

WEST VALLEY WATER DISTRICT 855 W. Base Line Road Rialto, CA 92376 PH: (909) 875-1804 FAX: (909) 875-1849

*AMENDED FINANCE COMMITTEE MEETING AGENDA

WEDNESDAY, JANUARY 12TH, 2022 - 1:00 PM

NOTICE IS HEREBY GIVEN that West Valley Water District has called a meeting of the Finance Committee to meet in the Administrative Conference Room, 855 W. Base Line Road, Rialto, CA 92376.

Teleconference Notice: In an effort to prevent the spread of COVID-19 (Coronavirus), and in accordance with the Governor's Executive Order N-29-20 and the order of the County of San Bernardino dated March 17, 2020, there will be no public location for attending this Committee Meeting in person. Members of the public may listen and provide public comment via telephone by calling the following number and access code: Dial: (888) 475- 4499, Access Code: 840-293-7790 or you may join the meeting using Zoom by clicking this link: https://us02web.zoom.us/j/8402937790. Public comment may also be submitted via email to administration@wvwd.org. If you require additional assistance, please Executive **Assistant** contact the administration@wvwd.org.

BOARD OF DIRECTORS

* Division 3- Vacant, Director Director Dr. Michael Taylor

1. CONVENE MEETING

2. PUBLIC PARTICIPATION

The public may address the Board on matters within its jurisdiction. Speakers are requested to keep their comments to no more than three (3) minutes. However, the Board of Directors is prohibited by State Law to take action on items not included on the printed agenda.

3. DISCUSSION ITEMS

- **A.** General Updates to Finance Committee.
- **B.** Fiscal Year 2021 Audit Completed (The Pun Group to present).
- **C.** Fiscal Year Ending June 30, 2021, Annual Comprehensive Financial Report (ACFR) and Popular Annual Financial Report (PAFR).
- **D.** December Monthly Financial Reports.
- **E.** Consider Second Amendment to Water Facilities and Service Agreement with Lennar Lytle, LLC.
- F. Provide and Install Ion Exchange Resin for Vessels 1B and 2B at Well 42.

4. ADJOURN

DECLARATION OF POSTING:

I declare under penalty of perjury, that I am employed by the West Valley Water District and posted the foregoing Finance Committee Agenda at the District Offices on January 11th, 2022.

INTRODUCTORY SECTION:

OUR MISSION STATEMENT

OUR MISSION IS TO PROVIDE OUR
CUSTOMERS WITH SAFE, HIGH QUALITY
AND RELIABLE WATER SERVICE
AT A REASONABLE RATE AND IN A
SUSTAINABLE MANNER.

December 9, 2021

To the Board of Directors and Customers of West Valley Water District,

Introduction

It is our pleasure to submit the Annual Comprehensive Financial Report for the West Valley Water District ("District") for the fiscal year ended June 30, 2021, prepared in accordance with generally accepted accounting principles following guidelines set forth by the Governmental Accounting Standards Board (GASB). District staff prepared this financial report and the District is ultimately responsible for both the accuracy of the data as well as the completeness and fairness of the presentation, including all disclosures in this financial report. We believe that the data presented is accurate in all material respects. This report is designed in a manner that we believe necessary to enhance your understanding of the District's financial position and activities.

The Pun Group LLP has issued an unmodified ("clean") opinion of the District's financial statements for the year ended June 30, 2021. The independent auditor's report is located at the front of the financial section of this reports.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview, and analysis to accompany the financial statements in the form of the Management's Discussion and Analysis (MD&A) section. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately after the Independent Auditor's Report.

District Structure and Leadership

West Valley Water District (District) is a California Special District established under section 30000 et seq. of the California Water Code. Formed in 1952, the District is governed by a five-member Board of Directors ("Board"), elected by Division. The General Manager administers the day-to-day operations of the District in accordance with policies and procedures established by the Board. The District employs approximately 76 full-time employees in various functions including operations, maintenance, engineering, finance, customer service, meter reading, human resources, conservation, public affairs, information technology, and administration. The Board meets on the first and third Thursdays of each month. Meetings are publicly noticed and live-streamed, citizens are encouraged to attend.

The District provides water service to approximately 23,151 connections within its thirty-two (32) square mile service area, located in southwestern San Bernardino County with a small area of northwestern Riverside County. The service area encompasses one half of the City of Rialto, portions of Bloomington, Colton, Fontana, Jurupa Valley, and some of the unincorporated areas of San Bernardino and Riverside counties.

District Services

Residential customers represent approximately 93% of the District's customer base and consume approximately 67% of the water produced annually by the District. The District currently has a total of 17 groundwater wells with a maximum production capacity of approximately 43,700 Acre-Feet per year. The District also operates a surface water treatment plant with a capacity of 14.4 million gallons per day (mgd) and a biological treatment plant for perchlorate destruction with a capacity of 2.9 (mgd).

Economic Condition and Outlook

The District's Office is located in the City of Rialto in San Bernardino County. San Bernardino and Riverside counties (also known as the Inland Empire) begun to witness increased economic activity from new development as the region continues to recover from the great recession. The District's source of water production comes from various sources which include: 1) local water from several groundwater basins, 2) surface water from Lytle Creek in the San Bernardino Mountains, and 3) the California State Water Project – Silverwood Lake.

The District has also teamed up with the City of Rialto and is operating a state-approved biological treatment process "bioremediation" that employs naturally occurring micro-organisms to remove perchlorate and other contaminants in the basins drinking water supplies as well as reduce the need for waste handling and disposal in a cost effective manner. The District considers this to be the first major step in a regional undertaking that will ultimately restore the region's groundwater resources.

Status of Drought Conditions

Calendar year 2021 marks the second consecutive dry year in the state. On October 19, 2021, Governor Gavin Newsom declared a statewide drought emergency. The executive order calls for Californians to voluntarily reduce their water use by 15% from their 2020 levels. With more than 87% of the state under severe drought it is important to continue efforts in water use efficiency. Californians are being asked to continue complying with the prohibitions on wasteful practices and to make conservation a California way of life

The District continues to support its customers by providing rebates that incentivize a change in habit and promote awareness on water conservation and efficiency. The District continues to depend heavily on groundwater supplies that are replenished by local precipitation.

Major Initiatives

The activities of the Board and staff are driven by our mission statement, "to provide our customers with safe, high quality, and reliable drinking water service at a reasonable rate and in a sustainable manner." To that end, the District's major priorities include the following:

- 1. Continue to deliver safe, reliable, high quality water at an affordable price.
- 2. Nurture a culture that values our employees, customer service, innovation, integrity, excellence, transparency, and conservation.
- 3. Implement technologies that increase efficiency and enhance safety.
- 4. Plan and be prepared for anticipated significant housing growth in the District.
- 5. Further refine procedures to ensure the District safeguards ratepayer funds, operates efficiently, enhances transparency, and protects employees and District assets.

All programs and operations of the District are developed and performed at the highest level to ensure that quality water is delivered to all of its customers.

Accomplishments

The District has achieved the following initiatives in fiscal year 2020-21:

- 1. For the tenth consecutive year, the District received the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association for the 2020 Comprehensive Annual Financial Report. This award represents the best practices for local governments seeking to provide greater transparency and ease of understanding in financial reporting.
- 2. Received the District Transparency Certificate of Excellence from the Special District's Leadership Foundation.
- 3. Completed relocation of Well 41, Ion Exchange Vessels.
- 4. Completed Water Main Replacements, Casmalia Street.
- 5. Completed Automatic Transfer Switch Replacement at Roemer Plant.
- 6. Completed Solar Powered Tank Mixers for Reservoirs 8-1 and 8-2.
- 7. Completed Annual Rehabilitation of Meter Vault Lid Retro Fits.
- 8. Completed Annual Rehabilitation Meters and MXU's.
- 9. Completed Alkalinity and TOC Analyzers at Roemer Plant.
- 10. Completed Fluidized Bed Reactor Treatment Plant (FBR) Filters Rehabilitation.
- 11. Completed Zone 7 PRV New PRV on Lytle Creek Road.
- 12. Purchased one new truck for operations.
- 13. Purchased one new 2-yard dump truck.

Internal Control Structure

District management is responsible for the establishment and maintenance of the internal control structure that ensures the assets of the District are protected from loss, theft, or misuse. The internal control structure also ensures adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles and is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary Control

The Board annually adopts an operating and capital budget prior to the new fiscal year beginning July 1st of each year. The budget authorizes and provides the basis for reporting and control of financial operations and accountability for the District's enterprise operations and capital projects. The budget and reporting treatment applied to the District is consistent with the accrual basis of accounting and the financial statement basis.

Investment Policy

The Board adopted an investment policy that conforms to state law, District ordinances, and resolutions, prudent money management principles, and "prudent person" standards. The objective of the Investment Policy is safety, liquidity, and yield. District funds are invested in the State Treasurer's Local Agency Investment Fund, CalTRUST institutional savings, Federal government Treasury notes, agency obligations and other investments.

Long-term Financial Planning

The District's financial plan includes the establishment of reserve funds in accordance with the District's Reserve Policy. Reserve funds are set to ensure the continued orderly operation of the District's water system, the provision of services to customers at established levels, and the continued stability of the District's rate structure. The District has committed to the following objectives in the Reserve Policy as of June 30, 2021.

- 1. The District will strive to adopt a balanced budget.
- 2. Capital Reserves are established to provide funds for capital facility and equipment replacement.
- 3. Liquidity Reserves are established to safeguard the financial flexibility and stability of the District and to maintain stable customer charges and rates.
- 4. Restricted Reserves are maintained to comply with restrictions imposed by outside sources such as creditors, grantors, contributors, laws, or regulations.

The District's financial plan also includes the pursuit of alternative funding sources, which help reduce reliance on rates and rate increases. The District has been very successful in pursuing project funding from the State Revolving Fund, which promote water sustainability and reliability.

Debt Administration

The District has received and maintained a credit rating of AA- from Standard and Poor's. Revenue Bonds were issued in December 2016. The bond proceeds were used to pay off 2006D-2 Installment Purchase Agreement.

Other Post-Employment Benefits Pre-Funding

In fiscal year 2014, the District began participating in a program to pre-fund the cost of its post-employment benefits plan through the California Public Employees Retirement System (CalPERS) Trust. The District annually contributes funding.

Water Rates and District Revenues

In 2013, the District changed its rate structure from uniform rates to tiered rates and established rate increases for five consecutive years through 2017. Following a financial study in 2015, the District concluded that previously approved rate increases for 2016 and 2017 were unnecessary. The District remains in sound financial condition with adequate reserves.

Water Conservation Programs

As the District responds to changing conservation regulations at the state level, Ordinance 83 represents the current approach to water conservation. Adopted on August 18, 2016 along with a move to Stage 2 watering restrictions, Ordinance 83 incorporates the District's 20% conservation standard. The standards provide additional flexibility for our customers while improving the clarity of the regulations in order to support meeting conservation goals. The District will also maintain conservation educational programs in partnership with the school districts and community groups, continue indoor and outdoor rebates and water audits, and implement grant programs encouraging turf replacement projects in disadvantaged communities.

Independent Audit and Financial Reporting

State Law and Bond covenants require the District to obtain an annual audit of its financial statements by an independent certified public accountant. The accounting firm of The Pun Group, LLP has conducted the audit of the District's financial statements. Their unmodified Independent Auditor's Report appears in the Financial Section.

Risk Management

The District is a member of the Association of California Water Agencies Joint Power Insurance Authority (Authority). The purpose of the Authority is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage. The District's Human Resources/Risk Management Department provides staff with regular safety training each month as part of the District's safety program.

Acknowledgements

More information is contained in the MD&A and in the Notes to the Basic Financial Statements found in the Financial Section of the report.

Preparation of this report was accomplished by the combined efforts of District staff. We appreciate the dedicated efforts and professionalism that these staff members contribute to the District. We would also like to thank the members of the Board for their continued support in planning and implementation of the District's fiscal policies.

Respectfully submitted,

Shamindra K. Manbahal, MPA

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of the West Valley Water District Rialto, California

Report on the Financial Statements

We have audited the accompanying financial statements of the West Valley Water District (the "District") which comprise the statements of net position as of June 30, 2021 and 2020, and the related statements of revenues, expenses, and changes in net position, and cash flows for the years then ended, and the related notes to the basic financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of June 30, 2021 and 2020, and the respective changes in financial position, and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

200 E. Sandpointe Ave., Suite 600, Santa Ana, California 92707 Tel: 949-777-8800 • Fax: 949-777-8850 www.pungroup.cpa To the Board of Directors of the West Valley Water District Page 2

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of the District's Proportionate Share of the Net Pension Liability and Related Ratios, the Schedule of Contributions - Pensions, the Schedule of Changes in Net Other Postemployment Benefits Liability and Related Ratios, and the Schedules of Contributions - Other Postemployment Benefits on pages 3 through 8 and 50 through 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The Introductory Section and the Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Introductory Section and the Statistical Section have not been subjected to the auditing procedures applied in the audits of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

The Rew Grays, UP

In accordance with Government Auditing Standards, we have also issued our report dated December 17, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Santa Ana, California

December 17, 2021

The District

West Valley Water District (District) is a California Special District established under section 30000 et seq. of the California Water Code. The District is engaged in pumping, treating, and distributing water to its customers. The District serves portions of the communities of Bloomington, Colton, Fontana, Rialto, San Bernardino, and Jurupa Valley.

The management of the West Valley Water District (District) presents the District's financial statements with a narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with the audited financial statements which follow this section.

Financial Highlights

- As of June 30, 2021, the District's assets and deferred outflows exceeds liabilities and deferred inflows by approximately \$153 million broken down as \$103.8 million invested in capital assets, \$13.93 million in restricted funds, and unrestricted funds of \$35.25 million. The unrestricted funds pay for obligations as determined by the Board of Directors to support the services provided to the customers of the District.
- In fiscal year 2021, the District's net position increased approximately \$7.78 million, from \$145.2 million to \$152.9 million or 5.36%.
- In fiscal year 2021, the District's operating revenues increased by 10.9%, or \$3,141,322 primarily to an increase in water consumption sales.
- In fiscal year 2021, the District's non-operating revenues decreased by 34.7%, or \$1,487,650. Primarily due to a decrease in interest and investment earnings of \$1,872,354.
- In fiscal year 2021, the District's operating expenses decreased 4.89%, or \$1,632,477, primarily due to a decrease in transmission and distribution of \$1,244,673, public affairs of \$849,894, and general and administrative \$435,972.
- In fiscal year 2021, the District's non-operating expenses increased by 330% or \$3,112,367. Due to impairment loss increasing for \$3,000,000, and loss on disposition of capital assets for \$189,254.

Overview of the Financial Statements

This discussion and analysis serve as an introduction to the District's financial statements. The District's financial statements comprise two components: 1) fund financial statements and 2) notes to the financial statements. This report also contains other supplementary information in addition to the financial statements themselves.

The statement of net position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference between the four reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of revenues, expenses and changes in net position presents information showing how net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave). The *statement of cash flows* presents information showing the sources and uses of cash related to operating activities, noncapital financing activities, capital and related financing activities and investing activities. In addition, the statement provides information about significant non-cash investing, capital and financing activities.

Notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the fund financial statement.

Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$153.6 million as of June 30, 2021.

The largest portion of the District's net position during June 30, 2021 (67.8%), reflects its net investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Condensed Statement of Net Position

		2021		2020		Change \$	Change %
Assets Current assets Noncurrent assets Capital assets	\$	74,489,238 287,571 133,595,875	\$	66,846,297 328,652 133,386,934	\$	7,642,941 (41,081) 208,941	11. 43% -12.50% 0.16%
Total assets		208,372,684		200,561,883		7,810,801	3.89%
Deferred outflows of resources		5,256,110		5,419,225		(163,115)	-3.01%
Liabilities:							
Current liabilities Noncurrent liabilities		9,022,530 45,713,602		7,837,906 47,640,328		1,184,623 (1,926,725)	15.11% -4.04%
Total liabilities	54,736,132			55,478,234		(742,102)	-1.34%
Deferred inflows of resources	_	5,926,540		5,321,237		605,303	11.38%
Net position:							
Net investment in capital assets Restricted Unrestricted		103,770,537 13,938,052 35,257,533		102,459,965 13,462,143 29,259,529		1,310,572 475,909 5,998,004	1.28% 3.54% 20.50%
Total net position	\$	152,966,122	\$	145,181,637	\$	7,784,485	5.36%

As of June 30, 2021, and 2020, the District reports a positive balance in its unrestricted net position of \$35,257,533 and \$29,259,529, respectively.

