Board of Directors
West Valley Water District

Introduction

It is our pleasure to submit the Comprehensive Annual Financial Report for the West Valley Water District for the fiscal years ended June 30, 2014 and 2013, following guidelines set forth by the Governmental Accounting Standards Board. District staff prepared this financial report. The District is ultimately responsible for both the accuracy of the data and the completeness and the fairness of presentation, including all disclosures in this financial report. We believe that the data presented is accurate in all material respects. This report is designed in a manner that we believe necessary to enhance your understanding of the District's financial position and activities.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview and analysis to accompany the financial statements in the form of the Management's Discussion and Analysis (MD&A) section. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately after the Independent Auditor's Report.

District Structure and Leadership

The West Valley Water District is an independent special district, which operates under the authority of Division 12 of the California Water Code. The District was formed in 1952 and is governed by a five-member Board of Directors, elected at-large from within the District's service area. The General Manager administers the day-to-day operations of the District in accordance with policies and procedures established by the Board of Directors. The District employs approximately 55 regular employees organized in 25 departments. The District's Board of Directors meets on the first and third Thursdays of each month. Meetings are publicly noticed and citizens are encouraged to attend.

The District provides water service to approximately 20,000 customers within its thirty-one (31) square-mile service area, located in Southwestern San Bernardino County with a small area of Northwestern Riverside County. The District encompasses one half of the City of Rialto, portions of Bloomington, Colton, Fontana, Jurupa Valley, and some of the unincorporated areas of San Bernardino and Riverside counties.

District Services

Residential customers represent approximately 92% of the District's customer base and consume approximately 60% of the water produced annually by the District. The District currently has a total of 17 groundwater wells with a maximum production capacity of 24,300 gallons per minute.

Economic Condition and Outlook

The District's office is located in the City of Rialto in San Bernardino County. San Bernardino and Riverside counties (Inland Empire) have witnessed a decrease in economic activity due to continuing recessionary pressures and high unemployment rate.

Economic Condition and Outlook, continued

The District's source of water production comes from various sources which include: 1) local water from several groundwater basins, 2) surface water from Lytle Creek in the San Bernardino Mountains, and 3) the California State Water Project – Silverwood Lake. With the detection of perchlorates and other contaminants in the areas groundwater supplies, the District shut down affected wells and installed treatment systems to reduce the amount of contaminants. Treated water from these sources exceeds minimum State and Federal water quality standards. Recently, the District teamed up with the City of Rialto to construct a state-approved biological treatment process “bio-remediation” that employs naturally occurring micro-organisms to remove perchlorate and other contaminants in the basins drinking water supplies as well as reduce the need for waste handling and disposal in a cost effective manner. West Valley Water District considers this to be the first major step in a regional undertaking that will ultimately restore the region's groundwater resources.

California's water supply continues to be a concern due to projected population increases, continuance of a drought of past years, the State's aging water infrastructure, and various protected endangered species near our water supplies. This concern has increased awareness for water conservation and more efficient irrigation methods. The District is continuing to improve its water conservation program through public education and conservation incentives.

Major Initiatives

The activities of the Board and staff of the District are driven by its Mission Statement: “To provide a reliable, safe drinking water supply to meet our customers' present and future needs at a reasonable cost and to promote water-use efficiency and conservation”. The strategic goals adopted by the Board of Directors are:

1. We know that we exist to serve the water needs of our customers. We are committed to treating every customer with dignity, respect and courtesy. We take the initiative to develop customer services, systems and programs that are designed for the benefit, education and convenience of our customers and their families.
2. To preserve district water rights, explore new sources and optimize ground and surface water production.
3. To provide the financial conditions necessary to secure the components needed for ongoing effectiveness and industry excellence. We will facilitate the vision by superior financial planning and resourcefulness in a manner consistent with managing the public's funds to ensure financial stability and to demonstrate responsible stewardship.
4. Designing and implementing an effective human resource strategy for developing staff that reflects the reality that strong and growing individuals are essential to achieving our vision. Broader than training, this strategy is designed to meet each staff wherever they are in their development and to assist them in achieving their next growth steps.
5. To continually keep our technology, our business processes and our management systems at optimum levels of effectiveness.
6. To nurture strategic alliances with local and regional partners in the water industry community of the Inland Empire as well as several State and Federal organizations.
7. To promote efficient use of water and to implement a conservation program of educational information and other incentives that encourage wise use of water.

All programs and operations of the District are developed and performed to provide the highest level of services to its customers.

Accomplishments

To assist the board of directors in meeting their strategic mission for our District, staff achieved the following initiatives in fiscal year 2014:

1. In 2010, California public health officials awarded \$10 million in grant funds to West Valley Water District for the construction of the unique and innovative Bioremediation groundwater treatment project. Construction of the facility was completed and the plant is currently in its testing phase during 2013-2014.
2. For the third consecutive year, West Valley Water District received the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association for our 2013 Comprehensive Annual Financial Report; one of the best practices for local governments seeking to provide greater transparency and ease of understanding in financial reporting.
3. Our Human Resources Department is coordinating with other departments and outside consultants to provide monthly training sessions for employees who hold supervisor positions, and quarterly training sessions for all District employees.
4. The District has established an (information technology) I. T. Stability Committee which meets monthly to coordinate upgrades, identify and resolve technical issues, and plan for the future needs of the District.
5. Most of the executive staff serves on state or regional boards including the Association of California Water Agencies, the San Bernardino County Special Districts Association, Upper Santa Ana Water Resources Authority, Basin Technical Advisory Committee, Emergency Response Network of the Inland Empire, and the California Society of Municipal Finance Officers.

Internal Control Structure

District management is responsible for the establishment and maintenance of the internal control structure that ensures the assets of the District are protected from loss, theft or misuse. The internal control structure also ensures adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The District's internal control structure is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary Control

The District Board of Directors annually adopts an operating and capital budget prior to the new fiscal year. The budget authorizes and provides the basis for reporting and control of financial operations and accountability for the District's enterprise operations and capital projects. The budget and reporting treatment applied to the District is consistent with the accrual basis of accounting and the financial statement basis.

Investment Policy

The Board of Directors has adopted an investment policy that conforms to state law, District ordinance and resolutions, prudent money management, and the "prudent person" standards. The objective of the Investment Policy is safety, liquidity and yield. District funds are invested in the State Treasurer's Local Agency Investment Fund and institutional savings and checking accounts.

Other Post Employment Benefits – Pre-funding Consideration

In the fiscal year 2013, the District began consideration of pre-funding the cost of its post-employment benefits plan through the California Public Employees Retirement System (CalPERS). Subsequent to the year-ended June 30, 2014, the District's Board of Directors approved participation in this program.

Water Rates and District Revenues

In January, 2014, the second of five annual 15% rate increases became effective. This applied to both consumption and monthly service charges. In 2013, the District changed its rate structure from uniform rates to tiered rates. Water rates are composed of a commodity (usage) charge and a fixed meter (readiness-to-serve) charge.

