material that Contractor believes may be material that is Hazardous Waste;

- c. subsurface or latent physical conditions at the Site differing from those indicated by information about the Site made available to bidders prior to the deadline for submitting bids; or
- d. unknown physical conditions at the Site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract.
- 2. Upon such notification, WVWD's Representative shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve Hazardous Waste, and cause a decrease or increase in Contractor's cost of, or the time required for, performance of any part of the Work, shall issue a Change Order under the procedures described in this Contract.
- 3. In the event that a dispute arises between WVWD and Contractor whether the conditions materially differ, or involve Hazardous Waste, or cause a decrease or increase in Contractor's cost of, or time required for, performance of any part of the Work, Contractor shall not be excused from any scheduled completion date provided for by the Contract, but shall proceed with all Work to be performed under the Contract. Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

4.7 <u>Hazardous Environmental Conditions at Site.</u>

- A. Reports and Drawings. The Special Conditions identify those reports and drawings known to WVWD relating to Hazardous Environmental Conditions that have been identified at the Site.
- B. <u>Limited Reliance by Contractor on Technical Data Authorized.</u> Contractor may rely upon the accuracy of the "technical data" contained in such reports and drawings, but such reports and drawings are not Contract Documents. Such "technical data" is identified in the Special Conditions. Contractor shall make its own interpretation of the "technical data" and shall be solely responsible for any such interpretations. Except for reliance on the accuracy of such "technical data," Contractor may not rely upon or make any claim against WVWD or WVWD's Representative, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, with respect to:
 - 1. the completeness of such reports and drawings for Contractor's purposes, including without limitation any aspects of the means, methods, techniques, sequences, and procedures of construction to be employed by Contractor and safety precautions and programs incident thereto; or
 - 2. other data, interpretations, opinions and information contained in such reports or shown or indicated in such drawings; or

Contractor shall be responsible for a Hazardous Environmental Condition created with any materials brought to the Site by Contractor, Subcontractors, Suppliers, or anyone else for whom Contractor is responsible.
- D. If Contractor encounters a Hazardous Environmental Condition or if Contractor or anyone for whom Contractor is responsible creates a Hazardous Environmental Condition, Contractor shall immediately: (i) secure or otherwise isolate such condition; (ii) stop all Work in connection with such condition and in any area affected thereby (except in an Emergency); and (iii) notify WVWD and WVWD's Representative (and promptly thereafter confirm such notice in writing). WVWD shall promptly consult with WVWD's Representative concerning the necessity for WVWD to retain a qualified expert to evaluate such condition or take corrective action, if any.
- E. Contractor shall not be required to resume Work in connection with such condition or in any affected area until after WVWD has obtained any required permits related thereto and delivered written notice to Contractor: (i) specifying that such condition and any affected area is or has been rendered safe for the resumption of Work; or (ii) specifying any special conditions under which such Work may be resumed safely.
- F. If after receipt of such written notice Contractor does not agree to resume such Work based on a reasonable belief it is unsafe, or does not agree to resume such Work under such special conditions, then WVWD may order the portion of the Work that is in the area affected by such condition to be deleted from the Work in accordance with the Contract Documents. WVWD may have such deleted portion of the Work performed by WVWD's own forces or others.
- G. To the fullest extent permitted by Applicable Laws, Contractor shall indemnify, defend, and hold harmless WVWD and WVWD's Representative, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to a Hazardous Environmental Condition created, in whole or in part, by Contractor or by anyone for whom Contractor is responsible. Nothing in this Section shall obligate Contractor to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence.

4.8 Protection and Restoration of Existing Improvements and Reference Points.

- A. In the event that any historical stamps/impressions or survey monuments are located on existing sidewalks or curbs, which may be affected by the Work or construction activities, the disposition or reestablishment of those stamps/impressions shall be determined by WVWD.
- B. WVWD shall provide engineering surveys to establish reference points for construction which in WVWD's Representative's judgment are necessary to enable Contractor to proceed with the Work. Contractor shall be responsible for laying out the Work, shall protect and preserve the established reference points and property monuments, and

shall make no changes or relocations without the prior written approval of WVWD. Contractor shall report to WVWD's Representative whenever any reference point or property monument is lost or destroyed or requires relocation because of necessary changes in grades or locations, and shall be responsible for the accurate replacement or relocation of such reference points or property monuments by professionally qualified personnel.

WVWD may perform other work related to the Project at the Site with WVWD's employees or through other direct contracts, or have other work performed by utility owners (collectively, "Other Contractors"). If such other work is not noted in the Contract Documents, then written notice thereof will be given to Contractor prior to starting any such other work.
- B. <u>Cost of Coordination.</u> Contractor shall include in its Bid all costs associated with coordinating its Work with Other Contractors. Contractor's failure to so report will constitute an acceptance of such other work as fit and proper for integration with Contractor's Work except for latent defects and deficiencies in such other work.
- G. <u>Claims by Other Contractors.</u> If any claims are made by Other Contractors arising out of Contractor's performance of the Work, Contractor shall be responsible to immediately resolve the dispute and indemnify WVWD pursuant to the Contract Documents.

Contractor also expressly agrees that, in the event its Work is hindered, delayed, interfered with, or otherwise affected by a separate contractor, its sole remedy will be a direct action against the Other Contractor. Where the Contract Documents provide that all or part of the Work is to be Unit Price Work, initially the Contract Price will be deemed to include for all Unit Price Work an amount equal to the sum of the unit price for each separately identified item of Unit Price Work multiplied by the estimated quantity of each item as indicated in the Contract.
- B. The estimated quantities of items of Unit Price Work are not guaranteed and are solely for the purpose of comparison of Bids and determining an initial Contract Price. Determinations of the actual quantities and classifications of Unit Price Work performed by Contractor will be made by WVWD's Representative.
- C. Each unit price will be deemed to include an amount considered by Contractor to be adequate to cover Contractor's Overhead and Profit for each separately identified item.

- B. Contractor shall promptly execute changes in the Work as directed in writing by WVWD even when the parties have not reached agreement on whether the change increases the scope of Work or affects the Contract Price of Contract Time, if any. All claims for additional compensation to the Contractor shall be presented in writing. No claim will be considered after the work in question has been done unless a written Change Order has been issued or a timely written notice of claim has been made by Contractor. Contractor shall not be entitled to claim or bring suit for damages, whether for loss of profits or otherwise, on account of any decrease or omission of any item or portion of Work to be done. Whenever any change is made as provided for herein, such change shall be considered and treated as though originally included in the Contract Documents, and shall be subject to all terms, conditions and provisions of the original Contract Documents.
- C. Contractor shall not reserve a right to assert impact costs, extended job site costs, extended overhead (direct or indirect), constructive acceleration and/or actual acceleration beyond what is stated in the Change Order. No claims shall be allowed for impact, extended overhead costs, constructive acceleration and/or actual acceleration due to a multiplicity of changes and/or clarifications. The Contractor may not change ormodify WVWD's Change Order form in an attempt to reserve additional rights.
- D. No changes in the work covered by this Agreement shall exonerate any surety or any bond given in connection with this Agreement.

9.2 Contract Price Change.

A. Process for Determining Adjustments in Contract Price.

If Contractor fails to submit its Change Order Request ("COR") within seven (7) Days of receiving the RFP, or the time indicated by WVWD's Representative, Contractor shall be solely liable for any delays or impacts caused by the delayed submittal of the COR.
- 2. <u>Contractor Initiated Change.</u> As further described below, the Contractor must give written notice of a COR, additional compensation or adjustment of the Contract Times within seven (7) Days of discovery of the facts giving rise to the proposed change order.
- 3. <u>COR Detail.</u> Contractor's COR shall include material, labor, and equipment separately priced for each element of Work. Allowable Overhead and Profit may be added to the total of these costs if allowed by the Contract Documents. As general guidance, all cost documentation shall be tabulated from detailed computerized spreadsheets in a "workbook" which will be compiled into useful summary spreadsheets as directed by WVWD's Representative.
 - a. <u>Unit Price Method.</u> Where the Additional Work involved is covered or is of the same character as the original Contract, Unit Price Work by application of those unit prices to the quantities of the items involved;
 - b. <u>Lump Sum Bilateral Change Method.</u> By mutual acceptance of a lump sum price negotiated on the basis of the Contractor's itemized estimate of the anticipated costs of the Additional Work.
 - c. <u>Time and Materials Method.</u> WVWD may direct Contractor to proceed with the Additional Work with payments to be made on the basis of the actual cost of the labor and materials required to complete the Additional Work.
- 4. <u>COR Form:</u> Contractor's COR shall be on forms acceptable to WVWD's Representative. Contractor's COR shall certify in writing that the amounts included cover all direct, supplemental, indirect, consequential, and cumulative costs and delays, as applicable, and that those costs and delays would be or were necessarily incurred, despite Contractor's reasonable and diligent efforts to mitigate them. Mitigation efforts undertaken by Contractor must be described.

B. Unit Price Change Orders.

1. When the actual quantity of a Unit Price item varies from the Bid Form, compensation for the change in quantity will be calculated by multiplying the actual quantity by the Unit Price. This calculation may result in either an additive or deductive Change Order pursuant to the Contract Documents.

- 2. No Mark Up for Overhead and Profit. Since the Contract Unit Prices provided by in the Bid Form include Overhead and Profit as determined by Contractor at time of Bid submission, no mark up or deduction for Overhead and Profit will be included in Unit Price Change Orders.
- C. <u>Lump Sum Change Orders</u>. Compensation for Lump Sum Change Orders shall be limited to expenditures necessitated specifically by the Additional Work, and shall be segregated as follows:
 - 1. <u>Labor</u>. The costs of labor will be the actual cost for wages prevailing locally for each craft or type of worker at the time the extra work is done, plus employer payments of payroll taxes and insurance, health and welfare, pension, vacation, apprenticeship funds, and other direct costs resulting from federal, state or local laws, as well as assessment or benefits required by lawful collective bargaining agreements. The use of a labor classification which would increase the cost of the Additional Work will not be permitted unless the Contractor establishes the necessity for such new classifications. Labor costs for equipment operators and helpers shall be reported only when such costs are not included in the invoice for equipment rental.
 - Materials. The cost of materials shall be at invoice or lowest current price at which such materials are locally available in the quantities involved, plus sales tax, freight and delivery. Materials cost shall be based upon supplier or manufacturer's invoice. If invoices or other satisfactory evidence of cost are not furnished within fifteen (15) Days of delivery, then WVWD shall determine the materials cost, at its sole discretion.
 - 3. Tool and Equipment Use. Costs for the use of small tools, which are tools that have a replacement value of \$1,000 or less, shall be considered included in the Overhead and Profit markups established below. Regardless of Ownership, the rates to be used in determining equipment use costs shall not exceed listed rates prevailing locally at equipment rental agencies, or distributors, at the time the Work is performed.

D. Time and Materials Change Orders.

1. <u>General.</u> The term Time and Materials means the sum of all costs reasonably and necessarily incurred and paid by Contractor for labor, materials, and equipment in the proper performance of Additional Work. 2. Timely and Final Documentation.

a. Contractor must submit timesheets, materials invoices, records of equipment hours and records of rental equipment hours to WVWD's Representative for an approval signature each day Additional Work is performed. Failure to get WVWD's Representative's approval signature each Day may result in a waiver of Contractor's right to claim these costs.