Condensed Statement of Revenues, Expenses, and Changes in Net Position

		2021	2020	 Change \$	Change %
Operating revenues Operating expenses	\$	31,962,156 (31,773,587)	\$ 28,820,834 (33,406,064)	\$ 3,141,322 1,632,477	1 0.90% -4.89%
Operating income (loss)		188,569	(4,585,230)	4,773,799	-104.11%
Nonoperating revenues (expenses)	_	(1,255,726)	3,344,291	 (4,600,017)	-137.55%
Income before capital contributions		(1,067,157)	(1,240,939)	173,782	-14.00%
Capital contributions		8,851,642	 4,917,877	3,933,765	79.99%
Changes in net position		7,784,485	3,676,938	4,107,547	111.71%
Net position:					
Beginning of year		145,181,637	141,504,699	3,676,938	2.60%
End of year	\$	152,966,122	\$ 145,181,637	\$ 7,784,485	5.36%

The statement of revenues, expenses, and changes of net position shows how the District's net position changed during the years. In the case of the District, the net position increased by \$7,784,485 and \$3,676,938 during the years ended June 30, 2021 and 2020, respectively. Property contributions and capacity charge revenues from new development received were \$8,851,642 and \$4,917,877 during the years ended June 30, 2021 and 2020, respectively.

Total District Revenues

	2021	 _2020	 Change \$	Change %
Operating Revenues:				
Water consumption sales	\$ 20,428,413	\$ 17,698,440	2,729,973	15.42%

Amortization of water participation rights		321,529		321,529			0.00%				
Total operating expenses		31,773,587		33,406,064		(1,632,477)	-4.89%				
Nonoperating Expenses:											
Loss on disposition of capital assets		189,254		_		189,254	100.00%				
Impairment loss		3,000,000		-		3,000,000	100.00%				
Interest expenses		865,955		942,842		(76,887)	-8.15%				
Total nonoperating expenses		4,055,209		942,842		3,112,367	330.10%				
Total expenses	\$	35,828,796	\$	34,348,906	\$	1,479,890	4.31%				

The District's total expenses increased \$1,479,890 during the fiscal year ended June 30, 2021. For 2021, the District recognized an impairment loss of \$3,000,000 due to plant and equipment. For 2021, the District also incurred higher pumping cost due to an increase in electricity prices.

Capital Asset Administration

The District's capital assets (net of accumulated depreciation) as of June 30, 2021 and 2020 were in the amounts of \$133,595,875, and \$133,386,934, respectively. This includes land and land rights, transmission and distribution systems, wells, tanks, reservoirs, pumps, building and structures, equipment, vehicles and construction-in-process. In 2021, various capital projects were finalized and added to capital assets. See note 3 for further information.

	June 30, 2021	June 30, 2020	Change \$	Change %

Total long-term debt	\$ 29,997,339	\$ 31,105,585	\$ (1,108,246)	-3.56%

Additional information on the District's long-term debt can be found in note 5 of this report.

Economic Factors and Next Year's Budgets and Rates

The District service area is in the "severe drought" category, but this will not affect the District with meeting water demands. According to the Drought Risk Assessment (DRA), a new analysis required for the 2020 Urban Water Management Plan (UWMP), WVWD relies on groundwater basins with significant storage, available supplies do not vary on a monthly or seasonal basis. Our local economy has a strong presence of the logistics sector and growth is still projected for the sector due to consumers switching to e-commerce during the COVID-19 lockdown. Despite the continuation of the COVID-19 Pandemic, WVWD is anticipating stable revenues for the FY2021-22 budget year. The District continues being proactive with spending and maintaining a strong financial position.

Requests for Information

This financial report is designed to provide the District's funding sources, customers, stakeholders and other interested parties with an overview of the District's financial operations and financial condition. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the District's Director of Finance at 855 W. Baseline Road, Rialto, CA 92376, by mail at P.O. Box 920, Rialto, CA 92377 by phone (909) 875-1804.

NOTES TO THE BASIC FINANCIAL STATEMENTS

 $This \ page \ intentionally \ left \ blank.$

Note 1 - Reporting Entity and Summary of Significant Accounting Policies

Organization and Operations of the Reporting Entity

Established on January 8, 1952, the West Valley Water District (the "District") is located in Southwestern San Bernardino County with a small area of Northwestern Riverside County. The District's service area is approximately 32 square miles. The District uses 376 miles of water mains to provide water to approximately 21,000 customers. The District is governed by a five-member Board of Directors who serve overlapping four-year terms.

The West End Water Development, Treatment and Public Affairs Joint Powers Authority (the "Authority") was formed on April 7, 1989, pursuant to the provisions of Article I, Chapter S, Division 7, Title 1 of the California Government Code. The Authority is deemed to be a component unit of the West Valley Water District, City of Rialto and the Municipal Water Department of the City of San Bernardino. The District's portion of the Authority has been included in these financial statements using the blended method of reporting. The Authority has had no activity in the past 10 years and reports no assets or liabilities.

The criteria used in determining the scope of the financial reporting entity is based on generally accepted accounting principles. The District is the primary governmental unit based on the foundation of a separately elected governing board that is elected by the citizens in a general popular election. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The District is financially accountable if it appoints a voting majority of the organization's governing body and: 1) It is able to impose its will on that organization, or 2) There is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

Basis of Presentation

Financial statement presentation follows the recommendations promulgated by the Governmental Accounting Standards Board ("GASB") commonly referred to as accounting principles generally accepted in the United States of America ("U.S. GAAP"). GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting standards.

Basis of Accounting and Measurement Focus

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs of providing water to its service area on a continuing basis be financed or recovered primarily through user charges (water sales), capital grants and similar funding.

The financial statements are reported using the "economic resources" measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as all eligibility requirements have been met. Interest associated with the current fiscal period is considered to be susceptible to accrual and so has been recognized as revenue of the current fiscal period.

Operating revenues and expenses, such as water sales and water purchases, result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Management, administration, and depreciation expenses are also considered operating expenses. Other revenues and expenses, not included in the above categories, are reported as non-operating revenues and expenses.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

Basis of Accounting and Measurement Focus (Continued)

The Statement of Net Position reports separate sections for Deferred Outflows of Resources, and Deferred Inflows of Resources, when applicable.

<u>Deferred Outflows of Resources</u> represent outflows of resources (consumption of net position) that apply to future periods and that, therefore, will not be recognized as an expense until that time.

<u>Deferred Inflows of Resources</u> represent inflows of resources (acquisition of net position) that apply to future periods and that, therefore, will not be recognized as revenue until that time.

Cash and Cash Equivalents

Cash and cash equivalents include all highly liquid investments with original maturities of 90 days or less and are carried at cost, which approximates fair value.

Investments

Investments are stated at fair value. Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

Fair Value Measurements

U.S. GAAP defines fair value, establishes a framework for measuring fair value and establishes disclosures about fair value measurement. Investments, unless otherwise specified, recorded at fair value in the Statements of Net Position, are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Levels of inputs are as follows:

- Level 1 Inputs are unadjusted, quoted prices for identical assets and liabilities in active markets at the measurement date.
- Level 2 Inputs, other than quoted prices included in Level 1, that are observable for the asset or liability through corroboration with market data at the measurement date.
- Level 3 Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

Restricted Assets

Certain assets of the District are restricted in use by ordinance or debt covenant and, accordingly, are shown as restricted assets on the accompanying statement of net position. Revenue bond reserve funds and construction funds set aside from bond proceeds are restricted for future debt service payments and construction projects. The District uses restricted resources, prior to using unrestricted resources, to pay expenditures meeting the criteria imposed on the use of restricted resources by a third party.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

Accounts Receivable and Allowance for Uncollectible Accounts

The District extends credit to customers in the normal course of operations. When management deems customer accounts uncollectible, the District uses the allowance method for the reservation and write-off of those accounts.

Materials and Supplies Inventory

Materials and supplies inventory consist primarily of water meters, pipe and pipe fittings for construction and repair to the District's water transmission and distribution system. Inventory is valued at cost using a weighted average method. Inventory items are charged to expense at the time that individual items are withdrawn from inventory or consumed.

Prepaid Items

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in the basic financial statements.

Accounts Receivable - Redevelopment Pass-Through

The District has a tax pass-through agreement with the City of Rialto; whereby, the County of San Bernardino auditor-controller is to pay a portion of the City's incremental tax receipts directly to the District for water-related improvements within the Agua Mansa redevelopment area. Over the past several years, the District has received an annual payment of the revenue that it is entitled to and it is anticipated that the District will continue to collect annual payments through fiscal year 2029.

Capital Assets

Capital assets acquired and/or constructed are capitalized at historical cost. District policy has set the capitalization threshold for reporting capital assets at \$5,000. Donated capital assets are valued at acquisition value on the date donated. Upon retirement or other disposition of capital assets, the cost and related accumulated depreciation are removed from the respective balances and any gains or losses are recognized.

Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Source of supply plant 20 years
Pumping plant 10 - 20 years
Water treatment plant 10 years
Transmission and distribution plant 15 - 60 years
General plant 5 - 20 years

Compensated Absences

The District's personnel policies provide for accumulation of vacation and sick leave. Liabilities for vacation and sick leave are recorded when benefits are earned. Cash payment of unused vacation is available to those qualified employees when retired or terminated.

Note 1 – Reporting Entity and Summary of Significant Accounting Policies (Continued)

Construction Advances and Deposits

Construction advances represent deposits received in aid of construction, which are refundable if the applicable construction does not take place. Construction advances are transferred to contributed capital when the applicable construction project is completed.

Defined Benefit Pension Plans

For purposes of measuring the net pension liability, and deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net pension of the District's pension plans and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by plans (Note 6). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

<u>CalPERS</u>	June 30, 2021
Valuation date	June 30, 2019
Measurement date	June 30, 2020
Measurement period	July 1, 2019 to June 30, 2020
CalPERS	June 30, 2020
<u>CalPERS</u> Valuation date	June 30, 2020 June 30, 2018
Valuation date	June 30, 2018

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retires) as of the beginning of the measurement period.

Other Postemployment Benefits ("OPEB")

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's OPEB Plan and additions to/deductions from OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan (Note 7). For this purpose, the OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments, which are reported at amortized cost.

Net Position

The financial statements utilize a net position presentation. Net position is categorized as follows:

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation, reduced by any outstanding balances of debt and the deferred amount on refunding debt that are attributable to the acquisition, construction or improvement of those assets.

<u>Restricted</u>— This component of net position consists of restricted assets reduced by liabilities and deferred outflows and inflows of resources related to those assets.

<u>Unrestricted</u> – This component of net position is the amount of the assets, deferred outflows or resources, liabilities, and deferred inflows of resources that are not included in the determination of net investments in capital assets or the restricted component of net position.

Water Sales and Sewer Services

Water sales and sewer services are billed on a monthly cyclical basis and recognize the respective revenues when they are earned.

Capital Contributions

Capital contributions represent cash and capital asset additions contributed to the District by property owners, granting agencies or real estate developers desiring services that require capital expenditures or capacity commitment. Any prepayments received by the District are reported as unearned revenue until construction of the related project has commenced and the District is reasonably certain they will be completed. Upon completion, the applicable amounts are recognized as capital contributions.

Budgetary Policies

The District adopts an annual non-appropriated budget for planning, control, and evaluation purposes. Budgetary control and evaluation are affected by comparisons of actual revenues and expenses with planned revenues and expenses for the period. Encumbrance accounting is not used to account for commitments related to unperformed contracts for construction and services.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of the basic financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results most likely will differ from those estimates.

Implementation of Governmental Accounting Standards Board (GASB) Pronouncement

During the fiscal year ended June 30, 2021, the District implemented the following accounting standards:

- In January 2017, GASB issued Statement No. 84, Fiduciary Activities (GASB Statement No. 84), to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The statement establishes criteria for identifying fiduciary activities of all state and local governments. It also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. The implementation of this statement did not have a significant impact to the District's financial statements.
- In August 2018, GASB issued Statement No. 90, Majority Equity Interests an Amendment of GASB Statements No. 14 and No. 61 (GASB Statement No. 90), to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. This statement requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. The implementation of this statement did not have a significant impact to the District's financial statements.
- In October 2021, GASB issued Statement No. 98, *The Annual Comprehensive Financial Report.*, to establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. Those provision are effective for fiscal years ending after December 15, 2021. The District has elected early implementation. The implementation of this statement did not have a significant impact to the District's financial statements.

New GASB Pronouncements

• In June 2017, GASB issued Statement No. 87, Leases (GASB Statement No. 87), to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It also establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. GASB Statement No. 87 originally effective for the District's fiscal year ending June 30, 2021, has been postponed to fiscal year ending June 30, 2022.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

New GASB Pronouncements (Continued)

- In May 2019, GASB issued Statement No. 91, Conduit Debt Obligations (GASB Statement No. 91), to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. GASB Statement No. 91 originally effective for the District's fiscal year ending June 30, 2022, has been postponed to fiscal year ending June 30, 2023.
- In January 2020, GASB issued Statement No. 92, *Omnibus 2020* (GASB Statement No. 92), to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics. GASB Statement No. 92 originally effective for the District's fiscal year ending June 30, 2021, has been postponed to fiscal year ending June 30, 2022.
- In March 2020, GASB issued Statement No. 93, Replacement of Interbank Offered Rates (GASB Statement No. 93), to address those and other accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR) most notably, the London Interbank Offered Rate (LIBOR) which is expected to cease to exist in its current form at the end of 2021. GASB Statement No. 93 originally effective for the District's fiscal year ending June 30, 2022, has been postponed to fiscal year ending June 30, 2023.
- In March 2020, GASB issued Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements (GASB Statement No. 94) to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). GASB Statement No. 94 is effective for the District's fiscal year ending June 30, 2023.
- In May 2020, GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements (GASB Statement No. 96), to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. GASB Statement No. 96 is effective for the District's fiscal year ending June 30, 2023.
- In June 2020, GASB issued Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans An Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32 (GASB Statement No. 97), to (1) increase consistency and comparability related to the reporting of fiduciary component units; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. GASB Statement No. 97 is effective for the District's fiscal year ending June 30, 2022.

Note 1 – Reporting Entity and Summary of Significant Accounting Policies (Continued)

Reclassifications

Certain amounts from the prior year have been reclassified to conform to the current year presentation. Such reclassifications had no effect on previously reported net position and changes in net position.

Note 2 - Cash and Investments

Cash and investments as of June 30, 2021 and 2020 were classified in the accompanying financial statements as follows:

	 2021	2020
Cash and cash equivalents	\$ 6,309,901	\$ 3,622,382
Investments	 61,618,400	57,219,262
Total cash and investments	\$ 67,928,301	\$ 60,841,644

Cash and investments as of June 30, 2021 and 2020 consist of the following:

	 2021	 2020
Cash on hand	\$ 4,300	\$ 4,300
Deposits held with financial institutions	6,305,601	3,618,082
Investments	61,618,400	57,219,262
Total cash and investments	\$ 67,928,301	\$ 60,841,644

Demand Deposits

The carrying amounts of cash deposits were \$6,305,601 and \$3,618,082 at June 30, 2021 and 2020, respectively. Bank balances at June 30, 2021 and 2020 were \$6,064,541 and \$4,652,581, respectively, which were fully insured and/or collateralized with securities held by the pledging financial institutions in the District's name as discussed below.

The California Government Code requires California banks and savings and loan associations to secure the District's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the District's name.

The fair value of pledged securities must equal at least 110% of the District's cash deposits. California law also allows institutions to secure the District's deposits by pledging first trust deed mortgage notes having a value of 150% of the District's total cash deposits. The District may waive collateral requirements for cash deposits, which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation. The District, however, has not waived the collateralization requirements.

Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized by the District in accordance with the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk.

Note 2 - Cash and Investments (Continued)

Investments Authorized by the California Government Code and the District's Investment Policy (Continued)

This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

		M aximum	M aximum
	Maximum	Percentage Of	Investment
Authorized Investment Type	M aturity	Portfolio	in One Issuer

Supranational	5 years	30%	10%

¹ Purchase of callable Federal Agency Obligations are limited to a maximum 30% of portfolio.