Water Conservation Programs

West Valley Water District has always been committed to conservation; however, over the past couple of years, the District has adopted new programs that can help everyone become more efficient in their water usage. Tiered rates, effective January 1, 2013, provide a financial incentive to conserve water usage.

Independent Audit and Financial Reporting

State Law and Bond covenants require the District to obtain an annual audit of its financial statements by an independent certified public accountant. The accounting firm of Charles Z. Fedak & Company, CPAs has conducted the audit of the District's financial statements. Their unmodified Independent Auditor's Report appears in the Financial Section.

Risk Management

The District is a member of the Association of California Water Agencies Joint Power Insurance Authority (Authority). The purpose of the Authority is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage.

Technological Advance in Customer Service

The District continues to make significant improvements to its Customer Service Department, which has improved customer convenience. Customers now have the option to pay their bills using their touchtone phone (the Interactive Voice Response System), at the District office, at two satellite locations, with a major credit card or on the District's website, by automatic checking or savings account debit by enrollment in the auto-pay program, or at the drop boxes at the District office. All of these features are available in English and Spanish.

Other References

More information is contained in the Management's Discussion and Analysis and in the Notes to the Basic Financial Statements found in the Financial Section of the report.

Awards

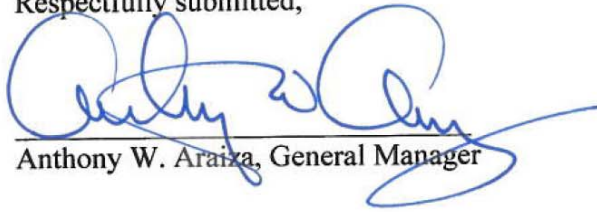

The Government Finance Officers Association of the United States and Canada's (GFOA) awarded the *Certificate of Achievement for Excellence in Financial Reporting* to the District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2013. This was the District's third year for submission for the award. To be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that this CAFR meets the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for 2014.

Acknowledgements

Preparation of this report was accomplished by the combined efforts of District staff. We appreciate the dedicated efforts and professionalism that these staff members contribute to the District. We would also like to thank the members of the Board of Directors for their continued support in planning and implementation of the West Valley Water District's fiscal policies.

Respectfully submitted,

Anthony W. Araiza, General Manager

Deborah Sousa, CFO, Treasurer

Board of Directors

A five member Board of Directors are elected by the Rialto area to set policy and govern the District.
Currently the Board of Directors are:

Independent Auditor's Report

Board of Directors
West Valley Water District
Rialto, California

Report on the Financial Statements

We have audited the accompanying financial statements of the West Valley Water District (District) as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the of the West Valley Water District, as of June 30, 2014 and 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Independent Auditor's Report, continued

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 11 through 17 and the required supplementary information on pages 47 through 48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Matters

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The introductory section on pages 1 through 5 and the statistical section on pages 53 through 65 are presented for purposes of additional analysis and are not required parts of the basic financial statements. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

The supplemental information schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information schedules are fairly stated in all material respects in relation to the basic financial statements as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued a report dated December 24, 2014, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance. This report can be found on pages 66 and 67.

West Valley Water District
Management's Discussion and Analysis
For the Fiscal Years Ended June 30, 2014 and 2013

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the West Valley Water District (District) provides an introduction to the financial statements of the District for the fiscal years ended June 30, 2014 and 2013. We encourage readers to consider the information presented here in conjunction with the transmittal letter in the introductory section and with the basic financial statements and related notes, which follow this section.

Financial Highlights

- The District's net position increased 2.94%, or \$3,055,552 to \$106,984,522 in 2014. In 2013, the District's net position increased 3.55%, or \$3,516,140 to \$103,928,970.
- The District had a net loss before capital contributions of \$1,227,696 in 2014, which was a 2.33%, or \$27,945 increase in loss from 2013. In 2013, the District had a net loss before capital contributions of \$1,199,751, which was a 77.19%, or \$4,060,203 decrease in loss from 2012.
- The District's operating revenues increased 18.91%, or \$3,643,203 in 2014, due primarily to a \$2,273,327 increase in water consumption sales, a \$815,658 increase in water service charges, and a \$554,218 increase in other operating income. The increases in water consumption sales and service charges were primarily driven by the effect of the prior year's rate increase. In 2013, the District's operating revenues increased 23.48%, or \$3,663,270, due primarily to a \$2,423,375 increase in water consumption sales, a \$543,046 increase in water service charges, and a \$696,849 increase in other operating income. The increases in water consumption sales and service charges were primarily driven by the effect of the rate increase.
- The District's operating expenses before depreciation increased 7.69%, or \$1,213,784 in 2014, primarily due to increases of \$344,835 in water treatment expenses, \$543,297 in pumping expenses, \$431,115 in general and administrative expenses, \$252,682 in source of supply expenses, \$236,129 in transmission and distribution expenses, and \$160,089 in general and administrative expenses, which were offset by a decrease of \$410,127 in bio-remediation expenses. In 2013, the District's operating expenses before depreciation increased 11.56%, or \$1,635,098, primarily due to increases of \$664,042 in pumping expenses, \$752,907 in bio-remediation expenses, and \$431,115 in general and administrative expenses, offset by decreases of \$61,391 in source of supply expenses, \$64,959 in water treatment expense, \$54,449 in customer account expenses, and \$48,300 in transmission and distribution.
- The District's non-operating revenues, net decreased 58.18%, or \$2,269,083 in 2014, primarily due to decreases of \$2,000,000 in expense reimbursement, \$300,863 in property tax revenue, and \$21,162 in other non-operating revenue which were offset by an increase of \$45,650 in gain on disposition of capital assets. In 2013, the District's non-operating revenues, net increased 155.44%, or \$2,373,237, primarily due to increases of \$2,000,000 in expense reimbursement, \$337,805 in property tax revenue, and \$55,737 in other non-operating revenue.
- The District's non-operating expenses, net decreased 34.18%, or \$631,910 in 2014, primarily due to a \$581,873 decrease in amortization of deferred charges due to the implementation of GASB 65 in the prior year and \$50,037 in interest expense related to long-term debt. In 2013, the District's non-operating expenses, net increased 24.04%, or \$358,224, primarily due to a \$553,139 increase in amortization of deferred charges due to the implementation of GASB 65 which was offset by decreases of \$146,563 in other non-operating expense, and \$48,352 in interest expense related to long-term debt.

West Valley Water District
Management's Discussion and Analysis
For the Fiscal Years Ended June 30, 2014 and 2013

Financial Highlights, continued

- The District's capital contributions from bio-remediation, developers, one-time facility charges and grants decreased 10.03%, or \$477,643 due primarily to decreases of \$3,211,532 in bio-remediation grants which was offset by increases of \$2,632,044 in facility charges, and \$101,845 in developer contributions. In 2013, the District's capital contributions from bio-remediation, developers, one-time facility charges and grants decreased 61.70%, or \$7,670,739 due primarily to decreases of \$5,264,739 in bio-remediation grants, \$2,680,744 in developer contributions and \$379,302 in capital grants which were offset by a \$654,046 increase in facility charges.