- b. All documentation of incurred costs shall be submitted by Contractor and approved by WVWD's Representative within three (3) Days of incurring the cost for labor, material, equipment, and special services. Contractor's total actual cost shall be presented in a summary table in an electronic spreadsheet file by labor, material, equipment, and special services (T&M Summary Sheets). Contractor's failure to provide the T&M Summary Sheets within three (3) Days of performance of the work will result in the Contractor's otherwise allowable profit being reduced by 50% for that portion of Additional Work which was not documented in a timely manner. Contractor's failure to submit the T&M Summary Sheets within three (7) Days of completion of the work will result in Contractor's waiver for any reimbursement of any costs associated with the T&M Summary Sheets or the performance of the Additional Work.
- 3. <u>Labor.</u> The costs of labor will be the actual cost substantiated by timesheets and certified payroll for wages prevailing for each craft or type of workers performing the Additional Work at the time the Additional Work is done, plus employer payments of payroll taxes, workers compensation insurance, liability insurance, health and welfare, pension, vacation, apprenticeship funds, and other direct costs resulting from Federal, State or local laws, as well as assessments or benefits required by lawful collective bargaining agreements.
 - a. <u>Equipment Operator Exception.</u> Labor costs for equipment operators and helpers shall be paid only when such costs are not included in the invoice for equipment rental.
 - b. <u>Foreman Exception.</u> The labor costs for foremen shall be proportioned to all of their assigned work and only that applicable to the Additional Work shall be paid. - 4. <u>Materials.</u> The cost of materials reported shall be itemized at invoice or lowest current price at which materials are locally available and delivered to the Site in the quantities involved, plus the cost of sales tax, freight, delivery, and storage.
 - a. Trade discounts available to the purchaser shall be credited to WVWD notwithstanding the fact that such discounts may not have been taken by Contractor.

 - c. Payment for materials from sources owned wholly or in part by the purchaser shall not exceed the price paid by the purchaser for similar materials from said sources on Additional Work items or the current wholesale price for such materials delivered to the Site, whichever price is lower.
 - d. If in the opinion of WVWD's Representative the cost of materials is excessive, or Contractor does not furnish satisfactory evidence of the cost of such

- materials, then the cost shall be deemed to be the lowest current wholesale price for the total quantity concerned delivered to the Site less trade discounts.
- e. WVWD reserves the right to furnish materials for the Additional Work and no Claim shall be allowed by Contractor for costs of such materials or Indirect Costs or profit on WVWD furnished materials.
- 5. Equipment. Contractor will be paid for the use of equipment at the rental rates listed for that equipment in the California Department of Transportation publication entitled Labor Surcharge and Equipment Rental Rates, which is in effect on the date upon which the Contract was executed. Such rental rate will be used to compute payments for equipment whether the equipment is under Contractor's control through direct Ownership, leasing, renting, or another method of acquisition. The rental rate to be applied for use of each item of equipment shall be the rate resulting in the least total cost to WVWD for the total period of use. If it is deemed necessary by Contractor to use equipment not listed in the publication, an equitable rental rate for the equipment will be established by WVWD's Representative. Contractor may furnish cost data which might assist WVWD's Representative in the establishment of the rental rate.
 - a. All equipment shall, in the opinion of WVWD's Representative, be in good working condition and suitable for the purpose for which the equipment is to be used.
 - b. Before construction equipment is used on the Additional Work, Contractor shall plainly stencil or stamp an identifying number thereon at a conspicuous location, and shall furnish to WVWD's Representative, in duplicate, a description of the equipment and its identifying number and the scheduled Additional Work activities planned.
 - c. Unless otherwise specified, manufacturer's ratings and manufacturer approved modifications shall be used to classify equipment for the determination of applicable rental rates. Equipment which has no direct power unit shall be powered by a unit of at least the minimum rating recommended by the manufacturer.

6. Rental Equipment.

- a. <u>Rental Time</u>. The rental time to be paid for equipment on the Site shall be the time the equipment is in productive operation on the Additional Work being performed and, in addition, shall include the time required to move the equipment to the location of the Additional Work and return it to the original location or to another location requiring no more time than that required to return it to its original location; except, that moving time will not be paid if the equipment is used on other than the Additional Work, even though located at the site of the Additional Work.
- b. <u>Rental Time Not Allowed.</u> Rental time will not be allowed while equipment is inoperative due to breakdowns.

- c. <u>Computation Method.</u> The following shall be used in computing the rental time of equipment on the Site.

 - (ii) When daily rates are listed, any part of a day less than 4 hours operation shall be considered to be ½-day of operation.
- 7. <u>Contractor-Owned Equipment.</u> For Contractor-owned equipment, the allowed equipment rental rate will be limited to the monthly equipment rental rate using a utilization rate of 173 hours per month which is found in the rental rate source identified in the Special Conditions for rental equipment.
- 8. <u>Special Services.</u> Special work or services are defined as that Additional Work characterized by extraordinary complexity, sophistication, or innovation or a combination of the foregoing attributes which are unique to the construction industry.
 - a. <u>Invoices for Special Services.</u> When WVWD's Representative and Contractor determine that a special service is required which cannot be performed by the forces of Contractor or those of any of its Subcontractors, the special service may be performed by an entity especially skilled in the Additional Work. Invoices for special services based upon the current fair market value thereof may be accepted without complete itemization of labor, material, and equipment rental costs, after validation of market values by WVWD's Representative.
 - b. <u>Discount and Allowance.</u> All invoices for special services will be adjusted by deducting all trade discounts offered or available, whether the discounts were taken or not. In lieu of Overhead and Profit specified in Section 00 72 13, Article 19.10.B, a total allowance not to exceed fifteen percent (15%) for Overhead and Profit will be added to invoices for Special Services.

10. Overhead and Profit for Lump Sum and Time and Materials Change Orders.

- a. The mark-up to be added to Lump Sum and Time and Materials Change Orders for Overhead (including supervision) and Profit on Additional Work shall be determined in accordance with the following provisions:
 - (i) "Net Cost" is defined as the actual costs of labor, materials and tools and equipment as defined herein only, excluding Overhead and Profit. The costs of applicable insurance and bond premium will be reimbursed to the Contractor and subcontractors at cost only, without mark-up and in no case shall the total costs exceed one and one-half percent (1.5%) of Net Cost. If WVWD disagrees with the COR submitted by Contractor, it will notify the Contractor and WVWD will provide its opinion of the appropriate price and/or time extension. If the Contractor agrees with WVWD, a Change Order will be issued in accordance with the terms of this Article. If no agreement can be reached, WVWD shall have the right to issue a unilateral change order setting forth its determination of the reasonable additions or savings in costs and time attributable to the extra or deleted work. Such determination shall become final and binding if the Contractor fails to submit a claim in writing to WVWD within fifteen (15) Days of the issuance of the unilateral change order, disputing the terms of the unilateral change order and providing such supporting documentation for its position as WVWD may reasonably require.

9.4 Costs Relating to Weather Damage.

If required by WVWD, Contractor shall obtain competitive bids from subcontractors acceptable to Contractor and shall present such bids to WVWD to collaboratively determine, which bid is accepted.

9.6 Change of Contract Times.

- A. The Contract Times may only be changed by a Change Order.
- B. All changes in the Contract Price and/or adjustments to the Contract Times related to each change shall be included in Contractor's COR pursuant to Section 00 72 13, Article 9.2. No cost or time will be allowed for cumulative effects of multiple changes. All Change Orders must state that the Contract Time is not changed or is either increased or decreased by a specific number of days. - F. Contractor's entitlement to an extension of the Contract Times is limited to a WVWD-caused extension of the critical path, reduced by the Contractor's concurrent delays, and established by a proper time impact analysis. No time extension shall be allowed unless, and then only to the extent that, the WVWD-caused delay extends the critical

path beyond the previously approved Contract Time. If approved, the increase in time required to complete the Work shall be added to the Contract Time.

- Contractor shall not be entitled to an adjustment in the Contract Price or Contract Times for delays within the control of Contractor. Delays attributable to and within the control of a Subcontractor or Supplier shall be deemed to be delays within the control of Contractor.
- 2. Such a non-compensable adjustment shall be Contractor's sole and exclusive remedy for such delays. Contractor must submit a timely request in accordance with the requirements of this Article.

3. Utility-Related Delays.

- a. Contractor shall immediately notify in writing the utility owner and WVWD's Representative of its construction schedule and any subsequent changes in the construction schedule which will affect the time available for protection, removal, or relocation of utilities. Contractor must demonstrate that the delay arises from unforeseeable causes beyond the control and without the fault or negligence of both Contractor and any Subcontractors or Suppliers, or any other persons or organizations employed by any of them or for whose acts any of them may be liable, and that such causes in fact lead to performance or completion of the Work, or specified part in question, beyond the corresponding Contract Times, despite Contractor's reasonable and diligent actions to guard against those effects.
 - 2. Each request for an extension of Contract Time must include a time impact analysis in CPM format, using the Contemporaneous Impacted As-Planned Schedule Analysis to calculate the impact of the delay event.

H. No Damages for Reasonable Delay.

- WVWD's liability to Contractor for delays for which WVWD is responsible shall be limited to only an extension of time unless such delays were unreasonable under the circumstances. In no case shall WVWD be liable for any costs which are borne by the Contractor in the regular course of business, including, but not limited to, home office overhead and other ongoing costs.
- 2. Damages caused by unreasonable WVWD delay that impacts the critical path, including delays caused by items that are the responsibility of WVWD pursuant to Government Code section 4215, shall be compensated at the Daily Rate established in the Special Conditions, no other calculations, proportions or formulas shall be used to calculate any delay damages.
- 3. WVWD and WVWD's Representative, and the officers, directors, members, partners, employees, agents, consultants, or subcontractors of each of them, shall not be liable to Contractor for any claims, costs, losses, or damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) sustained by Contractor on or in connection with any other project or anticipated project.
- I. Contractor's failure, neglect, or refusal to comply with the requirements of the Contract Documents, or any portion thereof, shall bar Contractor's request for extensions of the Contract Times. Such failure, neglect, or refusal prejudices WVWD's and WVWD's Representative's ability to recognize and mitigate delay, and such failure, neglect, or refusal prevent the timely analysis of requests for extensions of Contract Times, and whether such extensions may be warranted. Contractor hereby waives all rights to extensions of Contract Times due to delays or accelerations that result from or occur during periods of time for which Contractor fails, neglects, or refuses to fully comply with the requirements of this Article.

ARTICLE 10 -TESTS AND INSPECTIONS; CORRECTION, REMOVAL OR ACCEPTANCE OF DEFECTIVE WORK; NOTICE OF DEFECTS

10.1 Notice of Defective Work.

A. Prompt notice of all Defective Work of which WVWD or WVWD's Representative has actual knowledge will be given to Contractor. Defective Work may be rejected, corrected, or accepted as provided in the Contract Documents.

10.2 Access to Work.

A. WVWD, WVWD's Representative, their consultants and other representatives and personnel, independent testing laboratories, and governmental agencies with jurisdictional interests will have access to the Site and the Work at reasonable times for their observation, inspection, and testing. Contractor shall provide them proper and safe conditions for such access and advise them of Contractor's safety procedures and programs.

10.3 <u>Tests and Inspections.</u>

- A. Contractor shall give WVWD's Representative timely notice of readiness of the Work for all required inspections, tests, or approvals and shall cooperate with inspection and testing personnel to facilitate required inspections or tests.
- B. Except as provided by the Contract Documents, WVWD shall employ and pay for the services of an independent testing laboratory to perform all inspections, tests, or approvals required by the Contract Documents.
- C. If Applicable Laws of any public body having jurisdiction require any Work (or part thereof) specifically to be inspected, tested, or approved by an employee or other representative of such public body, Contractor shall assume full responsibility for arranging and obtaining such inspections, tests, or approvals, pay all costs in connection therewith, and furnish WVWD's Representative the required certificates of inspection or approval.
- D. Contractor shall be responsible for arranging and obtaining and shall pay all costs in connection with any inspections, tests, or approvals required for WVWD and WVWD's Representative's acceptance of materials or equipment to be incorporated in the Work; or acceptance of materials, mix designs, or equipment submitted for approval prior to Contractor's purchase thereof for incorporation in the Work. Such inspections, tests, or approvals shall be performed by organizations acceptable to WVWD.
- E. WVWD will provide inspection during normal working hours from 7:00 a.m. to 3:30 p.m. Monday through Friday. Inspection before or after this time will be charged to the contractor as reimbursable inspection time. Inspections on weekends requires two days' notice for review and approval. Upon written request and approval, the 8.5 hour working day may be changed to other limits subject to city/county ordinance.