Fair Vale Measurements

At June 30, 2021 and 2020, investments are reported at fair value. The following table presents the fair value measurement of investments on a recurring basis and the levels within GASB 72 fair value hierarchy in which the fair value measurements fall at June 30, 2021 and 2020:

	Measurement Input										
	·		2021						2020		
Investment Type	Significant Observable Inputs (Level 2)	U	ncategorized		Total		Significant Observable Inputs (Level 2)	Ü	ncategorized		Total
CalTrust	\$ 	\$	16,780,061	\$	16,780,061	\$	-	\$	26,650,580	\$	26,650,580
U.S. Treasury Obligations	9,358,479		3.2		9,358,479		6,489,142		-		6,489,142

U.S. Corporate	4,665,601		39		4,665,601		3,300,459				3,300,459
Supranational	1,773,272		÷÷		1,773,272		513,574		5		513,574
Local Agency Investment Fund (LAIF)			20,361,227		20,361,227		-		17,310,257		17,310,257
Money Market Mutual Funds	 		742,109		742,109				67,753		67,753
Total	\$ 23,735,003	\$	37,883,397	\$	61,618,400	\$	13,190,672	\$	44,028,590	\$	57,219,262

² Only a maximum 30% of surplus funds can be invested in Certificates of Deposit.

³ Only a maximum of 20% the portfolio may be invested in Time Certificate of Deposits (TCDs). The maturity of TCDs may not exceed 4 years.

Note 2 – Cash and Investments (Continued)

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the table on the following page that shows the distribution of the District's investments by maturity.

The District's investments as of June 30, 2021 were as follows:

	Inve	stment	Maturities (in					
Investment Type		Less Than 1 Year		1 to 3 Years		3 to 5 Years		Fair Value Total
CalTrust		16,780,061	\$	_	<u> </u>	-		16,780,061
U.S. Agency Obligations		1,263,744		4,273,011		3,821,724		9,358,479
U.S. Treasury Obligations		756,191		1,034,824		6,146,636		7,937,651

Custodial Credit Risk

The custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

Note 2 – Cash and Investments (Continued)

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments in commercial paper and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations (NRSROs). It is the District's policy to limit its investments in these investment types to the top rating issued by NRSROs, including raters Standard and Poor's, and Moody's Investors Service.

As of June 30, 2021, the District had the following table of the Standard and Poor's credit ratings:

Investment Type	Ju	Total As of ane 30, 2020	Minimum Legal Rating	 A or Higher	Not rated
CalTrust	\$	16,780,061	N/A	\$	\$ 16,780,061
U.S. Agency Obligations		9,358,479	N/A	9,358,479	
U.S. Treasury Obligations		7,937,651	N/A	7,937,651	
U.S. Corporate		4,665,601	A	4,665,601	
Supranational		1,773,272	AA	1,773,272	2
Local Agency Investment Fund (LAIF)		20,361,227	N/A	150	20,361,227
Money Market Mutual Funds		742,109	AAA	 742,109	 2
Total	\$	61,618,400		\$ 24,477,112	\$ 37,141,288

As of June 30, 2020. the District had the following table of the Standard and Poor's credit ratings:

Investment Type	_ <u></u> Jı	Total As of one 30, 2019	Minimum Legal Rating	 or Higher	 Not rated
CalTrust	\$	26,650,580	N/A	\$ 9	\$ 26,650,580
U.S. Agency Obligations		6,489,142	N/A	6,489,142	-

Supranational		513,574	AA	513,574	=
Local Agency Investment Fund (LAIF)		17,310,257	N/A	9	17,310,257
Money Market Mutual Funds		67,753	AAA	67,753	2
Total	\$	57,219,262		\$ 13,258,425	\$ 43,960,837

Concentration of Credit Risk

The District's investment policy contains various limitations on the amounts that can be invested in any one governmental agency or non-governmental issuer as stipulated by the California Government Code. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total District investments are as follows:

There were no investments in any one non-governmental issuer that represent 5% or more of the District's total investments as of June 30, 2021 and 2020.

Note 2 – Cash and Investments (Continued)

Local Agency Investment Funds

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's prorata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

The District's investment with LAIF at June 30, 2021 and 2020, included a portion of the pool funds investing in Structured Notes and Asset-Backed Securities:

<u>Structured Notes</u>: debt securities (other than asset-backed securities) whose cash flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

<u>Asset-Backed Securities</u>: generally, mortgage-backed securities that entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (for example, Collateralized Mortgage Obligations) or credit card receivables.

The District had \$20,361,227 and \$17,310,257 invested in LAIF respectively, which had invested 2.31% and 3.37% of the pooled investment funds in structured notes and medium-term asset-backed securities as of June 30, 2021 and 2020, respectively. The LAIF fair value factor of 1.00008297 and 1.004912795 were used to calculate the fair value of the investments in LAIF as of June 30, 2021 and 2020, respectively.

Investment in CalTRUST

The Investment Trust of California, doing business as CalTRUST, is a California joint powers authority which provides California Public Agencies with investment management services for surplus funds to consolidate investment activities of its Participants and thereby reduces duplication, achieves economies of scale and carries out coherent and consolidated investment strategies through the issuance of shares of beneficial interest in investments purchased by CalTRUST. CalTRUST currently offers three accounts or series as a means for Public Agencies to invest their funds. The District participates in the CalTRUST Short-Term Fund Series and CalTRUST Medium-Term Fund Series.

Note 3 - Capital Assets

Changes in capital assets for the year ended June 30, 2021, were as follows:

	Balance	A didtet	D. Lutter	TD 6	Balance
	July 1, 2020	Additions	Deletions	Transfers	June 30, 2021
Non-depreciable assets:

The construction-in-process balances at June 30, 2021 are as follows:

 2021
\$ 1,283,403
1,049,981
1,244,943
\$ 3,578,327
\$

During 2021, the District decided to terminate the construction contract, and decommissioned the fixed-bed bioreactor system by failing to the meet designed standard. The District recognized an impairment loss of \$3,000,000 with respect to the plant and equipment.

Note 3 – Capital Assets (Continued)

Changes in capital assets for the year ended June 30, 2020, were as follows:

Depreciation expense for the years ended June 30, 2021 and 2020 were \$6,199,142 and 6,150,232, respectively. Major capital assets additions during the current year include the upgrades and extensions of the District's transmission and distribution, water treatment plant, general plant and pumping plant. A significant portion of these additions were constructed by the District and/or sub-contractors and transferred out of construction-in-process, upon competition of these various projects.

Amortization expense for the years ended June 30, 2021 and 2020 were \$321,529 and \$321,529, respectively.

Note 3 – Capital Assets (Continued)

Construction-In-Process

The construction-in-process balances at June 30, 2020 are as follows:

		2020

Water Revenue Refunding Bonds Series 2016A

The 2016A Bonds were issued to provide funds, together with certain other moneys: (i) to prepay all amounts payable under the Series 2006D-2 Bonds installment purchase agreement between the District and California Statewide Communities Development Authority; and (ii) pay costs of issuance of the 2016A Bonds. The 2016A Bonds were issued pursuant to an Indenture of Trust, dated December 1, 2016, by and between the District and U.S. Bank National Association. The 2016A Bonds were in the aggregate principal amount of \$22,035,000. The 2016A Bonds were dated as of the date of initial issuance, and will bear interest ranging from 2.00% to 5.00% per annum, payable on April 1 and October 1, commencing April 1, 2017, and ending October 1, 2047. The Series 2016A Bonds are payable solely from the net revenues of the District's water system as defined in the Series 2016A Bond Indenture.

The District has covenanted that it shall at all times while any of the 2016A Bonds remain unpaid, to the maximum extent permitted by law, to fix, prescribe and collect rates, fees and charges and manage the operation of the District for each fiscal year so as to yield District's net revenues equal to at least 1.20 times the annual debt service. The District is in compliance with such covenant at June 30, 2021 and 2020. In event of default, the District upon demand by U.S. Bank National Association, will immediately repay the total unpaid principal of the Bonds, accrued interests.

The amount outstanding at June 30, 2021 was \$20,215,000. The annual debt service requirements on these bonds are as follows:

Year Ending June 30,	Princip al	Interest	Total
2022	\$ 430,000	\$ 876,350	\$ 1,306,350
2023	440,000	863,300	1,303,300
2024	455,000	847,600	1,302,600
2025	475,000	829,000	1,304,000
2026-2030	2,715,000	3,771,875	6,486,875
2031-2035	3,450,000	3,021,350	6,471,350
2036-2040	2,505,000	2,140,875	4,645,875
2041-2045	3,910,000	1,401,600	5,311,600
2046-2047	5,835,000	350,100	 6,185,100
Total	\$ 20,215,000	\$ 14,102,050	\$ 34,317,050

Note 5 - Long-Term Debt (Continued)

Hydroelectric Plant

In December 20, 2016, the District entered into an agreement with San Bernardino Valley Municipal Water District ("Valley District") to finance and construct Roemer Hydroelectric Station. In the agreement, the Valley District agreed to finance the cost of the project total amounted of \$3,310,151 with the interest that the Valley District shall be revenue neutral in this financing arrangement. Beginning June 2018, the District shall repay the principal of the project funds, together with all interest accruing thereon, annually to the Valley District. As of June 30, 2021, the outstanding balance of the financing was in the amount of \$2,316,851.

Future debt service requirements are as follows:

Year Ending	
June 30,	 Principal
2022	\$ 331,100
2023	331,100
2024	331,100
2025	331,100
2026	331,100
Thereafter	661,351
Total	\$ 2,316,851

Water Participation Rights Contract Payable

In 2012, the District acquired water participation rights from the San Bernardino Valley Municipal Water District. These rights entitle the District to purchase water from the Baseline Feeder system. The payment for the rights is calculated at 5,000-acre feet at \$90 per acre foot, per year, payable in monthly installments of \$26,794, until January 31, 2041. The calculated annual amount of \$321,529 is a minimum usage fee which does not actually represent the purchase of any water. Purchased water is billed in addition to the minimum fee.

Future debt service requirements are as follows:

Year Ending	
June 30,	 Principal
2022	\$ 321,529
2023	321,529
2024	321,529
2025	321,529
2026-2020	1,607,645
2031-2035	1,607,645
2036-2040	1,607,645
2041	321,526
Total	\$ 6,430,577

Note 6 - Defined Benefit Pension Plans

The following is the summary of net pension liability and related deferred outflows of resources and deferred inflows of resources at June 30, 2021 and 2020 and pension expense for the years then ended.

	June 30, 2021		Ju	June 30, 2020

General Information about the Pension Plan

Plans Description

The District contributes to the California Public Employees Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public agencies within the State of California. Benefit provisions and all other requirements are established by state statute and the District. A full description of the pension plan regarding number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2019 and 2018 Annual Actuarial Valuation Report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

Benefits Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. A classic CalPERS member becomes eligible for service retirement upon attainment of age 55 with at least 5 years of credited service. PEPRA miscellaneous members become eligible for service retirement upon attainment of age 62 with at least 5 years of service. The service retirement benefit is a monthly allowance equal to the product of the benefit factor, years of service, and final compensation. The final compensation is the monthly average of the member's highest 36 or 12 consecutive months' full-time equivalent monthly pay. Retirement benefits for classic miscellaneous employees are calculated as 2% of the average final 12 months compensation. Retirement benefits for PEPRA miscellaneous employees are calculated as 2% of the average final 36 months compensation.

Note 6 – Defined Benefit Pension Plans (Continued)

General Information about the Pension Plan (Continued)

Participant is eligible for non-industrial disability retirement if becomes disabled and has at least 5 years of credited service. There is no special age requirement. The standard non-industrial disability retirement benefit is a monthly allowance equal to 1.8% of final compensation, multiplied by service. Industrial disability benefits are not offered.

The Plan's provisions and benefits in effect as of June 30, 2019 and 2018, the valuation date, are summarized as follows:

	20	119	20	18
	Classic Tier 1	PEPRA Tier 2	Classic Tier 1	PEPRA Tier 2
	Prior to	On or After	Prior to	On or After
	January 1, 2013	January 1, 2013	January 1, 2013	January 1, 2013
Benefit formula	2.0% @ 55	2.0% @ 62	2.0% @ 55	2.0% @ 62
Benefit vesting schedule	5 years service	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life	monthly for life
Retirement age	50-55 & up	52-67 & up	50-55 & up	52-67 & up
Required employee contribution rates	7.000%	6.750%	7.000%	6.750%
Required employer contribution rates	10.221%	6.985%	9.409%	6.842%

Employees Covered by Benefit Terms

At June 30, 2019 and 2018, the valuation date, the following employees were covered by the benefit terms for the Plan:

	2019	9	201	.8		
	Miscellane	ous Plan	Miscellaneous Plan			
	Classic	PEPRA	Classic	PEPRA		
Active employees	42	42	46	31		
Transferred and terminated employees	73	13	73	8		
Retired employees and beneficiaries	42	1	39			
Total	157	56	158	39		

Contributions

Section 20814(c) of the California Public Employees' Retirement Law ("PERL") requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The Public agency cost-sharing plans covered by the miscellaneous risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

Note 6 – Defined Benefit Pension Plans (Continued)

Net Pension Liability

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

The June 30, 2019 and 2018 valuation were rolled forward to determine the June 30, 2020 and 2019 total pension liability, based on the following actuarial assumptions:

Actuarial Cost Method

Entry Age Normal in accordance with the requirement of GASB Statement No. 68

Actuarial Assumptions:

Discount Rate 7.15% Inflation 2.50%

Salary Increases

Varies by Entry Age and Service

Mortality Rate Table¹
Post Retirement Benefit Increase

Derived using CalPERS' Membership Data for all Funds

Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.50% thereafter

¹The mortality table used in 2019 and 2018 was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to December 2017 Experience Study Report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website at www.calpers.ca.gov under Forms and Publications.

Change of Assumptions

For the measurement period June 30, 2020 and 2019, there were no changes of assumptions. In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate. There were no changes in the discount rate.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Note 6 - Defined Benefit Pension Plans (Continued)

Net Pension Liability (Continued)

Long-Term Expected Rate of Return (Continued)

The expected real rates of return by asset class are as followed:

	Assumed Asset	Real Return	Real Return
Asset Class	Allocation	Years 1-10 ²	Years 11+3
Global Equity	50%	4.80%	5.98%
Global Fixed Income	28%	1.00%	2.62%
Inflation Sensitive	0%	0.77%	1.81%
Private Equity	8%	6.30%	7.23%
Real Estate	13%	3.75%	4.93%
Liquidity	1%	0.00%	-0.92%

¹In the CalPERS' CAFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

Discount Rate

The discount rate used to measure the total pension liabilities was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liabilities of the Plan as of the measurement date at June 30, 2020 and 2019, calculated using the discount rate of 7.15%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15%) or 1 percentage-point higher (8.15%) than the current rate:

		Plan's Net Pension Liability/(Asset)							
	Discount Rate - 1%		Cur	rent Discount	Discount Rate + 1%				
Measurement Date	(6.15%)		R	ate (7.15%)	(8.15%)				
June 30, 2020	\$	11,597,807	\$	7,159,848	\$	3,492,900			
June 30, 2019		10,602,954		6,421,111		2,969,294			

Pension Plan Fiduciary Net Position

Detail information about the plan's fiduciary net position is available in the separately issued CalPERS financial reports and can be obtained from CalPERS' website under Forms and Publications.

²An expected inflation of 2.00% used for this period

³An expected inflation of 2.92% used for this period.

Note 6 – Defined Benefit Pension Plans (Continued)

Changes in the Net Pension Liability (continued)

Proportionate Share of Net Pension Liability and Pension Expense

The following table shows the plan's proportionate share of the risk pool collective net pension liability over the measurement period:

Miscel	llane	ous Plan					
	Increase (Decrease)						
		Total Pension Liability (a)		n Fiduciary let Position (b)	Net Pension Liability/(Asset) (c) - (a) - (b)		
Balance at June 30, 2019 (Valuation Date) Balance at June 30, 2020 (Measurement Date) Net Changes during 2019-2020	\$	31,091,065 33,349,163 2,258,098	\$	24,669,954 26,189,315 1,519,361	\$	6,421,111 7,159,848 738,737	
Balance at June 30, 2018 (Valuation Date) Balance at June 30, 2019 (Measurement Date) Net Changes during 2018-2019	\$	29,312,907 31,091,065 1,778,158	\$	23,598,084 24,669,954 1,071,870	\$	5,714,823 6,421,111 706,288	

The following is the approach established by the plan actuary to allocate the net pension liability and pension expense to the individual employers within the risk pool for the measurement periods ended June 30, 2020 and 2019.