Required Financial Statements

This annual report consists of a series of financial statements. The Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position and Statement of Cash Flows provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies.

The Statement of Net Position includes all of the District's investments in resources (assets), deferred outflows of resources, obligations to creditors (liabilities), and deferred inflows of resources. It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine if the District has successfully recovered all of its costs through its rates and other charges. This statement can also be used to evaluate profitability and credit worthiness. The final required financial statement is the Statement of Cash Flows, which provides information about the District's cash receipts and cash payments during the reporting period.

The Statement of Cash Flows reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, non-capital financing, and capital and related financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

Financial Analysis of the District

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position report information about the District in a way that helps answer this question.

These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the District's *net position* and changes in them. One can think of the District's net position – between assets and deferred outflows of resources less liabilities and deferred inflows of resources – as one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net position are one indicator of whether its *financial health* is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning and new or changed government legislation, such as changes in Federal and State water quality standards.

West Valley Water District
Management's Discussion and Analysis
For the Fiscal Years Ended June 30, 2014 and 2013

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the basic financial statements can be found on pages 23 through 46.

Statements of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets of the District exceeded liabilities by \$106,984,522 and \$103,928,970 as of June 30, 2014 and 2013, respectively.

By far, the largest portion of the District's net position (80.9% and 84.4% as of June 30, 2014 and 2013) reflects the District's investment in capital assets (net of accumulated depreciation) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to customers within the District's service area; consequently, these assets are *not* available for future spending.

At the end of fiscal years 2014 and 2013, the District showed a positive balance in its unrestricted net position of \$15,018,085 and \$8,964,937, respectively, which may be utilized in future years. See note 15 for further information.

Condensed Statements of Net Position

	<u>2014</u>	<u>As Restated 2013</u>	<u>Change</u>	<u>As Restated 2012</u>	<u>Change</u>

The statement of revenues, expenses, and changes of net position shows how the District's net position changed during the fiscal years. In the case of the District, net position increased by \$3,055,552 and \$3,561,140 for the fiscal years ended June 30, 2014 and 2013, respectively.

A closer examination of the sources of changes in net position reveals that:

- The District's net position increased 2.94%, or \$3,055,552 to \$106,984,522 in 2014. In 2013, the District's net position increased 3.55%, or \$3,516,140 to \$103,928,970.
- The District had a net loss before capital contributions of \$1,227,696 in 2014, which was a 2.33%, or \$27,945 increase in loss from 2013. In 2013, the District had a net loss before capital contributions of \$1,199,751, which was a 77.19%, or \$4,060,203 decrease in loss from 2012.
- The District's operating revenues increased 18.91%, or \$3,643,203 in 2014, due primarily to a \$2,273,327 increase in water consumption sales, a \$815,658 increase in water service charges, and a \$554,218 increase in other operating income. The increases in water consumption sales and service charges were primarily driven by the effect of the prior year's rate increase. In 2013, the District's operating revenues increased 23.48%, or \$3,663,270, due primarily to a \$2,423,375 increase in water consumption sales, a \$543,046 increase in water service charges, and a \$696,849 increase in other operating income. The increases in water consumption sales and service charges were primarily driven by the effect of the rate increase.
- The District's operating expenses before depreciation increased 7.69%, or \$1,213,784 in 2014, primarily due to increases of \$344,835 in water treatment expenses, \$543,297 in pumping expenses, \$431,115 in general and administrative expenses, \$252,682 in source of supply expenses, \$236,129 in transmission and distribution expenses, and \$160,089 in general and administrative expenses, which were offset by a decrease of \$410,127 in bio-remediation expenses. In 2013, the District's operating expenses before depreciation increased 11.56%, or \$1,635,098, primarily due to increases of \$664,042 in pumping expenses, \$752,907 in bio-remediation expenses, and \$431,115 in general and administrative expenses, offset by decreases of \$61,391 in source of supply expenses, \$64,959 in water treatment expense, \$54,449 in customer account expenses, and \$48,300 in transmission and distribution.

West Valley Water District
Management's Discussion and Analysis
For the Fiscal Years Ended June 30, 2014 and 2013

Statements of Revenues, Expenses, and Changes in Net Position, continued

- The District's non-operating revenues, net decreased 58.18%, or \$2,269,083 in 2014, primarily due to decreases of \$2,000,000 in expense reimbursement, \$300,863 in property tax revenue, and \$21,162 in other non-operating revenue which were offset by an increase of \$45,650 in gain on disposition of capital assets. In 2013, the District's non-operating revenues, net increased 155.44%, or \$2,373,237, primarily due to increases of \$2,000,000 in expense reimbursement, \$337,805 in property tax revenue, and \$55,737 in other non-operating revenue.
- The District's non-operating expenses, net decreased 34.18%, or \$631,910 in 2014, primarily due to a \$581,873 decrease in amortization of deferred charges due to the implementation of GASB 65 in the prior year and \$50,037 in interest expense related to long-term debt. In 2013, the District's non-operating expenses, net increased 24.04%, or \$358,224, primarily due to a \$553,139 increase in amortization of deferred charges due to the implementation of GASB 65 which was offset by decreases of \$146,563 in other non-operating expense, and \$48,352 in interest expense related to long-term debt.
- The District's capital contributions from bio-remediation, developers, one-time facility charges and grants decreased 10.03%, or \$477,643 due primarily to decreases of \$3,211,532 in bio-remediation grants which was offset by increases of \$2,632,044 in developer contributions and \$101,845 in facility charges. In 2013, the District's capital contributions from bio-remediation, developers, one-time facility charges and grants decreased 61.70%, or \$7,670,739 due primarily to decreases of \$5,264,739 in bio-remediation grants, \$2,680,744 in developer contributions and \$379,302 in capital grants which were offset by a \$654,046 increase in facility charges.

Total District Revenues

West Valley Water District
Notes to the Basic Financial Statements
For the Fiscal Years Ended June 30, 2014 and 2013

(1) Reporting Entity and Summary of Significant Accounting Policies

A. Organization and Operations of the Reporting Entity

Established on January 8, 1952, the West Valley Water District is located in Southwestern San Bernardino County with a small area of Northwestern Riverside County. The District's service area is approximately 31 square miles. The District uses 360 miles of water mains to provide water to approximately 19,000 customers. The District is governed by a five-member Board of Directors who serve overlapping four-year terms.

The criteria used in determining the scope of the financial reporting entity is based on the provisions of Governmental Accounting Statements No. 61, The Financial Reporting Entity. The District is the primary governmental unit based on the foundation of a separately elected governing board that is elected by the citizens in a general popular election. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The District is financially accountable if it appoints a voting majority of the organization's governing body and: 1) It is able to impose its will on that organization, or 2) There is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

The West End Water Development, Treatment and Conservation Joint Powers Authority (Authority) was formed on April 7, 1989, pursuant to the provisions of Article I, Chapter S, Division 7, Title 1 of the California Government Code. The Authority is deemed to be a component unit of the West Valley Water District, City of Rialto and the Municipal Water Department of the City of San Bernardino. The District's portion of the Authority has been included in these financial statements using the blended method of reporting. The Authority has had no activity in the past 10 years and reports no assets or liabilities.