10.4 Uncovering Work.

- A. If any Work (or the work of others) that is to be inspected, tested, or approved is covered by Contractor without written concurrence of WVWD's Representative, Contractor shall, if requested by WVWD's Representative, uncover such Work for observation.
- B. Uncovering Work shall be at Contractor's expense unless Contractor has given WVWD's Representative timely notice of Contractor's intention to cover the same and WVWD's Representative has not acted with reasonable promptness in response to such notice.
- C. If Contractor has given WVWD's Representative timely notice of Contractor's intention to cover the work and WVWD's Representative has not acted with reasonable promptness in response to such notice, and WVWD's Representative later considers it necessary or advisable that covered Work be observed by WVWD's Representative or inspected or tested by others, Contractor, at WVWD's Representative's request, shall uncover, expose, or otherwise make available for observation, inspection, or testing as WVWD's Representative may require, that portion of the Work in question, furnishing all necessary labor, material, and equipment.

- 1. If it is found that the uncovered Work is defective, Contractor shall pay all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such uncovering, exposure, observation, inspection, and testing, and of satisfactory replacement or reconstruction (including but not limited to all costs of repair or replacement of work of others); and WVWD shall be entitled to an appropriate decrease in the Contract Price.
- 2. If the uncovered Work is not found to be defective, Contractor shall be allowed an increase in the Contract Price and/or an extension of the Contract Times, directly attributable to such uncovering, exposure, observation, inspection, testing, replacement, and reconstruction.

10.5 WVWD May Stop the Work.

A. If the Work is defective, WVWD may in its sole discretion order Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated. All delays associated with the Stop Work Order will be the responsibility of the Contractor.

10.6 Correction or Removal of Defective Work.

- A. Promptly after receipt of written notice, Contractor shall correct all Defective Work, whether or not fabricated, installed, or completed, or, if the Work has been rejected by WVWD or WVWD's Representative, remove it from the Project and replace it with Work that is not defective. Contractor shall pay all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such correction or removal (including but not limited to all costs of repair or replacement of work of others).
- B. When correcting Defective, Contractor shall take no action that would void or otherwise impair WVWD's special warranty and guarantee, if any, on said Work.

10.7 Acceptance of Defective Work.

- A. If, instead of requiring correction or removal and replacement of Defective Work, WVWD prefers to accept it, WVWD may do so. Contractor shall pay all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) attributable to WVWD 's evaluation of and determination to accept such Defective Work and for the diminished value of the Work.
- B. If any acceptance of defective work occurs prior to release of the Project Retention, a Change Order will be issued incorporating the necessary revisions in the Contract Documents with respect to the Work, and WVWD shall be entitled to an appropriate decrease in the Contract Price, reflecting the diminished value of Work and all costs incurred by WVWD.

- C. If the Project Retention is held in an escrow account as permitted by the Contract Documents, Contractor will promptly alert the escrow holder, in writing, of the amount of Retention to be paid to WVWD.
- D. If the acceptance of defective occurs after release of the Project Retention, an appropriate amount will be paid by Contractor to WVWD.

10.8 WVWD May Correct Defective Work.

- A. If Contractor fails within a reasonable time after written notice from WVWD's Representative to correct Defective Work, or to remove and replace rejected Work as required by WVWD, or if Contractor fails to perform the Work in accordance with the Contract Documents, or if Contractor fails to comply with any other provision of the Contract Documents, WVWD may, after seven (7) Days written notice to Contractor, correct, or remedy any such deficiency.
- B. In connection with such corrective or remedial action, WVWD may exclude Contractor from all or part of the Site, take possession of all or part of the Work and suspend Contractor's services related thereto, take possession of Contractor's tools, appliances, construction equipment and machinery at the Site, and incorporate in the Work all materials and equipment stored at the Site or for which WVWD has paid Contractor but which are stored elsewhere. Contractor shall allow WVWD and WVWD's Representative, and the agents, employees, other contractors, and consultants of each of them, access to the Site to enable WVWD to exercise the rights and remedies to correct the defective work.
- C. All claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) incurred or sustained by WVWD correcting the defective work will be charged against Contractor, and a Change Order will be issued incorporating the necessary revisions in the Contract Documents with respect to the Work; and WVWD shall be entitled to an appropriate decrease in the Contract Price.
- D. Such claims, costs, losses and damages will include but not be limited to all costs of repair, or replacement of work of others destroyed or damaged by correction, removal, or replacement of defective Work.
- E. If the Change Order is executed after all payments under the Contract have been paid by WVWD and the Project Retention is held in an escrow account as permitted by the Contract Documents, Contractor will promptly alert the escrow holder, in writing, of the amount of Retention to be paid to WVWD.
- F. If the Change Order is executed after release of the Project Retention, an appropriate amount will be paid by Contractor to WVWD.
- G. Contractor shall not be allowed an extension of the Contract Times because of any delay in the performance of the Work attributable to WVWD correcting defective work.

10.9 Warranty Period.

- A. If within one (1) year after commencement of the Warranty, or such longer period of time as may be prescribed by the terms of any applicable special guarantee required by the Contract Documents or by any specific provision of the Contract Documents, any Work is found to be defective or not performing suitably for its intended use, or if the repair of any damages to the Site or areas made available for Contractor's use during the performance of the Work is found to be defective, Contractor shall promptly, without cost to WVWD and in accordance with WVWD 's written instructions:
 - 1. Repair such defective land or areas;
 - 2. Correct such defective or non-performing work;
 - If the Defective Work has been rejected by WVWD pursuant to the Contract Documents, remove it from the Project and replace it with Work that is not defective; and
 - 4. Satisfactorily correct or repair or remove and replace any damage to other Work, to the work of others or other land or areas resulting therefrom.
- B. If Contractor does not promptly comply with the terms of WVWD's written instructions, or in an emergency where delay would cause serious risk of loss or damage, WVWD may have the Defective Work corrected or repaired or may have the rejected Work removed and replaced. All claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such correction or repair or such removal and replacement (including but not limited to all costs of repair or replacement of work of others) will be paid by Contractor in accordance with Section 00 72 13, Article 11.1.E.
- C. Where Defective Work (or damage to other Work resulting therefrom) has been corrected or removed and replaced, the Warranty period hereunder with respect to such Work shall be extended for an additional period of one (1) year after such correction or removal and replacement has been satisfactorily completed.
- D. Contractor's obligations under this Article are in addition to any other obligation or warranty and do not limit WVWD's rights and remedies pursuant to California Code of Civil Procedure sections 337.10 and 337.15. or any other Applicable Law.

ARTICLE 11 -PAYMENTS TO CONTRACTOR AND COMPLETION

11.1 <u>Progress Payments.</u> The Progress Schedule will serve as the basis for progress payments and will be incorporated into a form of Application. Progress payments on account of Unit Price Work will be based on the number of units completed.

A. Applications for Payments.

1. By the twenty-fifth (25th) day of each month Contractor shall submit to WVWD's Representative for review an Application for Payment filled out by Contractor

covering the Work completed as of the date of the Application for Payment and accompanied by such supporting documentation as is required by the Contract Documents. If payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the Site or at another location agreed to in writing, the Application for Payment shall also be accompanied by a bill of sale, invoice, or other documentation warranting that WVWD has received the materials and equipment free and clear of all Liens and evidence that the materials and equipment are covered by appropriate property insurance or other arrangements to protect WVWD 's interest therein, all of which must be satisfactory to WVWD.

2. The amount of retainage with respect to progress payments will be as set forth in the Special Conditions.

B. Review of Applications.

- WVWD's Representative will either indicate in writing a recommendation of payment to WVWD or return the Application for Payment to Contractor indicating in writing WVWD's Representative's reasons for refusing to recommend payment. In the latter case, Contractor may make the necessary corrections and resubmit the Application for Payment.
- 2. By recommending any such payment WVWD's Representative will not thereby be deemed to have represented that:
 - a. inspections made to check the quality or the quantity of the Work as it has been performed have been exhaustive, extended to every aspect of the Work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to WVWD's Representative in the Contract Documents; or
 - b. there may not be other matters or issues between the parties that might entitle Contractor to be paid additionally by WVWD or entitle WVWD to withhold payment to Contractor.
- Neither WVWD's Representative's review of Contractor's Work for the purposes of recommending payments nor WVWD's Representative's recommendation of any payment, including final payment, will impose responsibility on WVWD's Representative:
 - a. to supervise, direct, or control the Work;
 - b. for the means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto;
 - c. for Contractor's failure to comply with Applicable Laws applicable to Contractor's performance of the Work;
 - d. to make any examination to ascertain how or for what purposes Contractor has used the moneys paid on account of the Contract Price; or
 - e. to determine that title to any of the Work, materials, or equipment has passed to WVWD free and clear of any Liens.

4. WVWD's Representative may refuse to recommend the whole or any part of any payment due to subsequently discovered evidence or the results of subsequent inspections or tests. WVWD retains the right to revise or revoke any such payment recommendation previously made, to such extent as may be necessary in WVWD's opinion to protect WVWD from loss.

C. Payment Becomes Due.

 Thirty (30) Days after presentation of an undisputed and properly submitted Application for Payment to WVWD's Representative, and subject to WVWD's Representative's recommendation, subject to the modifications above, the amount recommended will become due, and when due will be paid by WVWD to Contractor.

D. Retention and Securities in Lieu of Retention.

- 1. Unless Project has been deemed substantially complex as noted in the Notice Inviting Bids or Special Conditions, WVWD will retain five percent (5%) of the amount invoiced in accordance with Applicable Laws.
- 2. Pursuant to Public Contract Code section 22300, Contractor may substitute securities for any moneys withheld as a retention by WVWD to ensure performance under the Contract. At the request and expense of Contractor, securities equivalent to the amount withheld shall be deposited with WVWD, or with a state or federally chartered bank in this state as the escrow agent, who shall then pay those moneys to Contractor. Upon satisfactory completion of the Contract, the securities shall be returned to Contractor.
 - a. Alternatively, Contractor may request, and WVWD shall make payment of retentions earned directly to the escrow agent selected by the Contractor. At the expense of Contractor, Contractor may direct the investment of the payments into securities and Contractor shall receive the interest earned on the investments upon the same terms provided for in Public Contract Code section 22300 for securities deposited by Contractor. Upon satisfactory completion of the Contract, Contractor shall receive from the escrow agent all securities, interest, and payments received by the escrow agent when WVWD authorizes the escrow agent to release these funds to the Contractor, pursuant to the terms of Public Contract Code section 22300.
- Securities eligible for investment shall include those listed in Government Code section 16430, bank or savings and loan certificates of deposit, interest-bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed to by Contractor and WVWD.
- 4. Contractor shall be the beneficial WVWD of any securities substituted for moneys withheld and shall receive any interest thereon.
- 5. The escrow agreement shall be in the form of the Escrow Agreement provided as part of the Contract Documents and shall be submitted to WVWD no later than fifteen (15) Days prior to submission of Contractor's first Application for Payment.

E. WVWD's Reduction in Recommended Payment.

- 1. In addition to reductions recommended by WVWD's Representative, WVWD may refuse to make payment of the full amount recommended by WVWD's Representative because:
 - a. Claims have been made against WVWD on account of Contractor's performance or furnishing of the Work.
 - b. Stop Payment Notices or Liens have been filed in connection with the Work.
 - c. Defective Work not remedied.
 - d. Failure of Contractor to make proper payments to its subcontractors or suppliers.
 - e. Completion of the Contract if there exists a reasonable doubt that the Work can be completed for the unpaid Contract balance.
 - f. Damage to another contractor or third party.
 - g. Amounts which may be due WVWD for claims against Contractor.
 - h. Failure of Contractor to keep the record ('as-built") drawings up to date.
 - i. Failure to provide updates on the construction schedule.
 - j. Site cleanup.
 - k. Failure of the Contractor to comply with requirements of the Contract Documents.
 - I. Liquidated Damages.

Upon completion of the Contract, WVWD will reduce the final Contract Price to reflect costs charged to the Contractor, back charges or payments withheld pursuant to the Contract Documents.