- (1) In determining a cost-sharing plan's proportionate share, total amounts of liabilities and assets are first calculated for the risk pool as a whole on the valuation date (June 30, 2019 and 2018). The risk pool's fiduciary net position ("FNP") subtracted from its total pension liability ("TPL") determines the net pension liability ("NPL") at the valuation date.
- (2) Using standard actuarial roll forward methods, the risk pool TPL is then computed at the measurement date (June 30, 2020 and 2019). Risk pool FNP at the measurement date is then subtracted from this number to compute the NPL for the risk pool at the measurement date. For purposes of FNP in this step and any later reference thereto, the risk pool's FNP at the measurement date denotes the aggregate risk pool's FNP at June 30, 2020 and 2019 less the sum of all additional side fund (or unfunded liability) contributions made by all employers during the measurement period (2019-2020 and 2018-2019).
- (3) The individual plan's TPL, FNP and NPL are also calculated at the valuation date. TPL is allocated based on the rate plan's share of the actuarial accrued liability. FNP is allocated based on the rate plan's share of market value assets.
- (4) Two ratios are created by dividing the plan's individual TPL and FNP as of the valuation date from (3) by the amounts in step (1), the risk pool's total TPL and FNP, respectively.
- (5) The plan's TPL as of the Measurement Date is equal to the risk pool TPL generated in (2) multiplied by the TPL ratio generated in (4). The plan's FNP as of the Measurement Date is equal to the FNP generated in (2) multiplied by the FNP ratio generated in (4) plus any additional side fund (or unfunded liability) contributions made by the employer on behalf of the plan during the measurement period.
- (6) The plan's NPL at the Measurement Date is the difference between the TPL and FNP calculated in (5).

Note 6 - Defined Benefit Pension Plans (Continued)

Changes in the Net Pension Liability (Continued)

Proportionate Share of Net Pension Liability and Pension Expense (Continued)

Deferred outflows of resources, deferred inflows of resources, and pension expense are allocated based on the District's share of contributions made during the measurement period.

The District's proportionate share of the net pension liability was as follows:

2021		2020	
M easurement Date		Measurement Date	
June 30, 2019	0.0627%	June 30, 2018	0.0593%
June 30, 2020	0.0658%	June 30, 2019	0.0627%
Change - Increase (Decrease)	0.0031%	Change - Increase (Decrease)	0.0034%

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the years ended June 30, 2021 and 2020, the District recognized pension expense in the amounts of \$1,648,416 and \$1,680,717 respectively. At June 30, 2021 and 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2021				2020			
	Defe	erred outflows	Deferred inflows of Resources		Deferred outflows of Resources		Deferred inflows of Resources	
	01	f Resources						
Pension contribution after measurement date	\$	1,037,677	\$	÷3	\$	984,477	\$	(a)
Changes of assumptions				(51,067)		306,188		(108,541)
Difference between expected and actual experience		368,968		=		445,973		(34,554)
Projected earnings on pension plan investments								
under/(in excess of) actual earnings		212,695		÷3		+:		(112,261)
Adjustment due to differences in proportions		467,484		• :		430,657		9
Employer's actual contributions in excess of/(under)							
employer's proportionate share of contribution	-	30		(275,016)		+7		(279,196)
Total	\$	2,086,824	\$	(326,083)	\$	2,167,295	\$	(534,552)

Deferred outflows of resources related to pensions resulting from District's contributions subsequent to the measurement date in the amount of \$1,037,677 and \$984,477 will be recognized as a reduction of the collective net pension liability in the years ended June 30, 2021 and 2020, respectively.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

		ferred Outflows/ lows) of Resources		rred Outflows/ ws) of Resources
Year Ending June 30,		2021	Year Ending June 30,	2020
2022	\$	181,137	2021	\$ 550,129
2023		252,329	2022	5,197
2024		187,583	2023	70,256
2025		102,015	2024	22,684
2026		90	2025	-
	\$	723,064		\$ 648,266

Note 7 – Other Postemployment Benefits ("OPEB")

At June 30, 2021 and 2020, total OPEB liability and related deferred outflows of resources and deferred inflows of resources are as follow:

	June 30, 2021		Ju	ne 30, 2020
Deferred outflows of resources:				-
OPEB contribution after measurement date	\$	1,310,480	\$	1,244,934
Difference between expected and actual experience		1,602,410		1,828,101
Projected earnings on pension plan investments				
under/(in excess of) actual earnings		84,395		279
Total deferred outflows of resources	\$	2,997,285	\$	3,073,314
Total other postemployment benefit liability	\$	8,401,079	\$	10,177,134
Deferred inflows of resources:				
Change of assumptions		5,348,522		4,786,685
Difference between expected and actual experience		251,935		-
Total deferred inflows of resources	\$	5,600,457	\$	4,786,685
OPEB Expense	\$	424,226	\$	581,400

General Information about the OPEB Plan

Plan Description

The District pays a portion of the cost of health insurance for retirees (including prescription drug benefits) under any group plan offered by the CalPERS Health Program, subject to certain restrictions as determined by the District. The District offers post-employment medical benefits to retired employees who satisfy the eligibility rules. Spouses and surviving spouses are also eligible to receive benefits. Retirees may enroll in any medical plan available through the District's CalPERS Health Program, a cost-sharing multiple-employer medical coverage plan. The contribution requirements of eligible retired employees and the District are established and may be amended by the Board of Directors.

Eligibility

As of the June 30,2020 and 2019, the measurement date, the following current and former employees were covered by the benefit terms under the OPEB Plan:

	2020	2017
Active employees	72	75
Inactive employees or beneficiaries currently receiving benefits	30	27
Inactive employees entitled to, but not yet receiving benefits	(F	9
Total	102	102

2020

2010

Contributions

The OPEB Plan and its contribution requirements are established by Ordinance and may be amended by Board action to update the original Ordinance. The annual contribution is based on the actuarially determined contribution. For the fiscal year ended June 30, 2021, the District's cash contributions were \$1,220,162 in payments to the California Employers' Retiree Benefit Trust (CERBT) Fund and the estimated implied subsidy was \$90,318 resulting in total payments of \$1,310,480. For the fiscal year ended June 30, 2020, the District's cash contributions were \$1,203,934 in payments to the California Employers' Retiree Benefit Trust (CERBT) Fund and the estimated implied subsidy was \$41,000 resulting in total payments of \$1,244,934.

West Valley Water District

Notes to the Basic Financial Statements (Continued) For the Years Ended June 30, 2021 and 2020

Note 7 – Other Postemployment Benefits ("OPEB") (Continued)

Net OPEB Obligation

The District's net OPEB liabilities were measured as of June 30, 2019 and 2018 and the total OPEB liabilities used to calculate the net OPEB liabilities were determined by an actuarial valuation as of June 30, 2018.

Actuarial Assumptions

Total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Valuation Date	June 30, 2020
Actuarial Assumptions:	
Discount Rate	6.75%
Expected Long-Term Rate on	6.75%
Return on Investments	Expected District contributions projected to keep
	sufficient plan assets to pay all benefits from trust
General Inflation	3%
Mortality, Retirement,	CalPERS Service Retirement for Active Members (1997-2015).
Pre-retirement Mortality:	Preretirement Mortality Rates from CalPERS Experience Study (1997-2015).
Postretirement Mortality:	Post-retirement Mortality Rates for Healthy Recipients from CalPERS
	Experience Study (1997-2015).
Salary Increases	3% aggregate; merit CalPERS 1997-2015 experience study
Medical Trend	6.00 percent for 2020 decreasing to 5.40 percent for 2023,
	5.20 percent for 2024-2060, and 4.00 percent for 2070 and
	thereafter; Medicare ages: 4.00 percent
Dental and Vision Trend	4.00%
Healthcare Participation	DOH < 7/1/2006: 95%
for Future Retirees	DOH \geq 7/1/2006: 50% with 5 years of service,
	increasing to 95% with 20 years of service
Medicare Eligibility	100%

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Rate of Return
Global Equity	59.00%	5.50%
Fixed Income	25.00%	1.50%
TIPS	5.00%	1.20%
Commodities	3.00%	0.60%
REITS	8.00%	3.70%
Total	100.00%	

Note 7 – Other Postemployment Benefits ("OPEB") (Continued)

Net OPEB Obligation (Continued)

Discount Rate

The discount rate used to measure the total OPEB liability was 6.75 percent, based on CERBT Strategy 1 investment policy. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal years ended June 30, 2021 and 2020, the District recognized OPEB expense of \$424,226 and \$581,400, respectively. As of fiscal years, ended June 30, 2021 and 2020, the District reported deferred outflows of resources related to OPEB from the following sources:

	2021					2020			
		Deferred outflows of Resources		Deferred inflows of Resources		Deferred outflows of Resources		Deferred inflows of Resources	
Changes of assumptions	\$	340	\$	5,348,522	\$	(8)	\$	4,786,685	
Net difference between projected and								·	
actual earnings on plan investments		84,395		9		279		-	
Difference between expected and									
actual experience		1,602,410		251,935		1,828,101		-	
Employer contributions made subsequent									
to the measurement date		1,310,480		(8)		1,244,934			
Total	\$	2,997,285	\$	5,600,457	\$	3,073,314	\$	4,786,685	

Deferred outflows of resources related to OPEB resulting from District's contributions subsequent to the measurement date in the amounts of \$1,310,480 and \$1,244,934 will be recognized as a reduction of the net OPEB liability in the years ended June 30, 2021 and 2020, respectively.

Note 7 – Other Postemployment Benefits ("OPEB") (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Amount reported as deferred outflows of resources related to OPEB will be recognized as future OPEB expense as follows:

Year Ended June 30	Outfl	Deferred ows/(Inflows) of Resources 2021	Year Ended June 30	Deferred Outflows/(Inflows) of Resources 2020		
2022	\$	(738,785)	2021	\$	(596,441)

Contracts payable - current		(652,629)		(652,629)	
Contracts payable - noncurrent		(8,094,799)		(8,747,428)	
Net investment in capital assets	\$	103,770,537	\$	102,459,965	

Note 9 - Commitments and Contingencies

Construction Contracts

The District has a variety of agreements with private parties relating to the installation, improvement or modification of water facilities and distribution systems within its service area. The financing of such construction contracts is being provided primarily from the District's replacement reserves and advances for construction.

Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District has estimated an aggregate contingent liability related to various claims and litigations in the amount of \$0 and \$438,970 as of June 30, 2021 and 2020, respectively. The contingent liability is periodically adjusted as additional information becomes available affecting management's estimate. Actual claims and settlements paid will likely differ from this amount.

Note 10 - Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is a member of the Association of California Water Agencies/Joint Powers Insurance Authority (ACWA/JPIA), an intergovernmental risk sharing joint powers authority created to provide self-insurance programs for California water agencies. The purpose of the ACWA/JPIA is to arrange and administer programs of self-insured losses and to purchase excess insurance coverage. As of June 30, 2020, the District participated in the liability and property programs of the ACWA/JPIA as follows:

• General and auto liability, public officials and employees' errors and omissions: Total risk financing self-insurance limits of \$5,000,000, combined single limit at \$5,000,000 per occurrence. The JPIA purchases additional excess coverage layers: \$60 million per occurrence for general, auto and public officials' liability, which increases the limits on the insurance coverage noted above.

In addition to the above, the District also has the following insurance coverage:

- Public employee dishonesty coverage up to \$100,000 per loss includes public employee dishonesty, forgery or alteration and theft, disappearance and destruction coverages.
- Property loss is paid at the replacement cost for property on file, if replaced within two years after the loss, otherwise paid on an actual cash value basis, to a combined total of \$500 million per occurrence, subject to a \$2,500 deductible per occurrence.
- Boiler and machinery coverage for the replacement cost up to \$100 million per occurrence, subject to various deductibles depending on the type of equipment.
- Workers' compensation insurance up to California statutory limits for all work-related injuries/illnesses covered by California law. Coverage is through the Special Districts Risk Management Authority.

Settled claims have not exceeded any of the coverage amounts in any of the last three fiscal years and there were no reductions in the District's insurance coverage during the last three years. Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage. Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no IBNR claims payable as of June 30, 2021, 2020 and 2019, other than an estimated contingent liability for various litigation, as described in Note 9.

¹ Historical information is presented for measurement periods for which GASB 68 is applicable. Additional years' information will be displayed as it becomes available.

Notes to Schedule:

Change in Benefit Terms: The figures above do not include any liability impact that may have resulted from plan changes which occurred after June 30, 2017 as they have minimal cost impact. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a Golden Handshakes).

Changes of Assumptions: In 2020 and 2019, there were no changes. In 2018, demographic assumptions and infiation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate. In 2017, the accounting discount rate reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense). In 2014, amounts reported were based on the 7.5 percent discount rate.

² Employers are assumed to make contributions equal to the actuarially determined contributions. However, some employers may choose to make additional contributions towards their side fund or their unfunded liability. Employer contributions for such plans exceed the actuarially determined contributions. CalPERS has determined that employer obligations referred to as "side funds" are not considered separately financed specific liabilities.

Required Supplementary Information (Unaudited) Schedule of Contributions (Continued). For the Year Ended June 30, 2021

Statistical Section Contents

This section of the comprehensive annual financial report presents detailed information as a context for understanding what the information in the accompanying financial statements, notes disclosures, and required supplementary information says about the District's overall financial health.

Contents	<u>Pages</u>
Financial Trends	
These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	58 - 61
Revenue Capacity	
These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenues.	62 - 65
Debt Capacity	
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	66 - 67
Demographic and Economic Information	
These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.	69
Operating Information	
These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the government provides and the activities it performs	70 - 72

Source: West Valley Water District Board of Directors approved rate ordinances and resolutions.

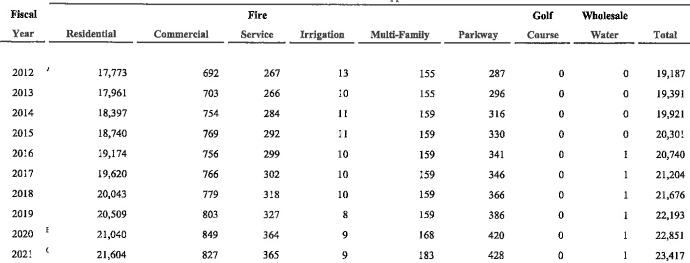

Note 1: Out of District rates for Water Service are one and a half times the In District rates.

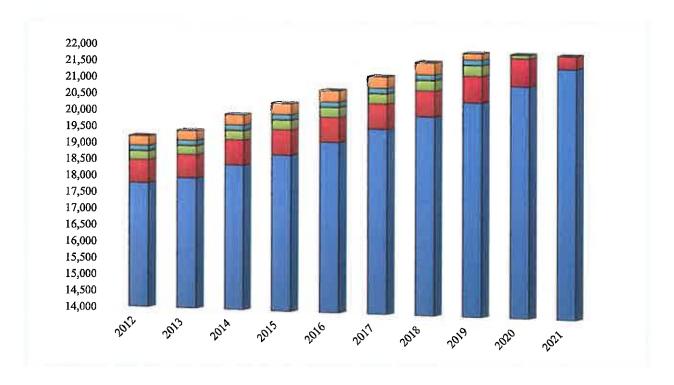

Note 2: The rates for Golf Course and Irrigation Services are by written agreement between the user and the District.

Customers by Type Last Ten Fiscal Years

Schedule 6

Customer Type

Note A: As a result of the 2612 rate study, certain accounts were reclassified to other types.

Note B: The schedule submitted for FY 2020 included a typo. The Multi-Family count was reflected as 468 instead of 168. The Total count was reflected as 23,151 instead of 22,851.

Note C: As a result of the service connection review, certain accounts were reclassified to other types. Most notably several Commercial accounts were reclassified to Residential.

On behalf of the Board of Directors and staff of West Valley Water District it is my pleasure to present to you our first Popular Annual Financial Report (PAFR) for fiscal year ending June 30, 2021. The PAFR is published to provide readers with easy-to-understand information on the Water Districts' organization, as well as its finances, water services, and other pertinent information. The Government Finance Officers Association (GFOA) encourages and assist state and local governments to utilize information from their annual comprehensive financial report and compile a high quality Popular Annual Financial Report (PAFR). This PAFR, represents West Valley Water District's ongoing commitment to transparency in its operations and governance.