Assessment District No. 97-1 (Crestmore Heights Mutual Water Company) was established to provide financing for construction and improvement of the water system. The District provides administrative duties such as placing assessments on the County tax rolls and submitting payments to the trustee (Rural Development, U.S. Department of Agriculture, Farmers Home Administration) for the assessment bond holders. Accordingly, the accounts and transactions of Assessment District No. 97-1 have been combined with that of the District's financial statements.

B. Basis of Accounting and Measurement Focus

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs of providing water to its customers on a continuing basis be financed or recovered primarily through user charges (water sales), capital grants and similar funding. Revenues and expenses are recognized on the full accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred, regardless of when the related cash flows take place.

Operating revenues and expenses, such as water sales and water purchases, result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Management, administration and depreciation expenses are also considered operating expenses. Other revenues and expenses not included in the above categories are reported as non-operating revenues and expenses.

Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

C. Financial Reporting

The District's basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as applied to enterprise funds. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District solely operates as a special-purpose government which means it is only engaged in business-type activities; accordingly, activities are reported in the District's proprietary fund.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position

1. Use of Estimates

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in net position during the reporting period. Actual results could differ from those estimates.

2. Cash and Cash Equivalents

Substantially all of the District's cash is invested in interest bearing accounts. The District considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

3. Investments and Investment Policy

The District has adopted an investment policy directing the Treasurer to deposit funds in financial institutions. Investments are to be made in the following areas:

- Securities of the U.S. government or its agencies
- Certificates-of-deposit
- CalTRUST
- State of California Local Area Investment Fund (LAIF)

Investment in CalTRUST

The Investment Trust of California, doing business as CalTRUST, is a California joint powers authority which provides California Public Agencies with investment management services for surplus funds to consolidate investment activities of its Participants and thereby reduces duplication, achieves economies of scale and carries out coherent and consolidated investment strategies through the issuance of shares of beneficial interest in investments purchased by CalTRUST. CalTRUST currently offers three accounts or series as a means for Public Agencies to invest their funds. The District participates in the CalTRUST Short-Term Fund Series.

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position, continued

3. Investments and Investment Policy, continued

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

4. Restricted Assets

Certain assets of the District are restricted in use by ordinance or debt covenant and, accordingly, are shown as restricted assets on the accompanying statement of net position. Revenue bond reserve funds and construction funds set aside from bond proceeds are restricted for future debt service payments and construction projects. The District uses restricted resources, prior to using unrestricted resources, to pay expenditures meeting the criteria imposed on the use of restricted resources by a third party.

5. Accounts Receivable and Allowance for Uncollectible Accounts

The District extends credit to customers in the normal course of operations. When management deems customer accounts uncollectible, the District uses the allowance method for the reservation and write-off of those accounts.

6. Materials and Supplies Inventory

Materials and supplies inventory consists primarily of water meters, pipe and pipe fittings for construction and repair to the District's water transmission and distribution system. Inventory is valued at cost using a weighted average method. Inventory items are charged to expense at the time that individual items are withdrawn from inventory or consumed.

7. Prepaid Expenses

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in the basic financial statements.

8. Water Stock – Fontana Union Water Company

Over the years, the District has acquired stock in the Fontana Union Water Company in order to obtain water rights within the Company's service area.

9. Tax Receivable and Unearned Revenue

The District has a tax pass-through agreement with the City of Rialto; whereby, the County of San Bernardino auditor-controller is to pay a portion of the City's incremental tax receipts directly to the District for water-related improvements within the Agua Mansa redevelopment area. Over the past several years, the District has received an annual payment of the revenue that it is entitled to and it is anticipated that the District will continue to collect annual payments through fiscal year 2029. As such, the revenue has been classified as unearned revenue.

West Valley Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position, continued

10. Capital Assets

Capital assets acquired and/or constructed are capitalized at historical cost. District policy has set the capitalization threshold for reporting capital assets at \$5,000. Donated assets are recorded at estimated fair market value at the date of donation. Upon retirement or other disposition of capital assets, the cost and related accumulated depreciation are removed from the respective balances and any gains or losses are recognized. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Source of supply plant	20 years
Pumping plant	10 – 20 years
Water treatment plant	10 years
Transmission and distribution plant	15 – 60 years
General plant	5 – 20 years

11. Compensated Absences

The District's personnel policies provide for accumulation of vacation and sick leave. Liabilities for vacation and sick leave are recorded when benefits are earned. Cash payment of unused vacation is available to those qualified employees when retired or terminated.

12. Construction Advances and Deposits

Construction advances represent deposits received in aid of construction, which are refundable if the applicable construction does not take place. Construction advances are transferred to contributed capital when the applicable construction project is completed.

13. Post Employment Retirement Benefit

The District provides certain health care benefits for all retired employees that meet eligibility requirements. The District's share of the estimated costs that will be paid after retirement is generally being accrued by charges to expense over the employee's active service periods to the date they are fully eligible for benefits.

14. Net Position

The financial statements utilize a net position presentation. Net position is categorized as follows:

- *Net Investment in Capital Assets Component of Net Position*– This component of net position consists of capital assets, net of accumulated depreciation, and reduced by any debt outstanding against the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt is included in this component of net position.
- *Restricted Component of Net Position* – This component of net position consists of assets that have restrictions placed upon their use by external constraints imposed either by creditors (debt covenants), grantors, contributors, or laws and regulations of other governments or constraints imposed by law through enabling legislation.

West Valley Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(1) Reporting Entity and Summary of Significant Accounting Policies, continued

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position, continued

14. Net Position

- *Unrestricted Component of Net Position* – This component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of the net investment in capital assets or restricted component of net position.

15. Water Sales

Water sales are billed on a monthly cyclical basis. Estimated unbilled water revenue through June 30, has been accrued at year-end.

16. Capital Contributions

Capital contributions represent cash and capital asset additions contributed to the District by property owners, granting agencies or real estate developers desiring services that require capital expenditures or capacity commitment.

17. Budgetary Policies

The District adopts an annual non-appropriated budget for planning, control, and evaluation purposes. Budgetary control and evaluation are affected by comparisons of actual revenues and expenses with planned revenues and expenses for the period. Encumbrance accounting is not used to account for commitments related to unperformed contracts for construction and services.

18. Reclassification

The District has reclassified certain prior year information to conform to current year presentations.