11.2 Contractor's Warranty of Title.

A. Contractor warrants and guarantees that title to all Work, materials, and equipment covered by any Application for Payment, whether incorporated in the Project or not, will pass to WVWD no later than the time of payment free and clear of all Liens.

11.3 Partial Utilization.

A. WVWD reserves the right to occupy or utilize any portion of the Work at any time before completion, and such occupancy or use shall not constitute acceptance of any part of Work covered by this Contract. This use shall not relieve the Contractor of its responsibilities under the Contract.

11.4 Completion of Asset Register.

A. Upon 95% completion of the Work, Contractor shall submit a completed Asset Register for all equipment associated with the Project to WVWD's Representative. The Asset Register must be submitted in Excel format. An Asset Register template is attached as Attachment B to the Contract Documents.

11.5 Final Inspection.

A. Upon written notice from Contractor that the entire Work is complete, WVWD's Representative will promptly make a final inspection with WVWD and Contractor and will notify Contractor in writing of all particulars in which this inspection reveals that the Work is incomplete or defective. Contractor shall immediately take such measures as are necessary to complete such Work or remedy such deficiencies.

11.6 Final Acceptance.

A. After Contractor has, in the opinion of WVWD's Representative, satisfactorily completed all corrections identified during the final inspection and has delivered, in accordance with the Contract Documents, all maintenance and operating instructions, schedules, guarantees, bonds, certificates or other evidence of insurance, certificates of inspection, marked-up record documents, and other documents required by the Contract Documents, WVWD shall execute and file with the County in which the Project is located a Notice of Completion, constituting final acceptance and completion of the Project, except as may be expressly noted.

11.7 Final Payment.

A. Application for Payment.

- 1. Upon execution of the Notice of Completion, Contractor may make application for final payment following the procedure for progress payments.
- 2. The final Application for Payment shall be accompanied (except as previously delivered) by:
 - a. all documentation called for in the Contract Documents, including but not limited to the evidence of insurance;
 - b. consent of the surety to final payment;
 - c. a fully completed Conditional Waiver and Release on Final Payment (WVWD Form 370).

B. <u>WVWD's Representative's Review of Application and Acceptance.</u>

 If, on the basis of WVWD's Representative's observation of the Work during construction and final inspection, and WVWD's Representative's review of the final Application for Payment and accompanying documentation as required by the Contract Documents, WVWD's Representative is satisfied that the Work has been completed and Contractor has satisfied all other requirements for final payment, WVWD's Representative will indicate in writing WVWD's Representative's recommendation of payment and present the Application for Payment to WVWD for payment. Otherwise, WVWD's Representative will return the Application for Payment to Contractor, indicating in writing the reasons for refusing to recommend final payment, in which case Contractor shall make the necessary corrections and resubmit the Application for Payment.

C. Payment Becomes Due.

 Within sixty (60) Days after acceptance of the Work by WVWD, the final payment amount recommended by WVWD's Representative, less any sum WVWD is entitled to set off pursuant to the Contract Documents, will become due and will be paid by WVWD to Contractor.

11.8 Waiver of Claims.

A. The making and acceptance of final payment will constitute a waiver of all Claims by Contractor against WVWD other than those previously made in accordance with the requirements herein and expressly acknowledged by WVWD in writing as still unsettled.

ARTICLE 12 -SUSPENSION OF WORK AND TERMINATION

12.1 WVWD May Suspend Work.

- A. WVWD may, at its sole option, decide to suspend at any time the performance of all or any portion of the Work by notice in writing to Contractor. Such notice of suspension of Work will designate the amount and type of plant, labor, and equipment to be committed to the Project during the period of suspension. Contractor shall use its best efforts to utilize its plant, labor, and equipment in such a manner as to minimize costs associated with suspension.
- B. Upon receipt of any such notice, Contractor shall, unless the notice requires otherwise:
 - 1. Immediately discontinue Work on the date and to the extent specified in the notice;
 - 2. Place no further orders or subcontracts for material, services, or facilities with respect to suspended Work other than to the extent required in the notice;
 - 3. Promptly make every reasonable effort to obtain suspension upon terms satisfactory to WVWD's Representative of all orders, subcontracts, and rental agreements to the extent they relate to performance of Work suspended; and
 - 4. Continue to protect and maintain the Work including those portions on which Work has been suspended.
- C. Should such suspension cause a delay to the Project critical path, the Contractor shall be granted an adjustment in the Contract Price based on the Reverse Liquidated Damages clause contained in the Special Conditions and an extension of the Contract Times equal to the number of days the critical path was impacted when the performance of Work is suspended as full and complete compensation for such

- suspension; provided, however, that no adjustment of Contract Price or extension of Contract Times shall be granted if the suspension results from Contractor's non-compliance with the requirements of the Contract.
- D. If the Contract Schedule of Pay Items includes a Schedule B bid item requiring the Contractor to provide a lump sum bid price for mobilization and demobilization and WVWD exercises its option to suspend the Project and directs the Contractor to demobilize, Contractor will be paid the lump sum demobilization bid item provided by the Contractor in Schedule B of the Bid Form. If, within one year of demobilization, WVWD directs the Contractor to remobilize, Contractor will be paid the lump sum remobilization bid item provided by the Contractor in Schedule B of the Bid Form.

12.2 <u>WVWD May Terminate for Cause.</u>

- A. WVWD may, without prejudice to any other right or remedy, serve written notice upon Contractor of its intention to terminate this Contract in whole or in part if the Contractor: (i) refuses or fails to prosecute the Work or any part thereof with such diligence as will ensure its completion within the Contract Time; (ii) fails to complete the Work within the required time; (iii) files a bankruptcy petition or is adjudged a bankruptcy; (iv) makes a general assignment for the benefit of its creditors; (v) has a receiver appointed; (vi) refuses or fails to supply enough properly skilled workers or proper materials to complete the Work; (vii) fails to make prompt payment to subcontractors or for material or labor; (viii) disregards Applicable Laws, other requirements or instructions of WVWD; or (ix) violates any of the provisions of the Contract Documents.
- B. The Notice of Default and Intent to Terminate shall state the reasons for termination. Unless within five (5) Days after the service of such notice, Contractor resolves the circumstances giving rise to the Notice of Default to WVWD's satisfaction, or makes arrangements acceptable to WVWD for the required corrective action, WVWD may terminate this Contract. In such case, Contractor shall not be entitled to receive any further payment until the Work has been finished. WVWD may take over and complete the Work by any method it may deem appropriate, including enforcement of the Project Performance Bond. Contractor and its surety shall be liable to WVWD for any excess costs or other damages incurred by WVWD to complete the Work. If WVWD takes over the Work, WVWD may, without liability for so doing, take possession of and utilize in completing the Work such materials, appliances, plant, and other property belonging to the Contractor as may be on the Site.

12.3 WVWD May Terminate for Convenience.

- A. In addition to its right to terminate this Contract for default, WVWD may terminate the Contract, in whole or in part, at any time upon seven (7) Days written notice to Contractor. The Notice of Termination shall specify that the termination is for the convenience of WVWD, the extent of termination, and the effective date of such termination ("Effective Date of Termination").
- B. After receipt of Notice of Termination, and except as directed by WVWD, the Contractor shall, regardless of any delay in determining or adjusting any amounts due under this Termination for Convenience clause, immediately proceed with the following obligations:

- 1. Stop Work as specified in the Notice.
- 2. Complete any Work specified in the Notice of Termination in a least cost/shortest time manner while still maintaining the quality called for under the Contract Documents.
- Leave the Site and any other property upon which the Contractor was working in a safe and sanitary manner such that it does not pose any threat to the public health or safety.
- 4. Terminate all subcontracts and purchase orders to the extent that they relate to the portions of the Work terminated.
- 5. Place no further subcontracts or orders, except as necessary to complete the remaining portion of the Work.
 - Submit to WVWD, within fifteen (15) Days from the Notice of Termination, all of the documentation called for by the Contract Documents to substantiate all costs incurred by the Contractor for labor, materials and equipment through the Notice of Termination. Any documentation substantiating costs incurred by the Contractor solely as a result of WVWD's exercise of its right to terminate this Contract pursuant to this clause, which costs the Contractor is authorized under the Contract Documents to incur, shall: (i) be submitted to and received by WVWD no later than thirty (30) Days after the Effective Date of the Notice of Termination; (ii) describe the costs incurred with particularity; and (iii) be conspicuously identified as "Termination Costs Occasioned by WVWD's Termination for Convenience."
- 6. WVWD's total liability to Contractor by reason of the termination shall be limited to the total (without duplication of any items) of:
 - a. The reasonable cost to the Contractor for all Work performed prior to the Effective Date of Termination, including the Work done to secure the Project for termination. Reasonable cost may not exceed the applicable percentage completion values derived from the progress schedule and the Cost Breakdown. Deductions shall be made for cost of materials to be retained by the Contractor, cost of Work defectively performed, amounts realized by sale of materials, and for other appropriate credits or offsets against cost of Work as allowed by the Contract Documents.
 - b. When, in WVWD's opinion, the cost of any item of Work is excessively high due to costs incurred to remedy or replace defective or rejected Work, reasonable cost to be allowed will be the estimated reasonable cost of performing the Work in compliance with requirements of the Contract Documents and excessive actual cost shall be disallowed.
 - c. Any Work required by the Termination for Convenience that is not included in Contract Documents will be negotiated pursuant to the Contract Change Order provisions.
 - d. Reasonable costs to the Contractor of handling material returned to vendors, delivered to WVWD or otherwise disposed of as directed by WVWD.

- e. A reasonable allowance for the Contractor's internal administrative costs in preparing termination claim.
- f. Reasonable demobilization costs, and reasonable payments made to Subcontractors or suppliers on account of termination.
- 7. In no event shall WVWD be liable for unreasonable costs incurred by the Contractor or subcontractors after receipt of a Notice of Termination. Such non-recoverable costs include, but are not limited to, the cost of or anticipated profits on Work not performed as of the date of termination, post-termination employee salaries, unreasonable post-termination administrative expenses, post-termination overhead or unabsorbed overhead, surety costs of any type, costs of preparing and submitting the Contractor's termination claim, attorney fees of any type, and all other costs relating to prosecution of a claim or lawsuit.
- 8. WVWD shall have no obligation to pay the Contractor under this Article unless and until the Contractor provides WVWD with updated and acceptable as-builts and Record Documents for Work completed prior to termination as required by the Contract Documents.
- 9. In arriving at the amount due the Contractor under this clause there shall be deducted in whole, or in the appropriate part(s) if the termination is partial:
 - a. All unliquidated advances or other payments on account previously made to the Contractor, including without limitation all payments which are applicable to the terminated portion of the Contract Documents,
 - b. Any claim WVWD may have against the Contractor in connection with the Work or any amounts that may be withheld in accordance with the Contract Documents, and
 - c. The agreed price for, or proceeds of sale of, any materials, supplies, or other things kept by the Contractor and not otherwise recovered by or credited to WVWD.

These provisions are in addition to and not in limitation of any other rights or remedies available to WVWD.

Contractor shall not be paid on account of loss of anticipated profits or revenue or other economic loss or consequential damages arising out of or resulting from such termination

- 10. Notwithstanding any other provision of this Article, when immediate action is necessary to protect life and safety or to reduce significant exposure or liability, WVWD may immediately order Contractor to cease Work until such safety or liability issues are addressed to the satisfaction of WVWD or the Contract is terminated.
- 11. If WVWD terminates Contractor for cause, and if it is later determined that the termination was wrongful, such default termination shall automatically be converted to and treated as a termination for convenience. In such event,

Contractor shall be entitled to receive only the amounts payable under this section, and Contractor specifically waives any claim for any other amounts or damages, including, but not limited to, any claim for consequential damages or lost profits.