The information within this report draws directly from the Water District's audited financial statements and provides an overview of the Water District's financial activities and position.

The PAFR is based on the 2021 Annual Comprehensive Financial Report which is prepared in conformity with generally accepted accounting principles and audited by The Pun Group, LLP. The Water District received an unmodified audit opinion that the financial statements present, fairly, in all material respects, the financial position of the Water District.

I hope the Popular Annual Financial Report assists you in understanding the Water District's financial picture and future commitments. Both the Annual Comprehensive Financial Report for the fiscal year ended June 30, 2021, and Budget Fiscal Year 2021- 2022, can be found online **www.wvwd.org/about/transparency/**. Should you have any questions or comments, please feel free to contact the Water District's Finance Department.

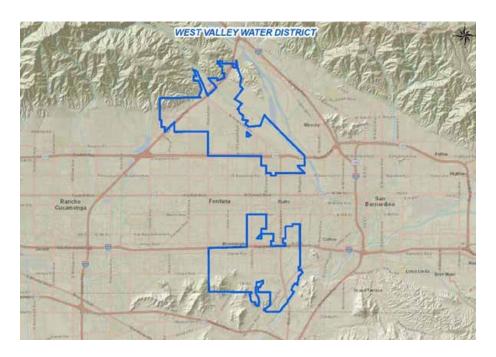

Chamindra "Qickey" Manpahal

Respectfully Submitted,

- General Manager

ABOUT THE DISTRICT:

West Valley Water District serves approximately 88,000 people, spanning two counties in Southern California in a 29.5 square-mile area, including portions of the communities of Bloomington, Colton, Fontana, Rialto, San Bernardino, and Jurupa Valley.

■ MISSION STATEMENT

West Valley Water District provides our customers with safe, high quality and reliable water service at a reasonable rate and in a sustainable manner.

VISION STATEMENT

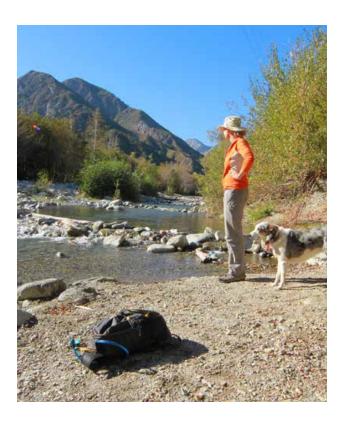

West Valley Water District will continue to be a national model in the water industry for innovation, fiscal responsibility, sound conservation practices, and a relentless commitment to our employees and the communities we serve.

DISTRICT WIDE PRIORITIES

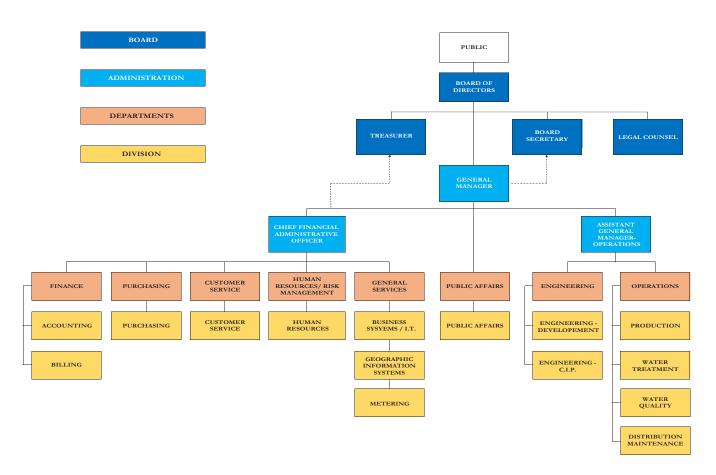

The District's Board of Directors is aware of the need to ensure the District's stability and continuation. District-wide goals are established by the Board of Directors in order to identify priority programs and projects that effectively meet the District's anticipated future needs.

- 1. Continue to deliver safe, reliable, high-quality water at an affordable price.
- 2. Nurture a culture that values our employees, customer service, innovation, integrity, excellence, transparency, and conservation.
- 3. Implement technologies that increase efficiency and enhance safety.
- 4. Plan and be prepared for anticipated significant housing growth in the District.
- 5. Further refine procedures to ensure the District safeguards ratepayer funds, operates efficiently, enhances transparency, and protects employees and District assets.

COMMUNITY OUTREACH

The Water District participates in various community events throughout the year including conservation classes. The Water District is committed to enhancing the community's quality of life by educating residents on the water treatment process.

PARTNERSHIPS FOR CAREER ADVANCEMENT

The Water District partnered with IEWorks to offer an internship program for ten (10) weeks. IEWorks collaborates with San Bernardino Valley College (SBVC) in identifying students that are currently enrolled in their water technology industry courses. Interns will rotate through various departments to gain a better understanding of each of the responsibilities necessary to operate and maintain them.

The Harbor Freight Fellowship Intern program is through RVUSD. They both partner to identify high school students interested in the water industry and the District allows the students to participate in the rotation program established for IEWorks; however, they complete the program in 120 hours and receive a stipend from Harbor Freight for \$1000 at the end of their completed internship.

GIVING BACK TO THE COMMUNITY

With the desire of making a difference in the community it serves, West Valley Water District employees participated in the Angel Tree Gifting charity drive. The Children's Fund of San Bernardino and the WVWD also partnered to supply personal protection equipment to local nonprofits and charitable organizations. In October 2020, the District hosted its annual children's Halloween event for annual conservation contest.

WATER CONSERVATION

In Fiscal Year 2020-2021, WVWD focused on enhancing water conservation efforts by partnering with community stakeholders. WVWD formalized an agreement that led to multiple water education and conservation classes which were held virtually for ratepayers. To ensure all safety measures were followed, WVWD staff coordinated specific times to pick up all course materials prior to the courses. Residents throughout the Water District participated in the programs.

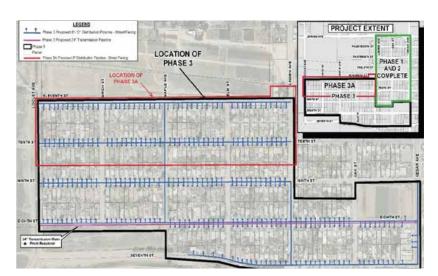

CAPITAL IMPROVEMENT PROJECTS:

As part of the annual budget process, the Engineering and Operation Managers compile and submit a list of capital improvement projects for consideration. The projects are prioritized on the needs of the District based off the Water Master Plan and staff's knowledge. The two projects below are the highlights of Fiscal Year 2021.

BLOOMINGTON ALLEY WAY MAIN REPLACEMENT PHASE 3A

Distribution mains, services, and valves serving a portion of the community of Bloomington are located within the rear alleyways of the homes. The District's ability to read meters, locate, shut off valves and perform regular and emergency maintenance is limited. This project relocated 144 service laterals and installed fire hydrants, meter boxes, and meters.

\$1,848,964

RELOCATION OF WELL 41 ION EXCHANGE VESSELS

This project was part of the Emergency Week Optimization project. The ion exchange vessels at Well 41 are used for perchlorate removal. The ion exchange vessels were transferred from Zone 2-3 ion exchange system to Well 41. The project also included the purchase of resin for Well 41. The two vessels had resin fill service done during the project.

FINANCIAL PERFORMANCE

SOURCES OF REVENUE

The District uses revenue to fund daily operations, repay loans, bonds and interest. Remaining revenue is invested back into capital improvement projects to help maintain and improve the District's system longevity and stability.

West Valley Water District receives 92 percent of its revenue from user rates and fees. Rates and fees are reviewed and are adjusted as necessary to cover the costs of providing services to ratepayers.

Based on Annual Comprehensive Financial Report

■ THREE YEAR COMPARATIVE REVENUES

	FY 2019	FY 2020	FY 2021
OPERATING REVENUES:			
Water consumption sales	\$17,163,673	\$17,698,440	\$20,428,413
Water service charges	\$7,350,127	\$7,506,847	\$7,978,760
Other operating revenue	\$7,596,238	\$3,615,547	\$ 3,554,983
Total operating revenues	\$32,110,038	\$28,820,834	\$31,962,156
NON-OPERATING REVENUES:			
Property taxes	\$2,305,151	\$2,376,463	\$ 2,761,167
Interest and investment earnings	\$1,795,521	\$1,910,670	\$38,316
Total non-operating revenues	\$4,100,672	\$4,287,133	\$2,799,483
Total revenues	\$36,210,710	\$33,107,967	\$34,761,639

OPERATING EXPENSES

Operating expenses are necessary to provide reliable water to protect public health and the environment with financial integrity and superior customer service. Despite the severity of the recent drought, the District has put forth significant effort to overcome the challenges of maintaining fiscal transparency and operational sustainability.

The expense types and allocation for every dollar the District spends on operations and maintenance are:

OF EXPENSES

CUSTOMER ACCOUNTS

Expenses related to customer relationships. These include postage, telephone, printing and publishing, and billing services.

DEPRECIATION

Expenses related to the use of capital assets over time. It's a non-cash expenditure. Amortization for water participation rights is included.

GENERAL & ADMINISTRATIVE

Expenses related to the administration of the District operations. For example, employee compensation, benefits, conservation rebates, office supplies, materials and supplies, insurance claims, legal services, and printing.

PUBLIC AFFAIRS

Expenses related to water education, community outreach, and legislative affairs.

SOURCE OF SUPPLY

groundwater, and for procuring water fron State Water Project.

WATER TREATMENT

Expenses related to the treatment of water.

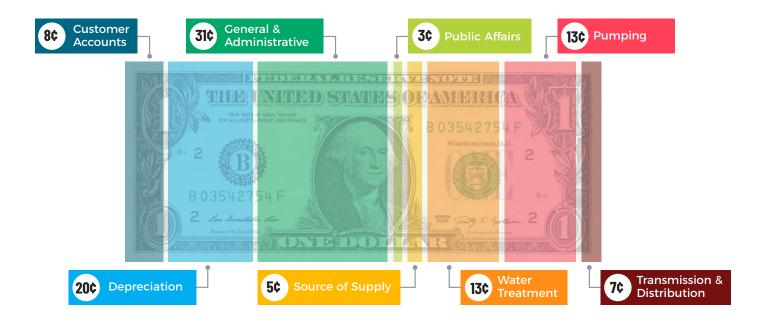

PUMPING

Expenses related to moving water throughout the District's water distribution system.

TRANSMISSION & DISTRIBUTION

Expenses for transmitting water to treatment plants and storage reservoirs for distribution to commercial and residential customers.

The cent amount identifies how every dollar spent is allocated to covering expenses.

■ THREE YEAR COMPARATIVE EXPENSES

	FY 2019	FY 2020	FY 2021
OPERATING EXPENSES:			
Source of supply	\$1,740,717	\$1,676,085	\$1,588,731
Pumping	\$3,189,444	\$3,416,731	\$4,077,298
Water treatment	\$4,101,693	\$3,966,298	\$4,067,045
Tranmission and distribution	\$1,966,357	\$3,448,753	\$2,204,080
Customer accounts	\$2,456,429	\$2,425,709	\$2,600,902
Public affairs	\$1,520,168	\$1,740,136	\$890,242
General and administrative	\$8,313,067	\$10,260,591	\$9,824,619
Depreciation expense	\$6,022,835	\$6,150,232	\$6,199,141
Amortization of water participation rights	\$321,529	\$321,529	\$321,529
Total operating expenses	\$29,632,239	\$33,406,064	\$31,773,587

LONG TERM DEBT:

The District adopted a Debt Management Policy to clearly state that long-term debt can only be used for capital improvement projects that cannot be funded from current revenues. A public agency has a bond rating used by investors to determine risk (similar to personal credit scores). The District maintains an AA- rating from Standard & Poor's for the refunding revenue bonds. The rating was issued on December 14, 2016 and is considered a high quality. Current bond covenants require that the debt coverage ratio equal to 1.2 or 120% of annual debt service. The debt coverage ratio for FY 2020-21 was 4.75.

DEBT SERVICE COVERAGE

	FY 2021	FY 2020	% Change
Net Revenues	\$34,761,639	\$33,107,967	4.99%
Total operating revenues	\$25,252,917	\$26,934,303	-6.24%
Net Earnings	\$9,508,722	\$6,173,664	54.02%
Bond Debt Service	\$2,000,907	\$2,010,053	-0.46%
Debt Coverage Ratio	4.75	3.07	54.72%

LONG TERM DEBT

BEGINNING: \$ 31,105,585 | ENDING: \$ 29,997,339

BOND SERIES 2016A

This bond was issued to provide funds: (i) to prepay all amounts payable under the Series 2006D-2 Bonds; and (ii) pay costs of issuance of the 2016A Bonds.

BALANCE:

\$21.2 MILLION - 70.9% -

HYDROELECTRIC PLANT

Agreement with San
Bernardino Valley Municipal
Water District to finance
and construct Roemer
Hydroelectric Station.

BALANCE:

\$2.3 MILLION - 7.7% -

WATER PARTICIPATION RIGHTS CONTRACT

The District acquired water participation rights from San Bernardino Valley Water District. These rights entitle the District to purchase water from the Baseline Feeder system.

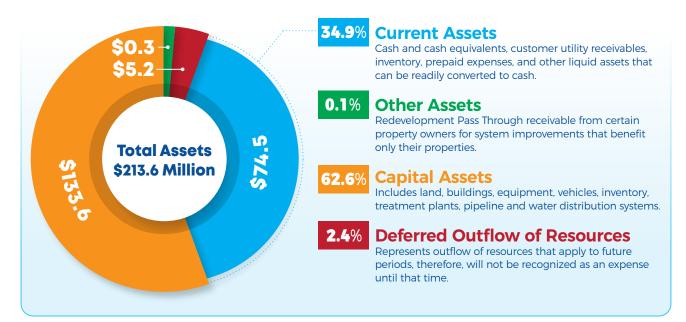

BALANCE:

\$6.4 MILLION - 21.4% -

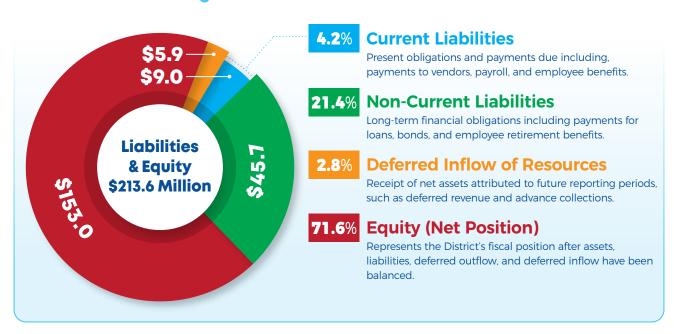

NET POSITION

As an infrastructure-based organization, the District is heavily invested in capital investments to maintain and improve its water systems. Net position offers perspective of the District's assets, liabilities, and equity. The information presented below applies to fiscal years ended June 30, 2021.

ASSETS & DEFERRED OUTFLOW

■ LIABILITIES & EQUITY

■ THREE YEAR COMPARATIVE NET POSITION

Net position may gradually serve over time as a useful indicator of an agency's financial position. Net position of the District was \$152,966,122 and \$145,181,637 for the years ended June 30, 2021 and June 30, 2020, respectively. This means that the District's overall financial position is better off by \$7,784,485 over the prior year. In the case of the District, net position has been increasing when comparing Fiscal Year 2019 to 2021.

■ CONDENSED STATEMENT OF NET POSITION

	FY 2019	FY 2020	FY 2021
ASSETS:			
Current	\$67,084,478	\$66,846,297	\$74,489,238
Noncurrent	369,734	328,652	287,571
Capital Assets	132,766,649	133,386,934	133,595,875
Total assets	\$ 200,220,861	\$200,561,883	\$208,372,684
Deferred outflows of resources	5,412,906	5,419,225	5,256,110
LIABILITES:			
Current liabilities	9,721,627	7,837,906	9,022,530
Noncurrent liabilities	48,228,234	47,640,328	45,713,602

BOARD OF DIRECTORS FINANCE COMMITTEE STAFF REPORT

DATE: January 12, 2022

TO: Finance Committee

FROM: Shamindra Manbahal, General Manager

SUBJECT: DECEMBER 2021 - PURCHASE ORDER REPORT

BACKGROUND:

The West Valley Water District ("District") generated thirty-two (32) Purchase Orders ("PO") in the month of December 2021 to various vendors that provide supplies and services to the District. The total amount issued to PO's for the month of December 2021 was \$327,529.47. A table listing all PO's for December 2021 is shown in **Exhibit A**.