(2) Cash and Investments

Cash and investments as of June 30, are classified in the accompanying financial statements as follows:

	<u>2014</u>	<u>2013</u>
Cash and cash equivalents	\$ 12,724,418	7,751,060
Restricted – cash and cash equivalents	3,215,967	5,083,456
Investments	<u>13,550,414</u>	<u>7,532,159</u>
Total cash and investments	<u>\$ 29,490,799</u>	<u>20,366,675</u>

Cash and investments as of June 30, consist of the following:

	<u>2014</u>	<u>2013</u>
Cash on hand	\$ 3,700	3,700
Deposits with financial institutions	3,132,482	2,469,344
Investments	<u>26,354,617</u>	<u>17,893,631</u>
Total cash and investments	<u>\$ 29,490,799</u>	<u>20,366,675</u>

As of June 30, the District's authorized deposits had the following maturities:

	<u>2014</u>	<u>2013</u>
Deposits held with Local Agency Investment Fund (LAIF)	232 days	278 days
Deposits held with CalTrust Short Term Fund	518 days	445 days

(2) Cash and Investments, continued

Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the investment types that are authorized by the District in accordance with the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

<u>Authorized Investment Type*</u>	<u>Maximum Maturity</u>	<u>Maximum Percentage Of Portfolio</u>	<u>Maximum Investment in One Issuer</u>
U.S. Treasury Obligations	3 years	50%	50%
U.S. Agency Securities	3 years	50%	50%
Negotiable Certificates of Deposit	5 years	30%	None
Local Agency Investment Fund (LAIF)	N/A	25%	\$ 40,000,000
CalTrust Short Term Fund	2 years	25%	None

* Excluding amounts held by bond trustee that are not subject to California Government Code restrictions.

Investments Authorized by Debt Agreements

Investment of debt proceeds held by bond trustees are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the District's investment policy. The table below identifies the investment types that are authorized for investments held by bond trustee. The table also identifies certain provisions of these debt agreements that address interest rate risk, credit risk, and concentration of credit risk.

<u>Authorized Investment Type</u>	<u>Maximum Maturity</u>	<u>Maximum Percentage Of Portfolio</u>	<u>Maximum Investment in One Issuer</u>
U.S. Treasury Obligations	None	None	None
U.S. Agency Securities	None	None	None
Banker's Acceptances	180 days	None	None
Commercial Paper	270 days	None	None
Money Market Mutual Funds	N/A	None	None
Investment Contracts	30 years	None	None

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

West Valley Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(2) Cash and Investments, continued

Custodial Credit Risk, continued

The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. Of the bank balances, up to \$250,000, held at each institution is federally insured and the remaining balance is collateralized in accordance with the Code; however, the collateralized securities are not held in the District's name.

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio matures or comes close to maturity evenly over time as necessary to provide requirements for cash flow and liquidity needed for operations. Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the table on the following page that shows the distribution of the District's investments by maturity date.

Interest Rate Risk

Investments at June 30, 2014, consisted of the following:

<u>Investment Type</u>	<u>Total Investment</u>	<u>Remaining Maturity 12 Months Or Less</u>
U.S. Treasury Obligations	\$ 2,999,669	2,999,669

Local Agency Investment Fund (LAIF)	6,493,188	N/A	6,493,188	-	-
Cash with fiscal agent:					
Money Market Mutual Funds	<u>3,868,284</u>	<u>AAA</u>	<u>-</u>	<u>3,868,284</u>	<u>-</u>
Total	<u>\$ 17,893,631</u>		<u>\$ 6,493,188</u>	<u>11,400,443</u>	<u>-</u>

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization; however, LAIF and CalTrust are not rated. Presented below is the minimum rating required by (where applicable) the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of year end for each investment type.

Concentration of Credit Risk

The District's investment policy does not contain various limitations on the amounts that can be invested in any one governmental agency or non-governmental issuer as stipulated by the California Government Code. The District's deposit portfolio with governmental agencies such as the Local Agency Investment Fund (LAIF) was 40% of the District's total depository and investment portfolio as of June 30, 2014.

In 2013, major capital assets additions during the year included capitalization of the District's bio-remediation plant, upgrades to the transmission and distribution system, general plant, pumping plant, water treatment plant, and the Districts source of supply plant. Additions to construction-in-process relate primarily to the continued construction of the bio-remediation plant which were capitalized in 2014. A major portion of the capitalized additions were constructed by the District and transferred out of construction-in-process upon completion of these various projects.

For the Fiscal Years Ended June 30, 2014 and 2013

(6) Deferred Outflows of Resources

On October 1, 2006, upon issuance of the Water and Wastewater Revenue Bonds (Series 2006D-2 Bonds), the District received a discount on the bonds amounting to \$338,360 and incurred bond insurance costs amounting to \$174,867. Both the discount and bond insurance costs have been capitalized and amortized as a component of interest expense through the term of the bond using the straight-line method.

In fiscal year 2013, the District adopted *Governmental Accounting Standards Board Statement No. 63 – Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and *Governmental Accounting Standards Board Statement No. 65 – Items Previously Reported as Assets and Liabilities*. In accordance with GASB No. 63, and GASB No. 65, discounts on the issuance of debt have been categorized as deferred outflows of resources on the Statement of Net Position.

The changes to deferred outflows of resources at June 30, were as follows:

	Balance 2013	Additions	Amortization	Balance 2014
Deferred outflows of resources:				
Discount on revenue bonds, net	\$ 250,517	-	(13,014)	237,503
	Balance 2012	Additions	Amortization	Balance 2013
Deferred outflows of resources:				
Discount on revenue bonds, net	\$ 263,531	-	(13,014)	250,517

(7) Compensated Absences

The District's policy is to permit employees to accumulate earned vacation and qualified sick leave. The liability for vested vacation and sick leave is recorded as an expense when earned. Upon termination or retirement, employees are entitled to receive compensation at their current base salary for all unused vacation and qualified sick leave.

	Balance 2013	Earned	Taken	Balance 2014	Current Portion	Long-Term Portion
\$	508,456	456,993	(396,666)	568,783	255,952	312,831
	Balance 2012	Earned	Taken	Balance 2013	Current Portion	Long-Term Portion
\$	511,813	413,050	(416,407)	508,456	228,805	279,651

(8) Pension Related Debt – CalPERS Side-Fund

As of June 30, 2003, CalPERS implemented risk-pooling for the District's agent multiple-employer public employee defined benefit pension plan. As a result, the District's defined benefit pension plan with CalPERS converted from an agent multiple-employer plan to a cost sharing multiple-employer plan. This change in the type of the plan created the CalPERS Side-Fund, which CalPERS financed at a 7.75% interest rate (for fiscal year 2013 and beyond CalPERS reduced the rate to 7.50%). CalPERS actuarially calculated the amount needed to bring the District into the cost sharing multiple-employer plan on an equal basis with other governmental agencies that all had less than 100 active and retired employees combined. The reason that CalPERS switched these governmental agencies into the cost sharing multiple-employer plan was to smooth the annual costs related to the pension benefit over a longer period of time resulting in a lower cost of service to the governmental agencies.

West Valley Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(8) Pension Related Debt – CalPERS Side-Fund, continued

A portion of the District’s annual required contribution to CalPERS are actuarially determined and shared by all governmental agencies within the cost sharing risk pool. Also, the District is required to make systematic pay-as-you-go payments to pay-down the CalPERS Side-Fund, as well. The responsibility for paying-down the District’s CalPERS Side-Fund is specific to the District and is not shared by all governmental agencies within the cost sharing risk pool. Therefore, the CalPERS Side-Fund falls under the definition of pension-related debt, as described in GASB Statement No. 27.