ARTICLE 13 -CLAIMS, DISPUTE AVOIDANCE AND RESOLUTION

13.1 Initiating Claims.

- A. All Claims, except those waived pursuant to the Contract Documents, shall be referred to WVWD's Representative for decision. A decision by WVWD's Representative shall be required as a condition precedent to any exercise Contractor of any rights or remedies either may otherwise have under the Contract Documents or by Applicable Laws in respect of such Claims.
- B. Written notice stating the general nature of each Claim shall be delivered by the claimant to WVWD's Representative promptly (but in no event later than fifteen (15) Days) after the start of the event giving rise thereto. The responsibility to substantiate a Claim shall rest with the Contractor. A Claim for an adjustment in Contract Price and/or the Contract Times shall be prepared in accordance with the Contract Documents. Each Claim shall be accompanied by claimant's written statement that the adjustment claimed is the entire adjustment to which the claimant believes it is entitled as a result of said event.
- C. WVWD's Representative will review each Claim and take one of the following actions in writing:
 - 1. Deny the Claim in whole or in part;
 - 2. Approve the Claim; or
- D. In the event that WVWD's Representative does not take action on a Claim within thirty (30) Days after the receipt of a proper and complete Claim, the Claim shall be deemed denied.
- E. WVWD's Representative's written action will be final and binding upon WVWD and Contractor, unless WVWD or Contractor invoke the dispute resolution procedure set forth below.
- F. No Claim for an adjustment in the Contract Price or the Contract Times will be valid if not submitted in accordance with this Article and failure to comply with this Article constitutes a waiver of Contractor's Claims.

13.2 Intent.

A. Effective January 1, 1991, Section 20104 et seq., of the California Public Contract Code prescribes a process utilizing informal conferences, non-binding judicial supervised mediation, and judicial arbitration to resolve disputes on construction claims of \$375,000 or less. Effective January 1, 2017, Section 9204 of the Public Contract Code prescribes a process for negotiation and mediation to resolve disputes on construction claims. The intent of this Section is to implement Sections 20104 et seq. and Section 9204 of the California Public Contract Code. This Section shall be construed to be consistent with said statutes.

13.3 Claims.

A. WVWD and Contractor shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing, unless the parties agree to select a mediator at a later time.
 - 1. If the Parties cannot agree upon a mediator, each Party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each Party shall bear the fees and costs

WVWD's failure to respond to a claim from the Contractor within the time periods described in this Section or to otherwise meet the time requirements of this Section shall result in the claim being deemed rejected in its entirety. STAFF REPORT

DATE: February 10, 2025

TO: Finance Committee

FROM: William Fox, Chief Financial Officer

SUBJECT: Purchase Five (5) New 2025 Ford F-150 XL Trucks

MEETING HISTORY:

N/A

BACKGROUND:

The West Valley Water District ("District") has a fleet of 63 vehicles that are used in the daily course of the District's operations. The Vehicle Use and Fleet Replacement Policy outlines a request and replacement schedule for the fleet based on years of service, mileage and maintenance costs. This Fiscal Year 2024-2025, the Support Services Division determined 5 trucks from the fleet should be replaced to ensure maximum vehicle safety, performance, efficiency, and extended life of the fleet.

DISCUSSION:

Staff researched and located a contract awarded to the State of California that would be in the best interest of the District to "piggyback" from. Piggybacking is a term used when an agency uses an existing procurement contract from another agency as justification and documentation to form their own contract directly with the vendor to purchase the same or substantially similar items or services. Under Section 10 Example 10 of the District's Purchasing/Procurement Policy, piggybacking is permitted as an exception to competitive sourcing, thus not requiring the District to conduct a formal solicitation (RFP or RFB). The State of California's formal solicitation process is substantially similar to that of the District's process and participation by the District is also allowed per the State of California's solicitation documents.

The State of California issued their Request for Proposals (RFP) for Fleet Vehicles (Cars, Trucks and Vans & SUVs) on October 25, 2021 and final proposals were due on January 7, 2022. A three (3) year contract with the option to extend for two (2) additional one (1) year period(s) was requested. Thirteen dealerships throughout California submitted proposals for trucks. In evaluating the proposals, the State of California used a two-envelope approach by evaluating the administrative/technical response and then the cost. The State of California scored for categories including Customer References, Maintenance Plan Price, Cost of Fuel, SMOG Rating and the Vehicle's Purchase Price.

Downtown Ford in Sacramento scored the highest overall in the full-size truck section. The State of California ended up awarding a (3) year contract for trucks to Downtown Ford in Sacramento which began on May 1, 2022. By piggybacking with the State of California agreement, the District has realized savings of \$325.17 per vehicle for a total of \$1,625.85 for the five vehicles. In addition, the vehicle delivery will be in approximately sixteen weeks, which is substantially less than using a local dealership. The District used this same procurement approach when it purchased five trucks for the fleet in fiscal year 2023-2024.

The State of California's solicitation and proposal evaluation documents are attached as Exhibit A.

Staff contacted Downtown Ford in Sacramento to obtain pricing for five (5) new 2025 Ford F-150 XL trucks as shown in **Exhibit B**.

FISCAL IMPACT:

The Fiscal Year 2024-2025 Budget contains \$240,000 for Fleet Replacement Work Trucks under Project# W25026. This is sufficient funding for the five trucks being purchased.

REQUESTED ACTION:

Forward a recommendation to the Board of Directors to authorize participating into the State of California contract pricing with Downtown Ford in Sacramento to issue a Purchase Order (PO) for five (5) new 2025 Ford F-150 XL trucks in the amount of \$204,380.01.

Fleet Vehicles

April 2022
Revised September 16, 2022

Prepared by:
Eugene Shemereko, Procurement Official
Department of General Services
Procurement Division
707 3rd Street, 2nd Floor
West Sacramento, CA 95605

1. SUMMARY

RFP Event ID# 0000020793 solicited proposals from motor vehicle dealerships/Original Equipment Manufacturers (OEMs) qualified to establish a mandatory contract to provide Cars, Trucks, and Vans and Sport Utility Vehicles (SUVs) to the State of California (State) and participating local governmental agencies. The term of the resulting contracts is three (3) years with the option to extend for two (2) additional one (1) year periods or portion thereof.

The RFP included twenty-six (26) line-items in the Cars category, sixty (60) line-items in the Truck category, and forty-three (43) line-items in the Vans & SUVs category. The contracts will be awarded by line item, in each category, to the Bidder with the highest total points. The State will consider additional awards to Bidder's that score within 150 points of the highest score within each line item and are proposing a different model than the highest scoring bidder.

The RFP was conducted using the two-envelope procedure: the first for the administrative and technical response, and the second for cost. The State identified the minimum administrative and technical requirements Bidders were required to meet or exceed on a pass/fail basis. Proposals compliant with those minimum requirements were scored in the following categories:

- Customer References
- Vehicle Purchase price less Cash Discounts
- Maintenance Plan Price (Vehicles below 8500 GVWR)
- Cost of Fuel (Vehicles below 8500 GVWR)
- Green House Gas (GHG) Rating (Vehicles below 8500 GVWR)
- SMOG Rating (Vehicles below 8500 GVWR)

The RFP strictly limited Small Business (SB) and Disabled Veteran Business Enterprise (DVBE) subcontractor participation to clearly define distinct elements of the contract consistent with the definition of the Commercially Useful Function (CUF). This RFP waived the DVBE participation requirements however, the DVBE incentive was included. A DVBE Incentive is to be applied to a qualified bidder's total cost. The incentive amount applied to each bid will vary in conjunction with the percentage of proposed DVBE participation as identified in the table below.

| Confirmed DVBE Participation | DVBE Incentive |
|------------------------------|-------------------|
| 5% or over | 5% |
| 4% to 4.99% inclusive | 4% |
| 3% to 3.99% inclusive | 3% |
| 2% to 2.99% inclusive | 2% |

| 1% to 1.99% inclusive | 1% |

COST EVALUATION

After completion of the Administrative and Technical evaluations, the cost sections of all remaining compliant proposals were publicly opened on March 17, 2022.

The following Bidders were found to have material deviations in their Cost and therefore were deemed non-compliant for the line items noted:

| Bidder | Line | Requirement | Bidder Response/ |
|----------------------------|--|---|--|
| Elk Grove Auto | TRUCKS CLIN 30- 31 & Vans & SUVs CLIN 31 | RFP Section 3.1.6.2 - Maintenance Plan: The Bidder shall offer a maintenance plan covering all regularly scheduled service for a minimum of five (5) years/75,000 miles. | Material Deviation The Bidder offered a maintenance plan for Trucks CLIN 30, CLIN 31, and Vans and SUVs CLIN 31, however, no cost was proposed. Bidder confirmed that they cannot offer the plan at no cost and had to retract their bids for |
| Elk Grove Auto | Vans & SUVs CLIN 2 | RFP Section 3.2.2 - Pricing: The price quoted on Exhibit 1, Cost Workbook shall be the price per vehicle for the applicable line item for delivery in Sacramento County. | these line items. The Bidder made an obvious clerical error on Vans & SUVs CLIN 2 with a bid price of \$2,975.00. The Bidder confirmed that they are unable to sell the vehicle to the state at this price. |
| Watsonville Fleet Group | Vans & SUVs | RFP Section 3.2.2 - Pricing: | The Bidder informed DGS-PD they made an error in their bid |

| Bidder | Line Item # | Requirement | Bidder Response/ Material Deviation |
|----------------------------|----------------------------|--|---|
| | CLIN 3 (Tahoe) | The price quoted on Exhibit 1, Cost Workbook shall be the price per vehicle for the applicable line item for delivery in Sacramento County. | price for this line item after cost was opened. They are not able to provide the vehicle at the proposed price. |
| Watsonville Fleet Group | Vans & SUVs CLIN 33 | RFP Section 3.2.2 - Pricing: The price quoted on Exhibit 1, Cost Workbook shall be the price per vehicle for the applicable line item for delivery in Sacramento County. RFP Section 4.1.3 Required Information: Exhibit 1, Cost Workbook must be filled out completely for each line item that is bid or the proposal may be rejected. Yellow cells are mandatory and must be completed in each worksheet. | The Bidder did not propose a price for Vans & SUVs CLIN 33. |
| Watsonville Fleet Group | Trucks CLIN 40, 51, and 54 | RFP Section 3.2.2 - Pricing: The price quoted on Exhibit 1, Cost Workbook shall be the price per vehicle for the applicable line item for delivery in Sacramento County. | The Bidder informed the state that they made an error on the bid price for Trucks Line Items 40, 51, and 54 and that they cannot sell the vehicles proposed for those line items at that price. |

In the Vans and SUVs category, CLIN 24 and CLIN 25 required a gas-powered engine. Bidders were required to meet or exceed the technical specifications of the line item. One Bidder proposed a Hybrid vehicle for these line items, the other Bidders proposed gas vehicles. Technically the Hybrid vehicle exceeds the line-item requirements for both CLINs. However, based on the scoring criteria (mpg, GHG, etc..) it was clear the evaluation of these vehicles was not an apples-to-apples comparison and provided an unfair advantage to the bidder who proposed the hybrid vehicle. Therefore, it was in the best interest of the State to

split the line items into a hybrid vehicle line item and a gas-powered line item. CLIN 24A and CLIN 25A, in the Vans and SUVs category, will represent the hybrid line items which will allow for the different vehicle types to be evaluated and scored fairly.

*On September 15, 2022, Downtown Ford Sales notified the state of a mistake for Vans & SUVs line items 5 and 8. The pricing for the line items was mistakenly swapped and needed to be adjusted to allow for the line items to remain on contract. The pricing was adjusted in Attachment 1 – Evaluation Breakdown and was determined not to affect award. Downtown Ford still has the highest total points for CLIN 5 after adjustment and became the bidder with the highest total points for CLIN 8 after the adjustment. All other compliant bidders for those CLINs remained within the 150-point band. *

PREFERENCES AND INCENTIVES

Preferences and incentives were available per RFP Section 6.3.1, Preference Calculation.

SMALL BUSINESS (SB) AND DISABLED VETERAN BUSINESS ENTERPRISE (DVBE) PARTICIPATION

None of the Bidders claimed SB/DVBE participation, therefore, no preference/incentive points were applied.

TACPA

No TACPA preferences were claimed.