FISCAL IMPACT:

There is no fiscal impact for producing the December 2021 Purchase Order Report.

STAFF RECOMMENDATION:

Receive and file the December 2021 Purchase Order Report.

Respectfully Submitted,

Shamindra Manbahal

BOARD OF DIRECTORS FINANCE COMMITTEE STAFF REPORT

DATE: January 12, 2022

TO: Finance Committee

FROM: Shamindra Manbahal, General Manager

SUBJECT: TREASURER'S REPORT - DECEMBER 2021

DISCUSSION:

West Valley Water District ("District") engaged the Clifton Larson Allen LLP to prepare West Valley Water District's (WVWD) Investment report on a monthly basis. The District's investment policy is in uniformity with the State of California's Local Agency Investment Guidelines (Government Code Section 53601(b)). Report for the Month of December 2021 is presented to the Finance Committee for discussion.

FISCAL IMPACT:

Monthly Cost of \$2,625 was included in the FY 2021-22 annual budget.

STAFF RECOMMENDATION:

Staff recommends that this item be submitted for consideration, and that the Board of Directors approve this item and authorize the General Manager to execute the necessary documents.

Respectfully Submitted,

Shamindra Manbahal

BOARD OF DIRECTORS FINANCE COMMITTEE STAFF REPORT

DATE: January 12, 2022

TO: Finance Committee

FROM: Shamindra Manbahal, General Manager

SUBJECT: MONTHLY REVENUE & EXPENDITURES REPORT - DECEMBER 2021

BACKGROUND:

The Board of Directors requested the Monthly Financial Status Report to be presented to the Finance Committee for review and discussion before presenting these reports to the Board of Directors. The reports are being produced from the District's Financial System (System of Records) and will be presented on a monthly basis.

DISCUSSION:

The Monthly Financial Status Reports summarizes the District's revenue categories as well as expenditures for all Departments. The original total budget includes the adopted budget. Current total budget includes the adopted budget plus any budget amendments or adjustments made during the year. Period activity column represents activity for the reporting periods. Fiscal activity column represents the year-to-date activity or transactions that have been recorded in the general ledger from the beginning of the fiscal year July 1 through December 31. The encumbrance column represents funds encumbered with a purchase order that's not spent but committed. The percent column represents the percentage of the current budget that has been received (Revenue) or utilized (Expenditure).

FISCAL IMPACT:

There is no fiscal impact for producing the December 2021 Monthly Revenue & Expenditure Report.

STAFF RECOMMENDATION:

Staff recommends that this item be submitted for consideration, and that the Board of Directors approve this item and authorize the General Manager to execute the necessary documents.

Respectfully Submitted,

Ska	اردوزون	lan	Ma	A.n.	Lak	,

Shamindra Manbahal, General Manager

BOARD OF DIRECTORS FINANCE COMMITTEE STAFF REPORT

DATE: January 12, 2022

TO: Finance Committee

FROM: Shamindra Manbahal, General Manager SUBJECT: FUNDS TRANSFER - DECEMBER 2021

BACKGROUND:

In February 2020, Resolution No. 2020-8 was adopted authorizing the General Manager, Board President/Directors, and Chief Accountant, as authorized signers to access LAIF. Due to the limited access the CFO is unable to transfer funds from the District's general J.P. Morgan Chase account to investment accounts. This limitation restricts the District to maximize interest earnings because the CFO cannot imitate these transfers without Board approval. To maximize interest earnings, the CFO should be authorized to transfer funds between accounts as needed.

At the August 20, 2020 Board of Directors meeting, WVWD Board of Directors approved and authorized the Chief Financial Officer to transfer funds in/out of the District's Chase account to/from the District's investment accounts to take advantage of potential interest earnings. At this meeting the WVWD Board also requested that the CFO provides a detailed report to the Board of all transfers on a monthly basis and include this report in the monthly financial reports presented to the Board.

FISCAL IMPACT:

Potential interest earnings on funds invested/transferred.

STAFF RECOMMENDATION:

Staff recommends that this item be submitted for consideration, and that the Board of Directors approve this item and authorize the General Manager to execute the necessary documents.

Respectfully Submitted,

Shamindra Manbahal

Shamindra Manbahal, General Manager

^{**}Ending balances may include other credits/deposits besides transfer amounts.

BOARD OF DIRECTORS FINANCE COMMITTEE STAFF REPORT

DATE: January 12, 2022

TO: Finance Committee

FROM: Shamindra Manbahal, General Manager

SUBJECT: CASH DISBURSEMENTS REPORT - DECEMBER 2021

BACKGROUND:

The Board of Directors requested the Monthly Cash Disbursements Report to be presented to the Finance Committee for review and discussion before presenting these reports to the Board of Directors. The reports are being produced from the District's Financial System (System of Records) and will be presented to the Finance Committee on a monthly basis.

DISCUSSION:

Each month, the Accounting Department provides a complete listing of all disbursements for the previous month in an effort to promote fiscal responsibility and accountability over the expenditure of public funds. This process includes providing the Finance Committee, Board of Directors and ratepayers the opportunity to review expenses for supplies, materials, services, and payroll Disbursements. Payroll is processed bi-weekly and accounts payable is processed weekly. Information to justify each payment is available through the Accounting Department. For reference, Customer Refunds are credits due as a result of closing a water account.

FISCAL IMPACT:

There is no fiscal impact for producing the December 2021 Cash Disbursement Reports.

STAFF RECOMMENDATION:

Staff recommends that this item be submitted for consideration, and that the Board of Directors approve this item and authorize the General Manager to execute the necessary documents.

Respectfully Submitted,

Shamindra Manbahal

BOARD OF DIRECTORS FINANCE COMMITTEE STAFF REPORT

DATE: January 12, 2022

TO: Finance Committee

FROM: Shamindra Manbahal, General Manager

SUBJECT: SECOND AMENDMENT TO WATER FACILITIES AGREEMENT

BACKGROUND:

In May 2005 West Valley Water District ("District") entered into a Water Facilities and Service Agreement ("Agreement") with Lytle Development. The Agreement outlined certain facilities that Lytle Development was required to construct in exchange Equivalent Dwelling Unit (EDU) connection credits. The Agreement also allowed Lytle Development to assign rights and obligations to a future home builder/developer and they did just that in August 2005 ("First Amendment"). Lytle Development assigned certain facilities that they were required to construct to Lennar Homes along with a portion of the EDU connection credits.

DISCUSSION:

Lennar Homes has now completed its development and has constructed some of the facilities. Instead of Lennar Homes constructing the remaining facilities, the District and Lennar Homes would like to enter into an agreement ("Second Amendment") where Lennar Homes would provide a one-time payment to the District to compensate the District for the capital costs of the facilities yet to be constructed. Attached as Exhibit A is a copy of the Second Amendment to Water Facilities and Service Agreement.

FISCAL IMPACT:

The one-time payment to the District to compensate for the capital costs of the facilities is pursuant to the terms of the Second Amendment to Water Facilities and Service Agreement.

STAFF RECOMMENDATION:

Staff recommends that this item be submitted for consideration, and that the Board of Directors approve this item and authorize the General Manager to execute the necessary documents.

Respectfully Submitted,

960	mindra	Ma	al al	lal

EXHIBIT A

SECOND AMENDMENT TO WATER FACILITIES AND SERVICE AGREEMENT

(Lytle Creek/Sycamore Flats)

This Second Amendment to Water Facilities and Service Agreement ("Second Amendment") is entered into as of ______, 20221 ("Effective Date"), by and between LENNAR LYTLE, LLC, a Delaware limited liability company ("Lennar"), and WEST VALLEY WATER DISTRICT, a public agency of the State of California ("District"). Lennar and the District shall be referred to individually as a "Party" and collectively as the "Parties."

RECITALS

- A. On or about May 27, 2005, Lytle Development Company ("Lytle"), Pharris Sycamore Flats, LLC ("Pharris"), and the District entered into that certain Water Facilities and Service Agreement ("Facilities Agreement") to provide water service to the "Lytle Property" (as defined in the Facilities Agreement). Under the Facilities Agreement, Lytle and Pharris each agreed to construct certain of the "Water Facilities" (as defined in the Facilities Agreement) to provide service to the Lytle Property. In exchange for constructing the Water Facilities, the District agreed to provide fire flow and domestic water service to up to 4,300 equivalent dwelling units on the Lytle Property, defined in the Facilities Agreement as the "Lytle Phase I Hook-Up Rights" and the "Lytle Phase II Hook-Up Rights." A copy of the Facilities Agreement is attached hereto as Exhibit "1."
- B. On or about January 4, 2005, Lennar purchased from Lytle a portion of the Lytle Property, described in **Exhibit "2"** ("**Lennar Property**"). The Lytle Property is located in an area known as Improvement Area No. 6, which has now been developed by Lytle and Lennar with approximately 547 detached residential dwellings and related amenities.
- C. On or about August 1, 2005, Lytle assigned to Lennar, and Lennar accepted, a portion of Lytle's rights and obligations under the Facilities Agreement pursuant to that "Partial Assignment and Assumption of Water Facilities and Services Agreement" ("Assignment"), attached hereto as Exhibit "3." The portion of Lytle's rights and obligations that Lennar assumed under the Assignment were described and referred to in the Assignment as the "Assumed Water Facilities Obligations." The Assumed Water Facilities Obligations included design and construction of the "Assumed Water Facilities" (as defined in the Assignment) under the terms provided in the Facilities Agreement. Lytle also assigned to Lennar pursuant to the Assignment all of Lytle's rights and interest in and to the Lytle Phase I Hook-up Rights, subject to the applicable terms and conditions of the Facilities Agreement and Assignment.
- D. On or about April 6, 2006, Lennar and the District entered into that First Amendment to Water Facilities and Service Agreement ("**First Amendment**") in order to amend certain of Lennar's and the District's obligations under the Facilities Agreement. References to the Facilities Agreement in this Second Amendment shall include and incorporate any changes made thereto by the First Amendment. The First Amendment is attached hereto as **Exhibit "4."**
- E. On March 13, 2007, the County of San Bernardino formed Community Facilities District No. 2006-1 (Lytle Creek North) ("CFD No. 2006-1") to fund water facilities and other

public infrastructure improvements within Improvement Area No. 6. Some of the Assumed Water Facilities are eligible for reimbursement by CFD No. 2006-1.

F. Lennar has now completed its development of the Lennar Property and has constructed some but not all of the Assumed Water Facilities. Accordingly, Lennar and the District desirehave agreed that the District will assume responsibility for the construction of the remaining Assumed Water Facilities in exchange for Lennar providing a one-time payment to compensate the District for the capital costs to do so. Lennar and the District further desire to enter into this Second Amendment to memorialize Lennar's satisfaction of the Assumed Water Facilities Obligations in exchange for the one-time payment to the District.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants, promises, terms, and conditions set forth herein, the Parties hereby agree as follows:

- 1. <u>Recitals</u>. Each of the above recitals is incorporated herein and is true and correct.
- 2. <u>Terminology</u>. Capitalized terms that are not defined in this Second Amendment shall have the meaning ascribed to them in the Facilities Agreement and the Assignment.
- 3. <u>In-Lieu Fee</u>. Within thirty (30) days of the Effective Date, Lennar shall make a one-time payment to the District in the amount of \$\(\begin{align*} \text{("In-Lieu Fee")}. \end{align*}\)
- 4. <u>Full Satisfaction and Release</u>. Upon payment of the In-Lieu Fee, Lennar shall be automatically deemed to have satisfied all of the Assumed Water Facilities Obligations and shall be released from any and all obligations and conditions under the Facilities Agreement.
- 5. Reimbursement for In-Lieu Fee. On and after the date hereof, should the District receive any funds from either CFD No. 2006-1, the State of California, the Federal Government, or any other person for reimbursement of, or contribution towards, the construction costs of any of the Assumed Water Facilities ("Third-party Funds") to which the In-Lieu Fee was intended to otherwise satisfy, the District shall pay those Third-party Funds to Lennar. The District shall use reasonable efforts to apply for grants or other sources of Third-party Funds to cover in whole or in part the construction costs of any of the Assumed Water Facilities.
- 6. <u>Notices</u>. Any notice to be provided pursuant to this Agreement shall be delivered to the following addresses:

<u>If to Developer</u>: Lennar Homes of California, Inc.

980 Montecito Dr., Ste. 300

Corona, CA 92879 Phone: 951.817.3517

Email: Geoffrey.Smith@Lennar.com

If to District: West Valley Water District

855 W. Base Line P.O. Box 920 Rialto, CA 92377 Phone: 909-875-1804

Attention: General Manager Email: smanbahal@wvwd.org

- 7. <u>Assignment</u>. Lennar may assign its interest in this Second Amendment at any time provided, however, that Lennar shall provide written evidence of any assignment to the District.
- 8. <u>Severability</u>. If any part of this Second Amendment is held to be illegal or unenforceable by a court of competent jurisdiction, the remainder of this Second Amendment shall be given effect to the fullest extent permitted by law.
- 9. <u>Entire Agreement</u>. This Second Amendment contains the entire agreement between the Parties with respect to the matters provided for herein.
- 10. <u>Amendments</u>. This Second Amendment may be amended or modified only by written instrument signed by all Parties.
- 11. <u>Counterparts</u>. This Second Amendment may be executed in counterparts, each of which shall be deemed an original.
- 12. Governing Law; Attorneys' Fees. This Second Amendment and any dispute arising hereunder shall be governed by and interpreted in accordance with the laws of the State of California. In any action or proceeding between the Parties arising out of any of the terms and provisions of this Second Amendment, the prevailing party in such action or proceeding shall be awarded, in addition to damages, injunctive or other relief (to the extent permitted under this Second Amendment), its costs and expenses, including, without limitation, attorneys' fees.
- 13. <u>No Third Party Beneficiaries</u>. No person or entity shall be deemed to be a third party beneficiary hereof, and nothing in this Second Amendment (either express or implied) is intended to confer upon any person or entity, other than the District and Lennar, any rights, remedies, obligations or liabilities under or by reason of this Second Amendment.
- 14. <u>Termination</u>. This Second Amendment shall remain in effect until the Parties have fulfilled their respective obligations set forth herein, unless earlier terminated upon mutual written consent of the Parties.
- 15. <u>Authority to Enter into Second Amendment</u>. The Parties warrant that each has the legal capacity to enter into this Second Amendment. Each Party warrants that the individuals who have signed this Second Amendment has the legal power, right, and authority to make this agreement and bind the respective Parties they represent.

IN WITNESS WHEREOF, the Parties have executed this Second Amendment as of the Effective Date.

Title:

LENNAR HOMES OF CALIFORNIA, INC.

BOARD OF DIRECTORS FINANCE COMMITTEE STAFF REPORT

DATE: January 12, 2022

TO: Finance Committee

FROM: Shamindra Manbahal, General Manager

SUBJECT: PROVIDE AND INSTALL ION EXCHANGE RESIN FOR VESSELS 1B

AND 2B AT WELL 42

BACKGROUND:

Well 42 is a groundwater source for District Zone 3 and pumps water from the Riverside Basin, a groundwater basin which has been impacted by perchlorate. Well 42 has an onsite Ion Exchange (IX) Treatment System for well-head treatment of perchlorate, and the IX media which treats the perchlorate eventually becomes saturated (i.e. used up) and must be removed and replaced. The IX Treatment System has a total of 4 IX vessels, 2 for the lead train and 2 for the lag train, the 2 lead vessels (1B & 2B) are saturated and in need of replacement.

DISCUSSION:

Having all District owned water sources, including Well 42, in full operational readiness is the only prudent strategy as the District faces increasing demand due to increased residential and commercial development, and limitations on imported water supplies, especially considering the limited available supply of State Project Water in what appears to be another upcoming drought year.

The State Department of Water Resources permit for Well 42 was amended at the initiation of this project because it called out an IX resin made by Calgon that is no longer available. It now shows the IX resin the District is currently using at wells 41, 18A, 16 and 17. The current product the District was originally chosen because of price, however Dowex PSR2 Plus has proven to be longer lasting and creates less differential pressure and has now become our standard.

Dowex PSR2 Plus is a proprietary product of Evoqua, the proposal from Evoqua is included as **Exhibit A**.