The following long-term debt has been recorded on the District’s financial statements as the District is making systematic pay-as-you-go payments to CalPERS each payroll period. The annual repayment schedule is as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2015	\$ 110,297	60,503	170,800

Water Participation Rights Contract Payable

In 2012, the District acquired water participation rights from the San Bernardino Valley Municipal Water District. These rights entitle the District to purchase water from the Baseline Feeder system. The payment for the rights is calculated at 5,000 acre feet at \$90 per acre foot, per year, payable in monthly installments of \$26,794, until January 31, 2041. The calculated annual amount of \$321,529 is a minimum usage fee which does not actually represent the purchase of any water. Purchased water is billed in addition to the minimum fee. Annual payments on the water participation rights are as follows:

Year	Payment
2015	\$ 375,117
2016	321,529
2017	321,529
2018	321,529

2035-2039	1,607,645
2040-2041	643,054
Total	8,734,867
Less current portion	(375,117)
Total non-current	\$ 8,359,750

Limited Obligation Improvement Bonds Assessment District No. 97-1

Assessment District No. 97-1 (Crestmore Heights Mutual Water Company) was established to provide financing for construction and improvements of the water system. On April 16, 1998, Limited Obligation Improvement Bonds Assessment District No. 97-1 were issued through Rural Development, Farmers Home Administration for \$552,067. The payments on this indebtedness are being paid by the property owners within Assessment District No. 97-1. The bonds are being repaid in twenty annual installments with the last payment on September 1, 2017. Annual debt service requirements on the Limited Obligation Improvement Bonds Assessment District No. 97-1 are as follows:

Year	Principal	Interest	Total
2015	\$ 30,000	6,407	36,407
2016	35,000	4,741	39,741

(9) Long-term Debt, continued

Series 2006D-2 Bonds

On October 1, 2006, the District issued \$32,365,000 in Water and Wastewater Revenue Bonds (Series 2006D-2 Bonds). The proceeds of the issue are being used to prepay the 2004A CSCDA Water and Wastewater Revenue Bonds and to finance improvements to the System, including upgrading, renovation and /or installation of booster plants, wells, reservoirs, pipelines and metering stations, water treatment facilities, including the granulated activated carbon filter for the Treatment Plant

A total of \$14,635,000 from the Series 2006D-2 Bonds was used to pay off the outstanding principal of the 2004A CSCDA Water and Wastewater Revenue Bonds. As a result, the 2004A CSCDA Water and Wastewater Revenue Bonds are considered defeased and the liability for those obligations have been removed from the financial statements. The District completed the advance refunding to reduce the District's total debt service payments over the next 22 years by \$539,057 and to obtain an economic gain of approximately \$369,570.

The Series 2006D-2 Bonds are payable solely from the net revenues of the District's water system as defined in the Series 2006D-2 Bond Indenture. The Bonds bear interest at a variable rate with principal maturities from 2007 to 2033.

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2015	\$ 1,045,000	1,113,028	2,158,028

Total non-current	\$ <u>24,970,000</u>		

(10) Deferred Compensation Savings Plan

For the benefit of its employees, the District participates in a 457 Deferred Compensation Program (Program). The purpose of this Program is to provide deferred compensation for public employees that elect to participate in the Program. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death or unforeseeable emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the District is in compliance with this legislation. Therefore, these assets are not the legal property of the District, and are not subject to claims of the District's general creditors. Market value of all plan assets held in trust by the District deferred compensation plan at June 30, 2014 and 2013 amounted to \$2,187,618 and \$1,946,541, respectively.

The District has implemented GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. Since the District has little administrative involvement and does not perform the investing function for this plan, the assets and related liabilities are not shown on the statement of net position.

West Valley Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(11) Defined Benefit Pension Plan

Plan Description

The District contributes to the California Public Employees Retirement System (CalPERS), a cost-sharing multi-employer defined benefit pension plan. CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. CalPERS acts as a common investment and administrative agent for participating public agencies within the State of California. Benefit provisions and all other requirements are established by state statute and the Agency. Copies of CalPERS annual financial report may be obtained from their executive Office: 400 P Street, Sacramento, CA 95814.

Funding Policy

The contribution rate for plan members in the CalPERS, 2.0% at 55 Risk Pool Retirement Plan is 7% of their annual covered salary and is paid by the District. The District makes these contributions required of District employees on their behalf and for their account. Also, the District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The required employer contribution rates are equal to the annual pension costs (APC) percentage of payroll for fiscal years 2014, 2013, and 2012 as noted below. The contribution requirements of the plan members are established by State statute, and the employer contribution rate is established and may be amended by CalPERS.

Second-Tier – Beginning January 1, 2013

The contribution rate for plan members in the CalPERS 2.0% at 62 Retirement Plan is 6.25% of their annual covered wages. The District employees hired on or after January 1, 2013, contribute 6.25% of their annual covered wages to their account. Also, the District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members.

California Public Employees’ Pension Reform Act of 2013

On September 12, 2012, the California Governor signed the California Public Employees' Pension Reform Act of 2013 (PEPRA) into law. PEPRA took effect January 1, 2013.

Funding Policy

Key components of the legislation are as follows:

- Establishes PEPRA which will apply to all public employers and public pension plans on and after January 1, 2013 (Except specific exemptions);
- Establishes new retirement tiers/benefits for new public employees;
- Prohibits certain cash payments from being counted as compensation; and
- Increases retirement age for all new public employees.

For Fiscal years 2014, 2013, and 2012, the District’s annual contributions for the CalPERS plan were equal to the Agencies required and actual contributions for each fiscal year as follows:

Three Year Trend Information:

Fiscal Year	Annual Pension Cost (APC)	Percentage of APC Contributed	APC Percentage of Payroll
2012	\$ 499,618	100%	14.629%
2013	522,925	100%	14.798%
2014	578,038	100%	15.118%

See the Schedule of Funding Status in the Required Supplementary Information Section on Pages 47-48.

(11) Defined Benefit Pension Plan, continued

Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially-determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and the pattern of sharing of costs between the employer and plan members to that point. Consistent with the long-term perspective of actuarial calculations, actuarial methods, and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities for benefits.

The following is a summary of the actuarial assumptions and methods:

Valuation date	June 30, 2012
Actuarial cost method	Entry age normal cost method
Amortization method	Level percent of payroll, open
Average remaining amortization period	20 years as of the valuation date
Asset valuation method	15 year smoothed market
Actuarial assumptions:	
Discount rate	7.50% (net of administrative expenses)
Projected salary increase	3.30% to 14.20% depending on age, service, and type of employment
Inflation	2.75%
Payroll growth	3.00%
Individual salary growth	A merit scale varying by duration of employment coupled with an assumed annual inflation growth of 2.75% and an annual production growth of 0.25%

(12) Other Post Employment Benefits Payable

The District provides other post-employment benefits (OPEB) to qualified employees who retire from the District and meet the District's vesting requirements. During the fiscal year ended June 30, 2009, the District implemented GASB Statement No. 45, which changed the accounting and financial reporting used by local government employers for post employment benefits. Previously, the costs of such benefits were generally recognized as expenses of local government employers on a pay-as-you-go basis. The new reporting requirements for these benefit programs as they pertain to the District are set forth on the following page.