5. AWARD

Award will be made by line item to the responsive and responsible Bidder with the highest total of points, including all applicable preference points.

The State reserves the right to make additional award(s) to responsive and responsible Bidder(s) if both of the following occur:

- The Bidder's proposal is within 150 points of the highest scored proposal within each line item.
- The additional Bidder represents a different model than the highest scoring Bidder.

SCORING CRITERIA

The bidders were scored in the following categories. The Total Available Points does not include applicable preference and incentive points.

| Scoring Category | Total Available Points |
|---|------------------------|
| Customer References | 10 |
| Maintenance Plan Price | 5 |
| Cost of Fuel | 200 |
| GHG Rating | 100 |

| Vehicle Purchase Price less Cash Discounts (Cost) | 600 |
| Total Score | 1015 |

A breakdown of points proposed by Bidder by line item is shown in Attachment 1 – Evaluation Breakdown.

6. EVALUATION SUMMARY

The Team verified the following information:

- Each proposed awardee was determined responsible.
- Each proposed awardee was determined responsive.
- The Bidders were all judged to have bid independently.
- Based on the analysis of the pricing, the pricing is fair and reasonable.
- The proposed awardees meet or exceed the technical requirements.

Exhibits60 8.1

1. Section 1 – Introduction and Overview

This Request for Proposal (hereafter called the RFP) solicits proposals from motor vehicle dealerships/Original Equipment Manufacturers (OEMs) qualified to establish a mandatory contract to provide Cars, Trucks, and Vans and Sport Utility Vehicles (SUVs) to the State of California (State) and participating local governmental agencies.

1.1 Scope of this Request for Proposal (RFP)

The Scope of this RFP includes Fleet Vehicles as defined in Section 3.1.1, Proposed Products. The State reserves the right to eliminate any specific line item from the final award.

The State intends that the selected Bidder will work in cooperation with the State to furnish quality products at the lowest price available in a timely and efficient manner. The selected Bidder will be the primary point of contact for warehousing, customer service, data collection, reporting and distribution of Fleet Vehicles to the State.

Award will be made by line item to the Bidder who scores the highest number of points. Line items may have multiple awards as described in Section 6.4, Selection and Award.

The term of the contracts resulting from this RFP will be three (3) years. The contracts will also contain options to extend for two (2) additional one (1) year periods or portion thereof. If a mutual agreement cannot be met the contract may be terminated at the end of the current contract term and/or contract extension. All terms and conditions will remain the same for the entire contract period including any extension periods.

The use of these contracts shall be mandatory for all State departments except in cases of emergency as defined in Public Contract Code (PCC), Section 1102.

All vehicles offered must be new and the latest model year [in current production] *available for order*. Used, shopworn, refurbished, demonstrator, prototype, or discontinued models are not acceptable.

Any contract executed as a result of this RFP may be amended by mutual consent of the State and the Contractor.

1.1.1 Current Contract/Historical Spend

The historical value based on expenditures from the current statewide contracts for Fleet Vehicles is \$125 Million over a two (2) year period.

1.1.2 State and Local Government Participation

The awarded Bidder shall permit local governmental agencies to participate under the resulting contracts.

Local government agencies are defined as "any city, county, city and county, district or other local governmental body or corporation empowered to expend public funds for the acquisition of goods, information technology, or services", reference PCC Section 10298 (a) (b) and PCC Section 10299 (b). Local governmental agencies shall have the same rights and privileges as the State under the terms of these contracts.

Any local governmental agencies desiring to participate shall be required to submit to the same responsibilities as do State departments and will have no authority to amend, modify or change any condition of these contracts.

Government agencies from other States may only negotiate the specific provisions cited below. If the parties cannot mutually agree, neither party shall be obligated to enter into an agreement:

- Invoicing, delivery, and payment provisions
- Governing law, jurisdiction

- Air Pollution
- Green House Gas (GHG) Rating
- SMOG Rating
- Service Plan

2. Section 2 – Rules Governing the Procurement Process

Section 2 describes the bidding steps and includes the Bidder's and State's rights and responsibilities for the procurement process. Specific guidelines for the submission of this RFP response are found in Section 5, Proposal Format.

2.1 Identification and Classification of RFP Requirements

2.1.1 Requirements

The State has established certain requirements with respect to proposals to be submitted by prospective contractors. The use of "shall," "must," or "will" (except to indicate simple futurity) in the RFP indicates a requirement or condition which is mandatory. A deviation, if not material, may be waived by the State. A deviation from a requirement is material if the deficient response is not in substantial accord with the RFP requirements, provides an advantage to one Bidder over other Bidders, or has a potentially significant effect on the delivery, quantity or quality of items bid, amount paid to the supplier, or on the cost to the State. Material deviations cannot be waived.

2.1.2 Desirable Items

The words "should" or "may" in the RFP indicate desirable attributes or conditions but are non-mandatory in nature. Deviation from, or omission of, such a desirable feature, even if material, will not in itself cause rejection of the proposal.

2.1.3 Mandatory Requirements

All items within this RFP labeled mandatory (M) are non-negotiable. A Pass/Fail evaluation will be utilized for all mandatory requirements in this RFP. Bidder's signature on the form in Section 2.3.4.5, Signature of Proposal and submission of proposal response will be considered as Bidder's agreement to all mandatory RFP requirements.

2.1.4 Non-Mandatory Requirements

This RFP may include both preference programs and product/contract performance items identified as non-mandatory (NM) requirements. Bidders are not required to comply with these requirements to be compliant with the RFP. However, if a Bidder applies for a preference, the Bidder must meet the applicable preference requirements and provide the requested preference documentation as outlined within the section requirement.

2.1.5 Scored Requirements

This RFP includes mandatory scored (MS) requirements. Mandatory scored requirements are non-negotiable and will achieve points as identified in Exhibit 7, Vehicle Procurement Evaluation Methodology if the requirement is met.

2.1.6 Narrative Responses

This RFP includes some items that require a narrative response. Those items have been listed on Exhibit 3, Narrative Response. Bidders are to input narrative responses on the exhibit only and only for the items requested. If necessary, Bidders may add attachments to the exhibit to further explain their response. Bidders shall not input narrative responses within the proposal document, nor should narrative responses be included for items the State did not list on Exhibit 3, Narrative Response.

2.2 Bidding Requirements and Conditions

2.2.1 General

This RFP, the evaluation of responses, and the award of any resultant contract shall be made in conformance with current competitive bidding procedures as they relate to the procurement of Information Technology goods and services by public bodies in the State of California. A Bidder's Final Proposal is an irrevocable offer for 90 days following the scheduled date for Submission of Final Proposals in Exhibit 2, Key Action Dates. A Bidder may extend the offer in the event of a delay of contract award.

2.2.2 RFP Documents

This RFP includes, in addition to an explanation of the State's needs which must be met, instructions which prescribe the format and content of proposals to be submitted and the model of the contract to be executed between the State and the successful Bidder. If a Bidder discovers any ambiguity, conflict, discrepancy, omission, or other error in this RFP, the Bidder shall immediately notify the Procurement Official in accordance with Section 1.4, Procurement Official, of such error in writing and request clarification or modification of the document. If necessary, modifications will be made by addenda issued pursuant to Section 2.2.8, Addenda.

If the RFP contains an error known to the Bidder, or an error that reasonably should have been known, the Bidder shall bid at its own risk. If the Bidder fails to notify the State of the error prior to the date fixed for submission of proposals, and is awarded the contract, the Bidder shall not be entitled to additional compensation or time by reason of the error or its later correction.

2.2.3 Examination of the Work

The Bidder should carefully examine the entire RFP and any addenda to fully understand the requirements of the solicitation and resulting contract.

2.2.4 Questions Regarding the RFP

Bidders requiring clarification of the intent or content of this RFP or on procedural matters regarding the competitive bid process may request clarification by submitting questions, in an email or envelope clearly referencing subject solicitation, to the Procurement Official listed in Section 1.4, Procurement Official. To ensure a response, questions must be received in writing by the scheduled date given in Exhibit 2, Key Action Dates.

Question and answer sets will be provided to all Bidders without identifying the submitters. Any questions submitted should be crafted without revealing the name of the requestor. At the sole discretion of the State, questions may be paraphrased by the State for clarity. Oral answers shall not be binding on the State.

A Bidder who desires clarification or further information on the content of the RFP, but whose questions relate to the proprietary aspect of that Bidder's proposal and which, if disclosed to other Bidders, would expose that Bidder's proposal, may submit such questions in the same manner as above, but also marked "CONFIDENTIAL," and not later than the scheduled date

specified in Exhibit 2, Key Action Dates, to ensure a response. The Bidder must explain why any questions are sensitive in nature.

If the State concurs that the disclosure of the question or answer would expose the proprietary nature of the proposal, the question will be answered, and both the question and answer will be kept in confidence. If the State does not concur with the proprietary aspect of the question, the question will not be answered in this manner and the Bidder will be so notified.

2.2.5 Request to Change the Requirements of the RFP

If the Bidder believes that one or more of the RFP requirements is onerous, unfair, or imposes unnecessary constraints to the Bidder in proposing less costly or alternate solutions, the Bidder may request a change to the RFP by submitting, in writing, the recommended change and the facts substantiating this belief and reasons for making the recommended change. Such request must be submitted to the Procurement Official by the date specified in Exhibit 2, Key Action Dates.

Failure by any Bidder to raise any concern related to the solicitation requirements or a failure of a referenced internet link by the relevant Key Action Date will be deemed a waiver of any claim regarding the contract award relating to the solicitation requirements.

2.2.6 Bidders' Conference

A Bidders' Conference will be held, during which suppliers will be afforded the opportunity to meet with State personnel and discuss the content of the RFP and the procurement process. Suppliers are encouraged to attend the Bidders' Conference. The time, date, and place of such conference are included in Exhibit 2, Key Action Dates.

The State may accept oral questions during the conference and will make a reasonable attempt to provide answers prior to the conclusion of the conference. Questions and appropriate answers discussed during the conference will normally be published within approximately ten (10) working days. If questions asked at the conference cannot be adequately answered during the discussion, answers will be provided with a published question and answer set. Oral answers shall not be binding on the State.

2.2.7 Supplier's Intention to Submit a Proposal

Suppliers who want to participate in the bidding process are asked to state their intention by submitting an email to the Procurement Official by the date specified in Exhibit 2, Key Action Dates, with the following elements:

- Company Name and address
- Contact name, email, and phone number

Bidders that submit their intention to submit a proposal will be placed on a notification list to receive email notifications of any changes or clarifications to any part of the RFP. Interested parties who do not intend to bid but would like to receive notifications for this procurement should submit a request to be added to the notification list. All addenda, Question and Answer

Sets, and Requests for Change will be published on the eProcurement California State Contracts Register.

2.2.8 Addenda

The State may modify the RFP prior to the date fixed for Contract Award by issuance of an addendum. Addenda will be numbered consecutively. In the event that the solicitation is revised by an addendum, the Bidder is required to meet all requirements of the most current addendum, including using any updated forms. If any supplier determines that an addendum unnecessarily restricts its ability to bid, the supplier is allowed to ask a question or submit a request to change to the requirements according to the instructions contained in Section 2.2.4, Questions Regarding the RFP, and Section 2.2.5, Request to Change the Requirements of the RFP.

2.2.9 Discounts

In connection with any discount offered, except when provision is made for a testing period preceding acceptance by the State, time will be computed from date of delivery of the supplies or equipment as specified, or from date correct invoices are received in the office specified by the State if the latter date is later than the date of delivery. When provision is made for a testing period preceding acceptance by the State, date of delivery shall mean the date the supplies or equipment are accepted by the State during the specified testing period. Payment is deemed to be made, for the purpose of earning the discount, on the date of mailing the State warrant or check.

2.2.10 Joint Proposals

Joint proposals are not acceptable for this solicitation.

2.3 Proposal Process

2.3.1 General

The procurement process to be used in this acquisition consists of multiple steps. Refer to Exhibit 2, Key Action Dates, to determine which steps are included in this RFP.