Below is a summary of the project and associated costs.

\$/cu ft	Qty Resin	Total

Resin	\$ 250.00	636	\$ 159,000.00
Labor	\$ 26.61	636	\$ 16,923.96
Disposal	\$ 17.11	636	\$ 10,881.96
Subtotal (w/o tax)	\$ 293.72	636	\$ 186,805.92
Tax on resin only (7.75%)	\$ 19.38	636	\$ 12,322.50
Total	\$ 313.10	636	\$ 199,128.42

FISCAL IMPACT:

This item is not included in the Fiscal Year 2021/22 Capital Improvement (CIP) budget and will be funded from Project Number W22005 titled "FXB Repurposing".

STAFF RECOMMENDATION:

Staff recommends that this item be submitted for consideration, and that the Board of Directors approve this item and authorize the General Manager to execute the necessary documents.

Re: Proposal for Perchlorate Resin and Services at Well 42

PWTF – 295 East San Bernardino, Rialto, CA 92376

Dear Joe.

Thank you for this opportunity to submit this proposal for West Valley Water District. Evoqua Water Technologies, LLC, (EWT) is excited for the opportunity to provide resin services for your existing equipment at your wells and work with West Valley Water District to provide both short term and long-term solutions to the needs of your sites.

Evoqua appreciates the trust West Valley has put in Evoqua in years past as your resin supplier. We never stop trying to improve. Our focus is to provide excellent service to West Valley while ensuring safe and compliant drinking water.

We have adjusted the proposal to reflect the same amount of resin that our invoicing system uses with 35.31 cu ft per supersack. We want to make sure the proposal matches the invoices exactly (318 cu ft per vessel versus the 320 cu ft provided in the 2017 RFP).

We feel that our offering will provide you with the best option due to the following reasons:

Experience – With numerous sites already installed in California and throughout the US, we have the experience working in conjunction with your team to provide quality on-going service to meet and exceed your requirements. You can rest assured that if selected Evoqua will provide complete and timely service.

<u>Local Service</u> – In the Los Angeles area we have four service branches with over 100 people including field service technicians, applications engineers, installation technicians, and management team, the largest and best field service team in Southern California, all of whom are Evoqua certified and trained employees. Of specific note:

- The two primary branches that would be supporting this site are less than 50 miles away.
- The engineering team, installation group and service team that would support this site are all located in the Los Angeles basin.
- One of the facilities has complete resin handling and disinfection capabilities. We encourage you to tour this facility.
- All service equipment that we will employ at your site is dedicated to the drinking water market and sited locally.
- EWT is a licensed CA state Contractor (contractor's license #989497).

<u>Innovations</u> – Evoqua is uniquely positioned to offer service and non-service innovations to the perchlorate market. 10% of our annual revenue is spent on research and development.

Proposal #11182021.R0 Evoqua Water Technologies LLC

- We continue to work with major resin suppliers to offer better once-through media solutions at reduced costs.
- We offer several non-media based solutions for the treatment of perchlorate and are investigating new non-media based solutions.

Thank you for allowing Evoqua this opportunity to be of service, we look forward to your consideration and the opportunity to review our presentation with your team. Please contact me at 714-262-1560 should you have any questions or if we may be of further assistance.

Regards,

Patricia Tinnerino Sales Engineer 714-262-1560 **Evoqua Water Technologies, LLC.**

II. <u>Statement of Qualifications, Experience, and References</u>

EXPERIENCE WITH PERCHLORATE REMOVAL

Evoqua started to develop solutions to the perchlorate problem in California in the late 90's. We established a dedicated team to look at various methods to treat this water contaminant. The Evoqua team incorporated people from our operations, research, construction, field applications engineering and marketing groups across multiple product lines. Two existing technologies emerged from this team's work:

- Fluidized Bed Reactors
- Once Through Media Ion Exchange Resin

These technologies have been approved by the California State Water Resource Control Board Department of Drinking Water.

Evoqua found that both approved technologies would produce water quality of a level that was below the new California Maximum Contaminant Level (MCL) of 6 ppb and usually non-detectable. Our studies also showed that the application of the ion exchange technology is dependent upon the level of perchlorate and the background anions present in the water. This is generally applied where the perchlorate influent concentration is <500 ppb. In keeping with maintaining "Good Environmental Stewardship", the once through ion exchange resin adsorbs the perchlorate and then allows for destruction of the perchlorate through destruction of the petroleum-based ion exchange resins, thus eliminating the "Cradle to Grave" responsibility for this material. There is no brine generated nor is there the need for brine connection fees. And with the pending brine disposal restriction (and/or elimination) rules, the liability for the brine waste material is eliminated.

From the operating histories of the listed perchlorate opportunities (above), Evoqua developed and corroborated an equilibrium model for prediction of perchlorate throughput capacity that is unsurpassed in the industry. Evoqua has provided a throughput guarantee based upon your water analysis and this model. Prior to development of your proposal, Evoqua used this model to select an ion exchange resin that is your best economic alternative for treatment of the perchlorate contamination at your well site.

NO USE OF SUBCONTRACTORS

Evoqua will utilize many entities within our organization to provide the required system services and does not require the use of subcontractors to provide the required services of the RFP. Evoqua believes that the in-house control of every aspect of any project allows for on time procurement, smooth delivery and effective system start-up.

OTHER ENTITIES ASSIGNED SIGNIFICANT RESPONSIBILITIES

Evoqua will not be using any other entities that will have assigned material responsibilities under the contract other than defined resin manufacturers to be discussed within this proposal.

RESIN AVAILABILITY

We have PSR-2 Plus in stock. We like to have two weeks' notice to schedule accordingly, but can work with your time frame.

CLIENT BASE - SELECTED OPERATING SYSTEMS IN CALIFORNIA

In California, Evoqua Water Technologies has been selected as the supplier of perchlorate reduction services to remove perchlorate from well sites for the following projects. A partial list of water purveyors employing Evoqua's resin services includes:

City of Rialto, Chino 2 Well 2003 to present

Used Dowex ® 1 from 2003 until 2014 and then switched to Dowex® PSR-2. Perchlorate removal using on-site vessels at multiple sites. Product water used for municipal supply. DDW operating permit issued. Contact: Peter Fox

San Gabriel Valley Water Co. Well B-5

2009 to present 7800 gpm – Once through IX

Perchlorate removal using on-site vessels at multiple sites. Product water used for municipal supply. DDW operating permit issued. Contact: Oscar Ramos, 626-448-6183

San Gabriel Valley Water Co. Well B-6

2009 to present 7800 gpm – Once through IX

Perchlorate removal using on-site vessels at multiple sites. Product water used for municipal supply. Started up Mar 2013. Contact: Oscar Ramos, 626-448-6183

Rialto, Airport Well 3

GeoLogic and Associates, San Bernardino, CA

2007 –present: 1900 gpm – Once Through IX

Perchlorate removal at well site with one train of HP1220 vessels. DDW operating permit issued. Contact: Ralph Murphy (000) 383 8738

Murphy, (909) 383-8728.

N. California Aerospace Co Jan 02 - present: >6,000 gpm - Once Through IX

Removal of high levels of perchlorate in ground water for site remediation at multiple well sites, using portable vessels. Product water used for groundwater replenishment. Environmental operating permit by State issued. Contact:

Chris Fennessy, 916-355-3341

La Puente Valley Well 2 2009 to present 2500 gpm – Once through IX

Perchlorate removal using on-site vessels at multiple sites. Product water used for municipal supply. DDW operating permit issued. Contact: Greg Galindo, (626) 330-2126

City of San Bernardino, Municipal Water Dept., San Bernardino, CA

Sept. 2013 start up; 2000 gpm - Once Through IX

Perchlorate removal for 1 wells with 1 trains of HP1220HF

vessels. DDW Operating Permit. Contact: Mike Garland, (909) 379-2618

III. Statement of Work/Execution

EXECUTION SUMMARY

Evoqua Water Technologies, LLC is providing a service proposal for ion exchange resin used for perchlorate removal in the potable water system for the West Valley Water District. The existing equipment consists of two (2) trains (4 vessels) with each vessel containing approximately 318 cubic feet of resin. This proposal includes the following:

- Remove and incineration spent resin at Covanta. Pricing is subject to resin being approved for acceptance at this site. Additional fees may apply if a different site is required. We have a valid profile and can take the spent resin with us the day of service.
- Supply PSR2 Plus perchlorate-selective resin for exchange of two (2) vessels. 318 cu ft per vessel / 636 cu ft total.
- Resin will be prewashed at our facility with a minimum volume of 10 BVs
- Deliver and load PSR2 Plus perchlorate-selective resin in two (2) vessels.
- Perform BAC T and total Coliform analysis

ION EXCHANGE (IX) PROCESS DESCRIPTION

DESIGN CRITERIA

The proposed anion exchange resin (polystyrene divinylbenzene copolymer) to be used is PSR2 Plus strong base anion exchange resin, manufactured by The Dupont Chemical Company. This resin is specifically designed for selective removal of perchlorate from potable water. PSR2 Plus is a non-nitrate sloughing resin (the selectivity for nitrate is higher than for sulfate). Therefore there will be no nitrate spiking from newly bedded ion exchange vessels.

Source water will be fed to each vessel through the top, pass through the resin bed, and leave the vessel at the bottom (co-current flow). Perchlorate ions in the source water are replaced with chloride ions as the water passes through the bed.

Sterile virgin resin will be pre-rinsed in our Los Angeles resin handling facility for a minimum of 20 BVs, utilizing proprietary techniques, to minimize on-site rinse water requirements. The resin will then be loaded in sterilized sluice vehicles dedicated for potable use, delivered to the site and then sluiced into each vessel. This process will greatly reduce the amount of rinse waters required onsite. Super sacks or other resin vendor marked containers will not be brought on site.

This resin is not regenerated or reused. Evoqua will provide appropriate and legally compliant disposal of the spent resin at the Covanta incineration facility in Crow's Landing.

FEEDWATER DESCRIPTION

The following table outlines the water chemistry we have from historical data.

Description	Well Data
Operational Flow Rate	1800 gpm
Operational Schedule	24/7
Daily Volume (ave)	2,592,000 gpd
Perchlorate	2.2
Sulfate	23
Chloride	8
Nitrate	25
Alkalinity (as CaCO ₃)	149

The two (2) trains are to be operated in a lead/lag arrangement.

Bacteria levels in the supply water are expected to be non-detect (<5 cfu/ml). The presence of bacteria in the supply water to the treatment system may result in increased pressure drop across the system, detectable bacteria in the system effluent and increased downtime due to sanitization requirements. It has been assumed that the bacteria levels from the wells and or the influent to the treatment system will have non-detect (<5 cfu/ml) levels of bacteria. If bacteria are found to be present in the wells you can purchase additional services from Evoqua that will kill the bacteria and also be compatible with the treatment system resin.

The product water will be delivered to the distribution system, through existing infrastructure, with perchlorate levels below 1 ppb.

PROCESS WASTE STREAMS

Resin will be preconditioned, rinsed, inspected, and readied for operation at our Los Angeles service facility, minimizing onsite rinse water requirements (provided by client).

A minimum 4" dechlorinated potable water or fire water source will be required at a line pressure of 60 psig or greater to supply a minimum of 350 gpm to provide water for sluicing.

Onsite rinse waters for resin transfer, rinsing, flushing and/or required disinfection of resin after an extended shutdown period or at any other time, will be disposed of via existing storm drains or other means, on site.

EQUIPMENT/MEDIA IN-SITU STERILIZATION AND LAY-UP

If resin sterilization is required due to bacterial growth, Evoqua can provide various proprietary processes to clean the resin. These include CDPH approved processes using either hydrogen peroxide or peracetic acid techniques. Details will be provided upon successful award of the service contract.

For shutdown or intermittent operation, the ion exchange system should remain completely full of water and the inlet and outlet should be sealed either by a valve or a cap. During temporary downtime, and prior to restarting the unit, the system should be rinsed on a daily basis using two to three bed volumes of water. Failure to rinse may result in a temporary presence of contaminated water at the outlet of the exchanger.

If the ion exchange system is shut down for an extended period of time, the following procedure should be followed to reduce potential degradation of bed life. Drain the system of all water. There should be no free standing water left in the vessel. All valves, manways and vents shall be tightly sealed for the duration of the shutdown to eliminate any supply of oxygen that would promote biological growth. Prior to re-commissioning the units, follow the start-up instructions included.

DISPOSAL OF RESIN

Per WVWD direction, EWT has quoted disposal of the exhausted resin at the Covanta incineration facility in Crow's Landing. Please note that pricing is based upon resin being declared non-hazardous. Pricing is subject to resin being approved for acceptance at these sites. Additional fees may apply if a different site is required. A valid profile is in place.

AIR SUPPLY

Compressed air will be supplied by Evoqua for media exchange.

ELECTRICAL UTILITY REQUIREMENTS

No additional electrical utilities are required for this service offering.

IV. Fee Proposal

	\$/cu ft	Qty Resin	Total
Resin	\$ 250.00	636	\$ 159,000.00
Labor	\$ 26.61	636	\$ 16,923.96
Disposal	\$ 17.11	636	\$ 10,881.96
Subtotal (w/o tax)	\$ 293.72	636	\$ 186,805.92
Tax on resin only (7.75%)	\$ 19.38	636	\$ 12,322.50
Total	\$ 313.10	636	\$ 199,128.42

COMMERCIAL TERMS Delivery

 We have PSR-2 Plus in stock. We like to have two weeks' notice to schedule accordingly, but can work with your time frame.

Prices Do Not Include The Following:

- Permits
- Site preparation including developing a concrete pad, grouting, weather protection, etc.
- Offloading and installation of equipment

Also Please Note:

- Proposal pricing valid for 90 days from date of proposal.
- Evoqua Water Technologies LLC terms and conditions are attached hereto and are incorporated into this proposal by reference
- Terms of payment are net 30 days, 100% upon completion. Quoted terms are subject to credit approval.
- FOB factory, freight allowed to jobsite.
- Evoqua Water Technologies LLC's price does not include, and Evoqua Water Technologies LLC shall not be responsible for, any taxes, permits, tariffs, duties or fees (or any incremental increases to such taxes, permits, tariffs, duties or fees enacted by governmental agencies) unless specifically agreed herein or otherwise by Evoqua Water Technologies LLC in writing.