Plan Description – Eligibility

A retired employee and dependent spouse, or spouse of a deceased employee or retiree must satisfy the following requirements in order to be eligible for post employment medical and dental benefits:

- Employee is a minimum of 50 years of age with at least 10 years of continuous service.
- Full time employees hired on or after July 1, 2006, is a minimum of 55 years of age with a minimum of 20 years of continuous service.

If the spouse of a deceased employee or retiree remarries and becomes eligible for health benefits under his/her new spouse's health plan, all District benefits shall be terminated.

West Valley Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(12) Other Post Employment Benefits Payable, continued

Membership in the OPEB plan consisted of the following members as of June 30:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Active plan members	59	59	60
Retirees and beneficiaries receiving benefits	18	17	15
Separated plan members entitled to but not yet receiving benefits	<u>-</u>	<u>-</u>	<u>-</u>
Total plan membership	<u><u>77</u></u>	<u><u>76</u></u>	<u><u>75</u></u>

Plan Description – Benefits

The District offers post employment medical and dental benefits to retired employees who satisfy the eligibility rules. Spouses and surviving spouses are also eligible to receive benefits. Retirees may enroll in any plan available through the District’s medical and dental programs. The contribution requirements of Plan members and the District are established and may be amended by the Board of Directors.

Funding Policy

The District is required to contribute the *Annual Required Contribution (ARC) of the Employer*, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The current ARC rate is 25.5% of the annual covered payroll.

Annual Cost

For the years ended June 30, 2014 and 2013, the District’s ARC cost is \$1,059,041 and \$1,151,048, respectively. The District’s net OPEB payable obligation amounted to \$4,637,493 and \$3,830,499 for the years ended June 30, 2014 and 2013, respectively. The District contributed \$183,750 and \$169,926 in adjustment contributions for current retiree OPEB premiums for the years ended June 30, 2014 and 2013, respectively.

The balance at June 30, consists of the following:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Annual OPEB expense:			
Annual required contribution (ARC)	\$ 1,059,041	1,151,048	941,216
Interest on net OPEB obligation	153,220	132,695	90,409
Adjustment to annual required contribution	<u>(221,518)</u>	<u>(137,197)</u>	<u>(90,528)</u>
Total annual OPEB expense	990,743	1,146,546	941,097
Change in net OPEB payable obligation:			
Age adjusted contributions made	(183,750)	(169,926)	(141,012)
Contributions to irrevocable trust	<u>-</u>	<u>-</u>	<u>-</u>
Total change in net OPEB payable obligation	806,993	976,620	800,085
OPEB payable – beginning of year	<u>3,830,499</u>	<u>2,853,879</u>	<u>2,053,794</u>
OPEB payable – end of year	<u><u>\$ 4,637,492</u></u>	<u><u>3,830,499</u></u>	<u><u>2,853,879</u></u>

West Valley Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(12) Other Post Employment Benefits Payable, continued

Annual Cost, continued

The District's annual OPEB cost, the percentage of the annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2014 and the three preceding years were as follows:

<i>Three-Year History of Net OPEB Obligation</i>					
Fiscal Year Ended	Annual OPEB Cost	Age Adjusted Contribution	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation Payable	
2014	\$ 806,993	183,750	22.77%	\$ 4,637,492	
2013	976,620	141,012	14.44%	3,830,499	
2012	800,085	136,871	17.11%	2,053,794	

See the Schedule of Funding Status in the Required Supplementary Information Section on Page 48.

Funded Status and Funding Progress of the Plan

The most recent valuation (dated July 1, 2013) includes an Actuarial Accrued Liability and Unfunded Actuarial Accrued Liability of \$10,121,028. The covered payroll (annual payroll of active employees covered by the plan) was \$4,147,630. The ratio of the unfunded actuarial accrued liability to annual covered payroll is 244.02%.

Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and the pattern of sharing of costs between the employer and plan members to that point. Consistent with the long-term perspective of actuarial calculations, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities for benefits.

The following is a summary of the actuarial assumptions and methods:

Valuation date	July 1, 2013
Actuarial cost method	Projected unit credit
Amortization method	30-year level dollar
Amortization period	open
Remaining amortization period	25 Years as of the valuation date
Asset valuation method	15 Year smoothed market
Actuarial assumptions:	
Investment rate of return	2.50% – Current LAIF rating (rounded)
Projected salary increase	3.25%
Inflation - discount rate	4.00%
Individual salary growth	District annual COLA

West Valley Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(16) Adjustment to Net Position

Capital Assets –Developer Tract Construction

In fiscal year 2014, the District determined that a developer project titled “tracts 16873, 16874, 16875” was completed and should have been capitalized as of June 30, 2007. As a result, developer contributed assets amounting to \$241,813 and related depreciation of \$28,211 were not recorded in the Districts accounts. Therefore, the District has recorded a prior period adjustment to net position in the amount of \$213,433 at June 30, 2012, the most recent period presented.

Accounts Receivable – Unbilled Receivable

In fiscal year 2014, the District determined that accounts receivable did not include the billing activity for the month of July 2013, which related to the 2013 fiscal year. Accordingly, the District has recorded a prior period adjustment to net position in the amount of \$695,557 at June 30, 2013.

Accounts Receivable – Allowance for Uncollectible Accounts

In fiscal year 2014, the District determined that accounts receivable did not record an allowance to account for collectible accounts receivable at fiscal year-end 2013. The status of collectability is considered uncertain and material in nature. Current assets may be overstated. As a result, the District has recorded a prior period adjustment to net position in the amount of \$305,000 at June 30, 2013.

Capital Assets –Various Developer Construction

In fiscal year 2014, the District determined that three projects relating to the water system identified as tracts 16873, 16874, 16875, and one developer project relating to the San Bernardino County Public Works, should have been capitalized as of June 30, 2013. As a result, developer contribution to assets amounting to \$308,910 and the related project costs of \$49,899 which should have been expensed were not recorded on the Districts books. Therefore, the District has recorded a prior period adjustment to net position in the amount of \$259,011 at June 30, 2013.

Unearned Revenue – Contractors

In fiscal year 2014, the District determined that revenue related to developer projects was being recognized prior to project completion in the Districts accounts as of fiscal year-end 2013. Certain revenue charges are determined from construction bids for property contribution, administration fees, inspection fees and backflow installation charges. The Districts revenue recognition policy dictates that revenue is not recorded until earned. Therefore, the District has recorded a prior period adjustment to net position in the amount of \$406,236 at June 30, 2013.