The Final Proposal is a mandatory step for all Bidders; all other steps are optional. However, all Bidders are strongly encouraged to follow the scheduled steps of this procurement to increase the chance of submitting a compliant Final Proposal. Costs submitted in any submission other than the Final Proposal may preclude the Bidder from continuing in the process.

2.3.2 Final Proposals

The State desires to obtain proposals that are responsive in every respect. Final Proposals must be complete with all required cost information, signatures, forms, and documentation.

2.3.2.1 Draft Proposal

A "limited" Draft Proposal step is included in this RFP. Submission of a Draft Proposal is strongly recommended so that the Bidder may minimize the risk that the Final Proposal will be deemed non-compliant. Bidders shall provide a completed Exhibit 6, Technical

Questionnaire. The draft proposal must be submitted by the date and time specified in Exhibit 2, Key Action Dates. Bidders shall limit their draft proposals to this information only.

For Draft Proposals that are evaluated, the Bidder will be notified via email of any defects the State has noted. Draft Proposals received late may be reviewed if the Procurement Official believes there is enough time and resources to do so. Notifying the Bidder of defects is intended to minimize the risk that the Final Proposal will be deemed non-compliant; however, the State will not provide any warranty that the Draft Proposal will be evaluated even if accepted for review, or that any or all defects in the Draft Proposal have been detected. Notification of defects in the Draft Proposal will not preclude rejection of the Final Proposal, if undiscovered defects contained in the Draft Proposal are later found in the Final Proposal.

The State may conduct confidential discussions with Bidders submitting Draft Proposals that have been reviewed by the State. At the confidential discussion, the State will identify areas of the Bidder's Draft Proposal that may not be fully compliant with the requirements of the RFP and areas that are confusing to the State Evaluation Team. Oral statements made by either party during confidential discussions shall not be binding.

2.3.3 Public Record

Final proposals are public upon posting of Notice of Intent to Award. Bidders should be aware that marking a document "confidential" or "proprietary" in a final will not keep that document from being released after notice of intent to award as part of the public record, in accordance with the California Public Records act. This act requires inspection or disclosure of governmental records to the public upon request unless exempted by law or a court has ordered the State not to release the document.

2.3.4 Submission of Proposals

The instructions contained herein apply to the Final Proposal. They also apply to the Draft Proposal, except as noted.

2.3.4.1 Preparation

Proposals are to be prepared in such a way as to provide a straightforward, concise delineation of capabilities to satisfy the requirements of this RFP. Expensive bindings, colored displays, promotional materials, etc., are not necessary or desired. Emphasis should be concentrated on conformance to the RFP instructions, responsiveness to the RFP requirements, and on completeness and clarity of content.

Before submitting each document, the Bidder should carefully proof it for errors and adherence to the RFP requirements.

2.3.4.2 Bidder's Cost

Costs for developing proposals are entirely the responsibility of the Bidder and shall not be chargeable to the State.

2.3.4.3 Completion of Proposals

Proposals must be complete in all respects in accordance with Section 5, Proposal Format. A Final Proposal may be rejected if it is conditional or incomplete, or if it contains any alterations of form or other irregularities of any kind. A Final Proposal must be rejected if any such defect or irregularity constitutes a material deviation from the RFP requirements. The Final Proposal must contain all costs required by the RFP in accordance with Section 4, Cost, and Section 5, Proposal Format, setting forth a unit price and total price for each unit price item, and a total price for each lump sum price item in the schedule, all in clearly legible figures. If required in Section 5, Proposal Format, cost data must be submitted under separate cover.

2.3.4.4 False or Misleading Statements

Proposals which contain false or misleading statements, or which provide references which do not support an attribute or condition claimed by the Bidder, may be rejected. If, in the opinion of the State, such information was intended to mislead the State in its evaluation of the proposal, and the attribute, condition, or capability is a requirement of this RFP, it will be the basis for rejection of the proposal.

2.3.4.5 Signature of Proposal

All Bidders must complete the <u>Agreement Cover Letter</u> (<u>https://www.dgs.ca.gov/-/media/1DCB49CFFD9642C4ADD9FCEDAB5C1D95.ashx</u>) and include it with the proposal. The Agreement Cover Letter (which shall be considered an integral part of the Final Proposal) shall be signed by an individual who is authorized to bind the bidding firm contractually. An unsigned Final Proposal shall be rejected.

2.3.4.6 Delivery of Proposals

Final Proposals must be submitted no later than the date and time specified in Exhibit 2, Key Action Dates. Proposals must be received by the Department of General Services on or before the specified date and time. Bidders are required to deliver proposals as required in Section 5. Proposal Format. Bidders should set up their email to receive a delivered receipt when submitting the electronic proposal.

Final Proposals not received by the date and time specified in Exhibit 2, Key Action Dates will be rejected.

In accordance with Section 5, Proposal Format, cost data must be in a separate attachment and clearly labeled. If cost data is not submitted in this manner, the proposal may be rejected. Proposals submitted under improperly labeled documents may be rejected.

2.3.4.7 Withdrawal and Resubmission/Modification of Proposals

A Bidder may withdraw its Final Proposal at any time prior to the proposal submission date and time specified in accordance with Exhibit 2, Key Action Dates, by submitting via email a written notification of withdrawal signed by the Bidder authorized in accordance with Section 2.3.4.5, Signature of Proposal. The Bidder may thereafter submit a new or modified proposal prior to such proposal submission date and time. Modification offered in any other manner, oral or written, will not be considered. Other than as allowed by law,

Final Proposals cannot be changed or withdrawn after the date and time designated for receipt, except as provided in accordance with Section 2.3.6.3, Errors in the Final Proposals.

2.3.5 Rejection of Proposals

The State may reject any or all proposals and may waive any immaterial deviation or defect in a proposal. The State's waiver of any immaterial deviation or defect shall in no way modify the RFP documents or excuse the Bidder from full compliance with the RFP specifications if awarded the contract.

2.3.6 Evaluation and Selection Process

2.3.6.1 General

Proposals will be evaluated in accordance with Section 6, Evaluation.

2.3.6.2 Evaluation Questions

During the evaluation and selection process, the State may desire the presence of a Bidder's representative for answering specific questions, orally and/or in writing. During the evaluation of Final Proposals, the State may ask the Bidder to clarify their submitted information but will not allow the Bidder to change their proposal.

2.3.6.3 Errors in the Final Proposals

An error in the Final Proposal may cause the rejection of that proposal; however, the State may at its sole option retain the proposal and make certain corrections.

In determining if a correction will be made, the State will consider the conformance of the proposal to the format and content required by the RFP, and any unusual complexity of the format and content required by the RFP.

If the Bidder's intent is clearly established based on review of the complete Final Proposal submittal, the State may at its sole option correct an error based on that established intent.

If hard copies are submitted and there is a discrepancy between the Master copy and the additional copies, the Master copy shall have priority over the additional copies.

The State may at its sole option correct obvious clerical errors, arithmetic errors, and discrepancies. If necessary, the cost extensions and summary will be recomputed accordingly, if obviously misstated. If the unit price is ambiguous, unintelligible, uncertain for any cause, or is omitted, it shall be the amount obtained by dividing the extended total price by the quantity of the item.

The State may at its sole option correct errors of omission, and in the following four (4) situations, the State will take the indicated actions if the Bidder's intent is not clearly established by the complete proposal.

- 1. If an item is described in the narrative and omitted from the contract and cost data provided in the proposal for evaluation purposes, it will be interpreted to mean that the item will be provided by the Bidder at no cost.
- 2. If a minor item is not mentioned at all in the Final Proposal and is essential to satisfactory performance, the proposal will be interpreted to mean that the item will be provided at no cost.
- 3. If a major item is not mentioned at all in the Final Proposal, the proposal will be interpreted to mean that the Bidder does not intend to supply that item.
- 4. If a major item is omitted, and the omission is not discovered until after contract award, the Bidder shall be required to supply that item at no cost.

The determination of whether an item is minor or major is the responsibility of the State.

If a Bidder does not follow the instructions for computing costs not related to the contract (e.g., State personnel costs), the State may reject the proposal, or at its sole option, recompute such costs based on instructions contained in the RFP.

If the re-computations or interpretations, as applied in accordance with this section, result in significant changes in the amount of money to be paid to the Bidder (if awarded the contract) or in a requirement of the Bidder to supply a major item at no cost, the Bidder will be given the opportunity to promptly establish the grounds legally justifying relief from its proposal.

IT IS ABSOLUTELY ESSENTIAL THAT BIDDERS CAREFULLY REVIEW THE COST ELEMENTS IN THEIR FINAL PROPOSAL, SINCE THEY WILL NOT HAVE THE OPTION TO CORRECT ERRORS AFTER THE TIME FOR SUBMITTAL.

At the State's sole discretion, it may declare the Final Proposal to be a Draft Proposal if the State determines that Final Proposals from all Bidders contain material deviations. Bidders may not protest the State's determination that all proposals have material deviations. If all proposals are declared noncompliant, the State may issue an addendum to the RFP. Should this occur, confidential discussions will be held with Bidders who are interested in continuing to be considered. Each Bidder will be notified of the due date for the submission of a new Final Proposal to the State. This submission must conform to the requirements of the original RFP as amended by any subsequent addenda. The new Final Proposals will be evaluated in accordance with Section 6, Evaluation.

2.3.7 Award of Contract

Award of contract, if made, will be in accordance with Section 6, Evaluation, to a responsible Bidder whose Final Proposal complies with all the requirements of the RFP documents and any addenda thereto, except for such immaterial defects as may be waived by the State.

The State reserves the right to determine the successful Bidder either on the basis of individual items or on the basis of all items included in its RFP, unless otherwise expressly provided in the State's RFP. The State reserves the right to modify or cancel in whole or in part its RFP.

2.3.8 Debriefing

A debriefing may be held after contract award at the request of any Bidder for the purpose of receiving specific information concerning the evaluation. The discussion will be based primarily on the technical and cost evaluations of the Bidder's Final Proposal. A debriefing is not the forum to challenge the RFP specifications or requirements.

2.4 Contractual Information

2.4.1 Contract Provisions

The State has model contract provisions to be used by State agencies when contracting for non-IT goods and services. The model contract provisions appropriate for the specific requirements of this RFP are included in the RFP.

2.4.2 Specific Terms and Conditions

The contract to be awarded is included in the solicitation document in its final form, and any alteration by a Bidder will result in rejection of its proposal.

2.4.3 Term of Contract

The State intends to acquire the required goods and services for at least the period specified in Section 1.1, Scope of this Request for Proposal.

2.5 Other Information

2.5.1.1 Award Protest

This solicitation/acquisition is being conducted under the provisions of the Alternative Protest Process (Public Contract Code Section 12125, et seq.) By submitting a bid or proposal to this solicitation, the bidder consents to participation in the Alternative Protest Process, and agrees that all protests of the proposed award shall be resolved by binding arbitration pursuant to the California Code of Regulations, Title 1, Division 2, Chapter 5. Link to the Alternative Protest Process regulations:

https://www.dgs.ca.gov/OAH/Case-Types/General-Jurisdiction/Resources/Page-Content/General-Jurisdiction-Resources-List-Folder/Laws-and-Regulations/Bid-Protest-Regulations

A Notice of Intent to Award for this solicitation will be publicly posted on the Department of General Services Procurement Division webpage and sent via facsimile to any bidder who submits a written request for notice and provided a facsimile number. DGS/PD webpage link:

https://www.dgs.ca.gov/PD/Resources/Page-Content/Procurement-Division-Resources-List-Folder/Award-Notifications?search=Award%20Notice

During the protest period, any participating bidder may protest the proposed award on the following grounds:

 For major information technology acquisitions – that there was a violation of the solicitation procedure(s) and that the protesting bidder's bid should have been selected; or 2. For any other acquisition – that the protesting bidder's bid or proposal should have been selected in accordance with the selection criteria in the solicitation document.

A written Notice of Intent to Protest the proposed award of this solicitation must be received (facsimile acceptable) by the Coordinator before the close of business 5 p.m. PST/PDT on the 2nd working day after issuing the notice of intent, as specified in the solicitation. Failure to submit a timely, written Notice of Intent to Protest waives bidder's right to protest.