Proposal #11182021.R0 Evoqua Water Technologies LLC

V. <u>ATTACHMENTS</u>

Terms and Conditions Contractor's License DIR registration PSR-2 Plus Data Sheet PSR-2 Plus NSF

EVOQUA WATER TECHNOLOGIES LLC

Standard Terms of Sale

- 1. <u>Applicable Terms.</u> These terms govern the purchase and sale of equipment, products, related services, leased products, and media goods if any (collectively herein "Work"), referred to in Seller's proposal ("Seller's Documentation"). Whether these terms are included in an offer or an acceptance by Seller, such offer or acceptance is expressly conditioned on Buyer's assent to these terms. Seller rejects all additional or different terms in any of Buyer's forms or documents.
- 2. Payment. Buyer shall pay Seller the full purchase price as set forth in Seller's Documentation. Unless Seller's Documentation specifically provides otherwise, freight, storage, insurance and all taxes, levies, duties, tariffs, permits or license fees or other governmental charges relating to the Work or any incremental increases thereto shall be paid by Buyer. If Seller is required to pay any such charges, Buyer shall immediately reimburse Seller. If Buyer claims a tax or other exemption or direct payment permit, it shall provide Seller with a valid exemption certificate or permit and indemnify, defend and hold Seller harmless from any taxes, costs and penalties arising out of same. All payments are due within 30 days after receipt of invoice. Buyer shall be charged the lower of 1 ½% interest per month or the maximum legal rate on all amounts not received by the due date and shall pay all of Seller's reasonable costs (including attorneys' fees) of collecting amounts due but unpaid. All orders are subject to credit approval by Seller. Back charges without Seller's prior written approval shall not be accepted.
- 3. <u>Delivery.</u> Delivery of the Work shall be in material compliance with the schedule in Seller's Documentation. Unless Seller's Documentation provides otherwise, delivery terms are ExWorks Seller's factory (Incoterms 2010). Title to all Work shall pass upon receipt of payment for the Work under the respective invoice. Unless otherwise agreed to in writing by Seller, shipping dates are approximate only and Seller shall not be liable for any loss or expense (consequential or otherwise) incurred by Buyer or Buyer's customer if Seller fails to meet the specified delivery schedule.
- 4. <u>Ownership of Materials and Licenses.</u> All devices, designs (including drawings, plans and specifications), estimates, prices, notes, electronic data, software and other documents or information prepared or disclosed by Seller, and all related intellectual property rights, shall remain Seller's property. Seller grants Buyer a non-exclusive, non-transferable license to use any such material solely for Buyer's use of the Work. Buyer shall not disclose any such material to third parties without Seller's prior written consent. Buyer grants Seller a non-exclusive, non-transferable license to use Buyer's name and logo for marketing purposes, including but not limited to, press releases, marketing and promotional materials, and web site content.
- 5. <u>Changes.</u> Neither party shall implement any changes in the scope of Work described in Seller's Documentation without a mutually agreed upon change order. Any change to the scope of the Work, delivery schedule for the Work, any Force Majeure Event, any law, rule, regulation, order, code, standard or requirement which requires any change hereunder shall entitle Seller to an equitable adjustment in the price and time of performance.
- 6. Force Majeure Event. Neither Buyer nor Seller shall have any liability for any breach or delay (except for breach of payment obligations) caused by a Force Majeure Event. If a Force Majeure Event exceeds six (6) months in duration, the Seller shall have the right to terminate the Agreement without liability, upon fifteen (15) days written notice to Buyer, and shall be entitled to payment for work performed prior to the date of termination. "Force Majeure Event" shall mean events or circumstances that are beyond the affected party's control and could not reasonably have been easily avoided or overcome by the affected party and are not substantially attributable to the other party. Force Majeure Event may include, but is not limited to, the following circumstances or events: war, act of foreign enemies, terrorism, riot, strike, or lockout by persons other than by Seller or its sub-suppliers, natural catastrophes or (with respect to on-site work), unusual weather conditions.
- Warranty. Subject to the following sentence, Seller warrants to Buyer that the (i) Work shall materially conform to the description in Seller's Documentation and shall be free from defects in material and workmanship and (ii) the Services shall be performed in a timely and workmanlike manner. Determination of suitability of treated water for any use by Buyer shall be the sole and exclusive responsibility of Buyer. The foregoing warranty shall not apply to any Work that is specified or otherwise demanded by Buyer and is not manufactured or selected by Seller, as to which (i) Seller hereby assigns to Buyer, to the extent assignable, any warranties made to Seller and (ii) Seller shall have no other liability to Buyer under warranty, tort or any other legal theory. The Seller warrants the Work, or any components thereof, through the earlier of (i) eighteen (18) months from delivery of the Work or (ii) twelve (12) months from initial operation of the Work or ninety (90) days from the performance of services (the "Warranty Period"). If Buyer gives Seller prompt written notice of breach of this warranty within the Warranty Period, Seller shall, at its sole option and as Buyer's sole and exclusive remedy, repair or replace the subject parts, re-perform the Service or refund the purchase price. Unless otherwise agreed to in writing by Seller, (i) Buyer shall be responsible for any labor required to gain access to the Work so that Seller can assess the available remedies and (ii) Buyer shall be responsible for all costs of installation of repaired or replaced Work. If Seller determines that any claimed breach is not, in fact, covered by this warranty, Buyer shall pay Seller its then customary charges for any repair or replacement made by Seller. Seller's warranty is conditioned on Buyer's (a) operating and maintaining the Work in accordance with Seller's instructions. (b) not making any unauthorized repairs or alterations, and (c) not being in default of any payment obligation to Seller. Seller's warranty does not cover (i) damage caused by chemical action or abrasive material, misuse or improper installation (unless installed by Seller) and (ii) media goods (such as, but not limited to, resin, membranes, or granular activated carbon media) once media goods are installed. THE WARRANTIES SET FORTH IN THIS SECTION 7 ARE THE SELLER'S SOLE AND EXCLUSIVE WARRANTIES AND ARE SUBJECT TO THE LIMITATION OF LIABILITY PROVISION BELOW. SELLER MAKES NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PURPOSE.
- 8. <u>Indemnity.</u> Seller shall indemnify, defend and hold Buyer harmless from any claim, cause of action or liability incurred by Buyer as a result of third party claims for personal injury, death or damage to tangible property, to the extent caused by Seller's negligence. Seller shall have the sole authority to direct the defense of and settle any indemnified claim. Seller's indemnification is conditioned on Buyer (a) promptly, within the Warranty Period, notifying Seller of any claim, and (b) providing reasonable cooperation in the defense of any claim.

- 9. <u>Assignment.</u> Neither party may assign this Agreement, in whole or in part, nor any rights or obligations hereunder without the prior written consent of the other party; provided, however, the Seller may assign its rights and obligations under these terms to its affiliates or in connection with the sale or transfer of the Seller's business and Seller may grant a security interest in the Agreement and/or assign proceeds of the agreement without Buyer's consent.
- 10. <u>Termination.</u> Either party may terminate this agreement, upon issuance of a written notice of breach and a thirty (30) day cure period, for a material breach (including but not limited to, filing of bankruptcy, or failure to fulfill the material obligations of this agreement). If Buyer suspends an order without a change order for ninety (90) or more days, Seller may thereafter terminate this Agreement without liability, upon fifteen (15) days written notice to Buyer, and shall be entitled to payment for work performed, whether delivered or undelivered, prior to the date of termination.
- Dispute Resolution. Seller and Buyer shall negotiate in good faith to resolve any dispute relating hereto. If, despite good faith efforts, the parties are unable to resolve a dispute or claim arising out of or relating to this Agreement or its breach, termination, enforcement, interpretation or validity, the parties will first seek to agree on a forum for mediation to be held in a mutually agreeable site. If the parties are unable to resolve the dispute through mediation, then any dispute, claim or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope or applicability of this agreement to arbitrate, shall be determined by arbitration in Pittsburgh, Pennsylvania before three arbitrators who are lawyers experienced in the discipline that is the subject of the dispute and shall be jointly selected by Seller and Buyer. The arbitration shall be administered by JAMS pursuant to its Comprehensive Arbitration Rules and Procedures. The Arbitrators shall issue a reasoned decision of a majority of the arbitrators, which shall be the decision of the panel. Judgment may be entered upon the arbitrators' decision in any court of competent jurisdiction. The substantially prevailing party as determined by the arbitrators shall be reimbursed by the other party for all costs, expenses and charges, including without limitation reasonable attorneys' fees, incurred by the prevailing party in connection with the arbitration. For any order shipped outside of the United States, any dispute shall be referred to and finally determined by the International Center for Dispute Resolution in accordance with the provisions of its International Arbitration Rules, enforceable under the New York Convention (Convention on the Recognition and Enforcement of Foreign Arbitral Awards) and the governing language shall be English.
- 12. Export Compliance. Buyer acknowledges that Seller is required to comply with applicable export laws and regulations relating to the sale, exportation, transfer, assignment, disposal and usage of the Work provided under this Agreement, including any export license requirements. Buyer agrees that such Work shall not at any time directly or indirectly be used, exported, sold, transferred, assigned or otherwise disposed of in a manner which will result in non-compliance with such applicable export laws and regulations. It shall be a condition of the continuing performance by Seller of its obligations hereunder that compliance with such export laws and regulations be maintained at all times. BUYER AGREES TO INDEMNIFY AND HOLD SELLER HARMLESS FROM ANY AND ALL COSTS, LIABILITIES, PENALTIES, SANCTIONS AND FINES RELATED TO NON-COMPLIANCE WITH APPLICABLE EXPORT LAWS AND REGULATIONS.
- 13. <u>LIMITATION OF LIABILITY.</u> NOTWITHSTANDING ANYTHING ELSE TO THE CONTRARY, SELLER SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL, PUNITIVE OR OTHER INDIRECT DAMAGES, AND SELLER'S TOTAL LIABILITY ARISING AT ANY TIME FROM THE SALE OR USE OF THE WORK, INCLUDING WITHOUT LIMITATION ANY LIABILITY FOR ALL WARRANTY CLAIMS OR FOR ANY BREACH OR FAILURE TO PERFORM ANY OBLIGATION UNDER THE CONTRACT, SHALL NOT EXCEED THE PURCHASE PRICE PAID FOR THE WORK. THESE LIMITATIONS APPLY WHETHER THE LIABILITY IS BASED ON CONTRACT, TORT, STRICT LIABILITY OR ANY OTHER THEORY.
- Rental Equipment / Services. Any leased or rented equipment ("Leased Equipment") provided by Seller shall at all times be the property of Seller with the exception of certain miscellaneous installation materials purchased by the Buyer, and no right or property interest is transferred to the Buyer, except the right to use any such Leased Equipment as provided herein. Buyer agrees that it shall not pledge, lend, or create a security interest in, part with possession of, or relocate the Leased Equipment. Buyer shall be responsible to maintain the Leased Equipment in good and efficient working order. At the end of the initial term specified in the order, the terms shall automatically renew for the identical period unless canceled in writing by Buyer or Seller not sooner than three (3) months nor later than one (1) month from termination of the initial order or any renewal terms. Upon any renewal, Seller shall have the right to issue notice of increased pricing which shall be effective for any renewed terms unless Buyer objects in writing within fifteen (15) days of issuance of said notice. If Buyer timely cancels service in writing prior to the end of the initial or any renewal term this shall not relieve Buyer of its obligations under the order for the monthly rental service charge which shall continue to be due and owing. Upon the expiration or termination of this Agreement, Buyer shall promptly make any Leased Equipment available to Seller for removal. Buyer hereby agrees that it shall grant Seller access to the Leased Equipment location and shall permit Seller to take possession of and remove the Leased Equipment without resort to legal process and hereby releases Seller from any claim or right of action for trespass or damages caused by reason of such entry and removal.
- Miscellaneous. These terms, together with any Contract Documents issued or signed by the Seller, comprise the complete and exclusive statement of the agreement between the parties (the "Agreement") and supersede any terms contained in Buyer's documents, unless separately signed by Seller. No part of the Agreement may be changed or cancelled except by a written document signed by Seller and Buyer. No course of dealing or performance, usage of trade or failure to enforce any term shall be used to modify the Agreement. To the extent the Agreement is considered a subcontract under Buyer's prime contract with an agency of the United States government, in case of Federal Acquisition Regulations (FARs) flow down terms, Seller will be in compliance with Section 44.403 of the FAR relating to commercial items and those additional clauses as specifically listed in 52.244-6, Subcontracts for Commercial Items (OCT 2014). If any of these terms is unenforceable, such term shall be limited only to the extent necessary to make it enforceable, and all other terms shall remain in full force and effect. The Agreement shall be governed by the laws of the Commonwealth of Pennsylvania without regard to its conflict of laws provisions. Both Buyer and Seller reject the applicability of the United Nations Convention on Contracts for the international sales of goods to the relationship between the parties and to all transactions arising from said relationship.

Yes I certify that I do not have any delinquent liability to an employee or the state for any assessment of back wages or related damages, interest, fines, or penalties pursuant to any final judgment, order, or determination by a court or any federal, state, or local administrative agency, including a confirmed arbitration award

I certify that the contractor is not currently debarred under Section 1777.1 or under any other federal or state law providing for the debarment of contractors from public works.

Yes I certify that one of the following is true: (1) I am licensed by the Contractors State License Board (CSLB) in accordance with Chapter 9 (commencing with Section 7000) of the Business and Professions Code; or (2) my business or trade is not subject to licensing by the CSLB.

I understand refunds are not authorized

I, Victor Anthony Borghese, the undersigned, am, EVOQUA WATER TECHNOLOGIES LLC with the authority to act for and on behalf of the above named contractor. I certify under penalty of perjury that all of the above information provided is true and correct. I further acknowledge that any untruthful information provided in this application could result in the certification being canceled.

I certify this on: 12:09 PM

Product Data Sheet

AmberLite™ PSR2 Ion Exchange Resin

Drinking Water-grade, Gel, Strong Base Anion Resin for Selective Perchlorate Removal

Description

AmberLite™ PSR 2 Ion Exchange Resin is a gel, strong base anion resin supplied in the CI− form. It is designed to offer the highest selectivity for trace contaminants such as nitrate and perchlorate, while its gel matrix also achieves high total exchange capacity.

Applications

Primary application:

· Selective perchlorate removal

Also can be used for:

Gold recovery

Typical Properties

Physical Properties	
Copolymer	Styrene-divinylbenzene
Matrix	Gel
Туре	Strong base anion
Functional Group	Tri-n-butyl amine
Physical Form	Amber to brown, translucent, spherical beads
Chemical Properties	
Ionic Form as Shipped	CI
Total Exchange Capacity	≥ 0.65 eq/L
Water Retention Capacity	40 – 47.5%
Particle Size §	
<400 μm	≤5%
1180 – 1410 μm	≤3%
Stability	
Whole Uncracked Beads	≥95%
Friability	
> 200 g/bead	≥90%
Density	
Particle Density	1.10 g/mL
Shipping Weight	670 g/L

[§] For additional particle size information, please refer to the <u>Particle Size Distribution Cross Reference Chart</u> (Form No. 45-D00954-en).

Suggested Operating Conditions

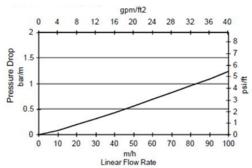

Maximum Operating Temperature	60°C (140°F)
pH Range	0 – 14

Hydraulic Characteristics

Estimated bed expansion of AmberLiteTM PSR2 Ion Exchange Resin as a function of service flowrate at 20°C (68°F) is shown in Figure 1. These pressure drop expectations are valid at the start of the service run with clean water and a well-classified bed. Estimated pressure drop at other water temperatures can be calculated with the provided equations.

Figure 1: Pressure Drop

Temperature = 20°C (68°F)

For other temperatures use:

 $P_T = P_{20^{\circ}\text{C}} / (0.026T_{^{\circ}\text{C}} + 0.48)$, where $P \equiv \text{bar/m}$ $P_T = P_{20^{\circ}\text{C}} / (0.014T_{^{\circ}\text{F}} + 0.05)$, where $P \equiv \text{psi/ft}$

Conditioning and Limits of Use

AmberLite[™] PSR2 Ion Exchange Resin is suitable for use in potable water applications ¹ after an initial commissioning pretreatment at ambient temperature.

Product Stewardship

DuPont has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our product stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our product stewardship program rests with each and every individual involved with DuPont products—from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

Customer Notice

DuPont strongly encourages its customers to review both their manufacturing processes and their applications of DuPont products from the standpoint of human health and environmental quality to ensure that DuPont products are not used in ways for which they are not intended or tested. DuPont personnel are available to answer your questions and to provide reasonable technical support. DuPont product literature, including safety data sheets, should be consulted prior to use of DuPont products. Current safety data sheets are available from DuPont.

Please be aware of the following:

WARNING: Oxidizing agents such as nitric acid attack organic ion exchange resins
under certain conditions. This could lead to anything from slight resin degradation
to a violent exothermic reaction (explosion). Before using strong oxidizing agents,
consult sources knowledgeable in handling such materials.

Regulatory Note

This product may be subject to drinking water application restrictions in some countries; please check the application status before use and sale.

¹ Please confirm the regulatory approval in your specific country of use.

CERTIFIED DRINKING WATER SYSTEM COMPONENTS

NSF/ANSI/CAN 61 - 2018: Drinking Water System Components - Health Effects

This Standard establishes minimum health effects requirements for the chemical contaminants and impurities that are indirectly imparted to drinking water from products, components, and materials used in drinking water systems. This Standard does not establish performance, taste and odor, or microbial growth support requirements for drinking water systems products, components, or materials.

Drinking Water Treatment Products certified to NSF/ANSI 61 have not been tested or evaluated for contaminant reduction performance. Contaminant reduction testing and certification claims shall be evaluated via the industry's residential drinking water treatment standards.

DDP Specialty Electronic Materials US, INC

2200 West Salzbury Road Midland, MI 48686 United States http://www.dupont.com (http://www.dupont.com)

Product Type: Ion Exchange Resin

Brand Name	Model	Water Contact Temp	Water Contact Material	Size
AMBERLITE™	DOWEX PSR2 Plus (CL) Ion Exchange Resin ¹²	Cold (23C)	SYN	0.5 - 0.9 mm

¹ This product is certified with a minimum flow rate of 0.38 gpm/ft3 of media

 $^{^2}$ For conditioning the resin; soak 1 hour with water. Then, rinse with RO/DI water at 10BV/hr = 0.044 gallons/minute for 20BV.