Previously recorded net position of \$103,472,205 and \$100,154,397 has been adjusted to \$103,928,970 and \$100,367,830 as of June 30, 2013 and 2012, respectively. The effect of the above adjustment is summarized as follows:

The adjustment to net position is as follows:

Net position at July 1, 2011, as previously stated	\$ 92,982,721
Effect of adjustment to record capitalized assets	213,433
Change in net position at June 30, 2012, as previously stated	7,171,676
Net position at June 30, 2012, as restated	100,367,830
Effect of adjustment to record unbilled receivables	695,557
Effect of adjustment to record allowance for doubtful accounts	(305,000)
Effect of adjustment to record capitalized assets	259,011
Effect of adjustment to record deferred revenue - developers	(406,236)
Change in net position at June 30, 2013, as previously stated	3,317,808
Net position at June 30, 2013, as restated	\$ 103,928,970

West Valley Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(17) Expense Reimbursement

On July 13, 2010, the District entered into an agreement with the City of Rialto (City) in conjunction with the bio-remediation construction project, which included the rehabilitation of the City's wells and infrastructure. As part of the agreement the City was to pay 50% of the shortfall between the anticipated funding and actual costs of the design and construction of the project. During the 2013 fiscal year, the bio-project was completed and the District received the 50% reimbursement from the City in the amount of \$2,000,000.

(18) Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is a member of the Association of California Water Agencies/Joint Powers Insurance Authority (ACWA/JPIA), an intergovernmental risk sharing joint powers authority created to provide self-insurance programs for California water agencies. The purpose of the ACWA/JPIA is to arrange and administer programs of self-insured losses and to purchase excess insurance coverage. At June 30, 2014, the District participated in the liability and property programs of the ACWA/JPIA as follows:

- General and auto liability, public officials and employees' errors and omissions: Total risk financing self-insurance limits of \$2,000,000, combined single limit at \$2,000,000 per occurrence. The JPIA purchases additional excess coverage layers: \$60 million per occurrence for general, auto and public officials liability, which increases the limits on the insurance coverage noted above.

In addition to the above, the District also has the following insurance coverage:

- Employee dishonesty coverage up to \$100,000 per loss includes public employee dishonesty, forgery or alteration and theft, disappearance and destruction coverage's.
- Property loss is paid at the replacement cost for property on file, if replaced within two years after the loss, otherwise paid on an actual cash value basis, to a combined total of \$100 million per occurrence, subject to a \$2,500 deductible per occurrence.
- Boiler and machinery coverage for the replacement cost up to \$50 million per occurrence, subject to various deductibles depending on the type of equipment.
- Workers' compensation insurance up to California statutory limits for all work related injuries/illnesses covered by California law. Coverage is through the Special Districts Risk Management Authority.

Settled claims have not exceeded any of the coverage amounts in any of the last three fiscal years and there were no reductions in the District's insurance coverage during the year ending June 30, 2013. Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage. Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no IBNR claims payable as of June 30, 2014, 2013, and 2012, respectively.

West Valley Water District
Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(19) Governmental Accounting Standards Board Statements Issued, Not Yet Effective

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2014, that has effective dates that may impact future financial presentations.

Governmental Accounting Standards Board Statement No. 68

In June 2012, the GASB issued Statement No. 68 – *Accounting and Financial Reporting for Pensions— an amendment of GASB Statement No. 27*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement. The provisions of Statement 68 are effective for fiscal years beginning after June 15, 2014. The impact of the implementation of this Statement to the District's financial statements has not been assessed at this time.

Governmental Accounting Standards Board Statement No. 69

In January 2013, the GASB issued Statement No. 69 – *Government Combinations and Disposals of Government Operations*. The objective of this Statement is to provide new accounting and financial reporting standards for government mergers and acquisitions and for government operations that have been transferred or sold. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2013. The impact of the implementation of this Statement to the District's financial statements has not been assessed at this time.

Governmental Accounting Standards Board Statement No. 71

In November 2013, the GASB issued Statement No. 71 – *Pension Transition for Contributions made Subsequent to the Measurement Date – an amendment of GASB No. 68*. The objective of this statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by state or local government employer or non-employer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The requirements of this Statement will eliminate the source of a potential significant understatement of restated beginning net position and expense in the first year of implementation of Statement No. 68 in the accrual-basis financial statements of employers and non-employer contributing entities. The provisions of this Statement are required to be applied simultaneously with the provisions of Statement No. 68.

Notes to the Basic Financial Statements, continued
For the Fiscal Years Ended June 30, 2014 and 2013

(20) Commitments and Contingencies

Construction Contracts

The District has a variety of agreements with private parties relating to the installation, improvement or modification of water facilities and distribution systems within its service area. The financing of such construction contracts is being provided primarily from the District's replacement reserves and advances for construction. The District has committed to approximately \$502,543 in open construction contracts as of June 30, 2014. See the table on the following page.

Open construction contracts include the following:

<u>Project Name</u>	<u>Total Approved Contract</u>	<u>Construction Costs to Date</u>	<u>Balance to Complete</u>
Duncan Canyon Road Interchange Schedule II	\$ 302,063	205,100	96,963
Water service laterals replacement Colton	<u>200,480</u>	<u>-</u>	<u>200,480</u>
Total	<u>\$ 502,543</u>	<u>205,100</u>	<u>297,443</u>

These open construction contracts relate to on-going construction-in-progress as reported in Note 4 on pages 32 and 33 of this report.

Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

(21) Subsequent Events

Events occurring after June 30, 2014, have been evaluated for possible adjustment to the financial statements or disclosure as of December 24, 2014, which is the date the financial statements were available to be issued.

Schedule of Funding Status
For the Fiscal Years Ended June 30, 2014 and 2013**

3.) Other Post-Employment Benefits Payable

Required Supplemental Information – Schedule of Funding Progress

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (b)	Unfunded Actuarial Accrued Liability (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
7/1/2013	-	10,121,028	10,121,028	0.00%	\$ 4,147,630	244.02%
7/1/2011	-	10,360,723	10,360,723	0.00%	\$ 4,136,087	250.50%
7/1/2008	-	7,369,854	7,369,854	0.00%	3,334,696	221.01%

Funding progress is presented for the year(s) that an actuarial study has been prepared since the effective date of GASB Statement 45. Actuarial review and analysis of the post-employment benefits liability and funding status is performed every three years or annually if there are significant changes in the plan. The next scheduled actuarial review and analysis of the post-employment benefits liability and funding status will be performed in fiscal year 2015 based on the year ending June 30, 2014.

General Notes:

- Note 1: Fire Service rate was the same as regular Water Service until 2006, at which point it became 50 times the water rate.
- Note 2: Out of District rates for Water Service are one and a half times the In-District rates.
- Note 3: The rates for Golf Course and Irrigation Services are by written agreement between the user and the District.
- Note 4: Currently, the rate for the 10 Irrigation accounts are at the same levels as the FY 2012 rates.
- Note 5: There are no active Golf Course accounts.

Independent Auditor's Report on Internal Control Over Financial Reporting And on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Directors
West Valley Water District
Rialto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the West Valley Water District (District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprises the District's basic financial statements, and have issued our report thereon dated December 24, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Independent Auditor's Report on Internal Control over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards*, continued**

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