Bidder is to send the notice of protest to:

Alternative Protest Process Coordinator/Dispute Resolution Department of General Services Procurement Division Purchasing Authority Management Section 707 Third Street, 2nd Floor South West Sacramento, CA 95605

Fax: 916 / 376-6226

Within seven (7) working days after the last day to submit a Notice of Intent to Protest, the Coordinator must receive from the protesting bidder the complete protest filing including the signed, written detailed statement of protest including exhibits, filing fee and deposit or small business certification as applicable. Untimely submission of the complete protest filing waives the bidder's right to protest.

Protest bond requirement: bond amount for this Alternative Protest Process shall be 10 percent of the contract amount as specified in the solicitation. See California Code of Regulations, Title 1, Section 1418.

2.5.2 Disposition of Proposals

All materials submitted in response to this RFP will become the property of the State of California and will be returned only at the State's option and at the Bidder's expense. At a minimum, the Master Copy of the Final Proposal shall be retained for official files and will become a public record after the Notification of Intent to Award as specified in Exhibit 2, Key Action Dates. However, materials the State considers confidential information (such as confidential financial information submitted to show Bidder responsibility) will be returned upon request of the Bidder.

3. Section 3 – Requirements

This section contains the bidding requirements pertaining to this RFP and will be applicable to the resulting contract. Bidder's proposal shall meet the State's needs as defined in this RFP. If, during the evaluation process, the State is unable to assure itself of the Bidder's ability to perform under the contract, if awarded, the State has the option of requesting from the Bidder any information that the State deems necessary to determine the Bidder's responsibility. If such information is required, the Bidder will be so notified and will be permitted approximately five (5) business days to submit the information requested.

If, during the life of the contract, a contract vehicle is discontinued, the Contractor shall notify the State Contract Administrator in writing and propose a comparable substitute product or configuration at least 30 calendar days prior to vehicle discontinuation. Third-party upfitting (e.g utility body) may be requested by ordering agencies, however, this service is non-mandatory. When applicable, third-party upfits shall be subject to the same pricing provisions as factory options.

- Emailed proposals should clearly identify in the Subject Line "Proposal Response for Event ID # 0000020793."

Emailed submissions should not exceed 10 megabytes (MB). The State's mail server may automatically reject excessively large emails.

5.3.1 Electronic Document Formats

It is the Bidder's responsibility to ensure that electronically submitted documents are readable by DGS-PD. Required documents should be submitted in Microsoft Word, Microsoft Excel, or PDF, unless otherwise requested. To ensure electronically submitted documents are readable, Bidders should submit electronic documents that meet the following standards:

- Microsoft Office Suite Standard 2010 (Word, Excel, Power Point)
- Microsoft Office Professional Plus 2010 (Word, Excel, Power Point, Access, OneNote, Publisher)

Electronic submissions not compatible with these standards and unable to be read may result in the proposal being rejected.

5.4 Final Proposal Content

Final Proposals shall include separate attachments for the following:

- Volume 1: Response to Requirements
- Volume 2: Cost Data

Volume 1: Response to Requirements

It is preferred that multiple documents for Volume 1: Response to Requirements, are combined into a single PDF attachment. If submitting separate Volume 1 attachments, "Volume 1" must be in the file name. (Example: "Volume 1, Response to Requirements"; or "Volume 1, Narrative Response") Cost information must not be included in any attachments for Volume 1: Response to Requirements.

Volume 2: Cost Data

The Volume 2 attachment must contain "Volume 2" in the file name. (Example: "Volume 2, Cost, Group Name(s)")

Zip Files are discouraged. Refer to Section 5.3.1, Electronic Document Formats for preferred document types.

5.4.1 Volume 1- Response to Requirements

This volume must contain all responses to the bidding requirements of the RFP including any technical literature. All applicable forms, except cost data, must be completed and included in this volume.

No cost information should be contained in this volume. Bidder must leave blank or put "XXX" in place of any cost figures and percentages related to costs.

5.4.2 Volume 2 - Cost Data

This volume must contain the completed Exhibit 1, Cost Workbook only. Bidders must submit this volume as a separate attachment.

Pricing figures may not appear in Volume 1 – Response to Requirements. If any cost is included in Volume 1, the proposal may be deemed non-compliant.

The State makes no warranty that the list of applicable documents and exhibits is a full and comprehensive listing of every requirement specified in the RFP. Checking off the items on the list does not establish your firm's intent nor does it constitute responsiveness to the requirements. The list is only a tool to assist participating Bidders in compiling their final proposal response. Bidders are encouraged to carefully read the entire RFP. The need to verify all documentation and responses prior to the submission of final proposals cannot be over emphasized.

The State requests that Bidders do not submit unnecessary documentation to your final proposal. The State expects <u>only</u> documentation which pertains to the requested/required information to be submitted as outlined in the RFP. Additional information not specific to the requirements of this RFP should not be submitted (e.g. company literature, marketing materials, etc.).

6. Section 6 - Evaluation

This section describes how the State plans to evaluate the responding proposals and identify the proposals that meet the RFP's objectives. It is the State's intent to conduct a comprehensive, impartial evaluation of all proposals received.

6.1 Receipt

Each proposal will be date and time marked as it is received and verified that all responses are properly identified. Emails will not be opened by the Procurement Official until the required proposal submission due date and time.

6.2 Evaluation of Final Proposals

6.2.1 Validation Against Requirements

The State's proposal evaluation team (Team) will check each proposal's Volume 1 – Response to Requirements in detail to determine its compliance to the RFP requirements. If a proposal fails to meet an RFP requirement, the State will determine if the deviation is material as defined in Section 2.1.1, Requirements. A material deviation will be cause for rejection of the proposal. If a deviation is determined to be immaterial, it will be processed as if no deviation had occurred.

Only those proposals that are administratively and technically compliant will proceed to the cost evaluation.

Volume 2 - Cost Data shall remain unopened until the evaluation of all technical and administrative requirements is completed. Cost data will only be opened for responsive proposals from responsible Bidders. A public cost opening will be held through Microsoft Teams. All participating Bidders and interested parties shall be notified as to the date and time of the public cost opening and a link to join the Microsoft Teaming meeting will be provided.

6.2.2 Cost Analysis

The required cost forms will be checked for mathematical accuracy. Errors and inconsistencies will be dealt with according to procedures contained in Section 2.3.6.3, Errors in the Final Proposals.

6.2.3 Evaluation of Requirements

For evaluation purposes, certain requirements have been designated as scored requirements and will be scored in accordance with the criteria contained herein. All remaining mandatory requirements are not scored and will be evaluated on a pass/fail basis. A material deviation on a mandatory requirement whether or not it is scored will result in disqualification of the proposal.

6.3 Final Proposal Scoring Criteria

The Team will evaluate and score the responses of each Bidder's Final Proposal to determine a Total Score. The maximum points available are 1015, not including applicable preferences and incentives. The total score includes six (6) scoring categories:

| Scoring Category | Maximum Points |
|--|----------------|
| Customer References | 10 |
| Vehicle Purchase Price less Cash Discounts | 600 |
| Maintenance Plan Price | 5 |
| Cost of Fuel | 200 |
| GHG Rating | 100 |
| SMOG Rating | 100 |
| Total Available Points | 1015 |

Points will be allocated as described in Exhibit 7, Vehicle Procurement Evaluation Methodology.

6.3.1 Preference Calculation

6.3.1.1 Small Business Preference Calculation

If the Small Business (SB) preference is to be applied to a California-certified Small Business' Total Score, the following formula will be utilized:

- SB Preference Points = (Highest Non-Small Business Total Score) multiplied by (5 percent)
- SB Preference Points will be added to the total score of responsive proposals eligible to receive the preference.

Example:

Highest non-small business' Total Score: 800 points

SB Preference: 800 points multiplied by 0.05 = 40 points

The 40 points would be added to the total score for all eligible Bidders

6.3.1.2 DVBE Incentive Calculation

If a DVBE Incentive is to be applied to a qualified Bidder's total score, the Incentive amount applied to each proposal will be as shown in the <u>California DVBE Bid Incentive Instructions</u> (https://www.dgs.ca.gov/-

/media/10D6B9D24A5E4D0CB6DB27FCA1572CC2.ashx).

6.3.1.3 TACPA Preference Calculations

The TACPA preference will be applied to a qualified Bidder's total cost in accordance with Government Code Section 4530 et seg.

6.4 Selection and Award

The contract will be awarded by line item to the responsive and responsible Bidder with the highest total of points, including all applicable preference points.

The State reserves the right to make additional awards to the responsive and responsible Bidders if both of the following occur:

- The Bidder's proposal is within 150 points of the highest scored proposal within each line item.
- The additional Bidder represents a different model than the highest scoring Bidder.

If award is made to more than one Bidder, ordering departments will have the authority to select either Contractor.

6.5 Negotiations

The State may elect to enter into negotiations pursuant to Public Contract Code §6611, if conditions exist.

7. Section 7 - Demonstration

For the purpose of this RFP, demonstrations will not be required.

FROM: William Fox, Chief Financial Officer

SUBJECT: Fund Transfer Report - January 2025

MEETING HISTORY:

N/A

BACKGROUND:

At the August 20, 2020, Board of Directors meeting, the WVWD Board of Directors approved and authorized the Chief Financial Officer to transfer funds in/out of the District's Chase account to/from the District's investment accounts to take advantage of potential interest earnings. At this meeting, the WVWD Board also requested that the CFO provide a detailed report to the Board of all transfers on a monthly basis and include this report in the monthly financial reports presented to the Board.

DISCUSSION:

Following the Board's request for monthly updates on transfers related to investments is the January 2025 Funds Transfer Report. This is located at **Exhibit A**. There was one transfer during the month made from the Chase General Checking account going to the Local Agency Investment Fund (LAIF) account totaling \$11.0 million. This large transfer was the result of receiving the State Revolving Fund (SRF) reimbursement check in the amount of \$10,516,037 for the Roemer Expansion Project. The SRF reimbursement funds made up the majority that was transferred to LAIF to produce investment income.

FISCAL IMPACT:

There is no fiscal impact of this action.

REQUESTED ACTION:

Forward a recommendation to the Board of Directors to approve the January 2025 Funds Transfer Report.

STAFF REPORT

DATE: February 10, 2025

TO: Finance Committee

FROM: William Fox, Chief Financial Officer

SUBJECT: Monthly Revenue and Expenditures Report - January 2025

MEETING HISTORY:

N/A

BACKGROUND:

The Board of Directors requested the Monthly Financial Status Reports to be presented to the Finance Committee for review and discussion before presenting them to the Board of Directors. The reports are being produced by the District's Financial System (System of Records) and will be presented on a monthly basis.

DISCUSSION:

The Monthly Financial Status Report (**Exhibit A**) summarizes the District's revenue categories as well as expenditures for all Departments. The original total budget includes the adopted budget. The current total budget includes the adopted budget plus any budget amendments or adjustments made during the year. Period activity column represents activity for the reporting periods. The fiscal activity column represents the year-to-date activity or transactions that have been recorded in the general ledger from the beginning of the fiscal year July 1 through June 30th The encumbrance column represents funds encumbered with a purchase order that's not spent but committed. The percentage column represents the percentage of the current budget that has been received (Revenue) or utilized (Expenditure).

In summary, for the first seven months of the fiscal year through January 2025, the District has total earned revenues of \$27,635,001 and incurred total expenses of \$17,887,017. This results in an operating surplus of \$9,747,984. The surplus is being used to support the Capital Improvement Program. Contributing to the positive results are water sales and investment income greater than budgeted. Also contributing to the operating surplus is overall departmental expenditures are less than budgeted.

FISCAL IMPACT:

There is no fiscal impact for producing the January 2025 Monthly Revenue & Expenditure Report.

REQUESTED ACTION:

Foreword a recommendation to the Board of Directors to approve the January 2025 Monthly Revenue and Expenditures Report.
